### Home Interests.

**LEMON CUSTARD PIE.**—Two cups of sugar, beat with it the white of one and the yolks of four eggs, grate the yellow and squeeze the juice of one large lemon. Mix one tablespoonful of flour with two of water, then thin it with another tablespoonful of water, and mix with the rest, add two cups of cold water and a pinch of salt. Beat the whites of three eggs stiff and stir very quickly with the rest, have the crust ready, pour in the custard and bake half an hour, this makes two good-sized pies.

**TO CLEANSE TAPESTRY CARPETS.**—Beat and sweep them thoroughly, remove all grease spots with ox-gall mixed with water, put on with a scrubbing brush; then wipe the whole carpet with a mop or cloth wrung from a weak solution of ox-gall in warm water. This removes the dust and brightens all the colors.

**CUSTARD OMELET.**—Two cups of milk, one tablespoon of butter, four eggs. Put the butter and milk in a pan and whilst it is heating beat up the eggs. When the milk is hot, stir in the eggs; keep stirring it till it thickens and send it to the table immediately. Try it, it is delicious.

**STRENGTHENING JELLY.**—Boil in two quarts of water one ounce of rice, one ounce of ego, and one ounce of pearl barley, until reduced one-half. Strain into a mould; take a teaspoonful morning, noon and night. It can be sweetened and flavored to taste.

**SALT IN SICKNESS.**—The Celebrated Dr. Scudder remarks, with regard to the use of this condiment in sickness: "I am satisfied that I have seen patients die from the deprivation of common salt during a protracted illness. It is a common mistake to suppose that the food for the sick should not be seasoned and whatever else may be given, it is almost essential to the recovery of the patient."

life. In the milk diet that I recommend in sickness, common salt is used freely, the milk being boiled and given hot. And if the patient cannot take the usual quantity in his food, I have given it in his drink. This matter is so important that it can not be repeated too often, or dwelt upon too long.

"The most marked example of this want of common salt I have ever noticed has been in surgical disease, especially in open wounds. Without a supply of salt, the tongue would become broad, pallid, puffy, with a tenacious pasty coat, the secretions arrested, the circulation feeble, the effusion at the point of injury serious, with an unpleasant watery pus, which at last becomes a mere sanies or ichor. A few days of a free allowance would change all this, and the patient get along well."

**BLACKBERRY CORDIAL.**—To two quarts of juice add one pound of white sugar; half ounce nutmeg; half ounce cloves pulverized. Boil all together for a short time, and when cold add a pint of brandy. This syrup is said to be almost a specific for summer complaint or diarrhea. From a teaspoonful to a wine glass is to be taken, according to the age of the patient, until relieved.

**PLASTER FOR EGGS.**—Eggs can be kept fresh and good for a whole year, by packing them in old dry plaster. It is a cheap way to put them up for winter use. Keep them in a dry place.

**ENDOWMENT SCHEME!**  
**FIFTH AND LAST CONCERT**  
In aid of the  
**Public Library of Kentucky.**  
**JULY 31, 1874.**

In announcing the Fifth and last of the series of Gift Concerts, given for the benefit of the Public Library of Kentucky, the Trustees and Manager refer with pride and pleasure to the four which have been already given: The first, December 16, 1871; the second, December 2, 1872; the third, July 8, 1873; and the fourth, March 31, 1874.

Under their charter, granted by a special act of the Kentucky Legislature, March 15, 1871, the Trustees are authorized to give out more, and only one more Gift Concert. With the money arising from this Fifth and Last Concert, the Library, Museum, and other departments are to be enlarged and endowed with a fixed and certain annual income. Such an endowment fund is desired, as will secure beyond peradventure, not only the maintenance of this magnificent establishment, but its constant growth.

**THE FIFTH GIFT CONCERT**  
for the purposes mentioned, and which is positively and unequivocally announced as the last which will ever be given under this charter and by the present management, will come off in the Public Library Hall, at Louisville, Ky., Friday, July 31, 1874.

At this final concert everything will be upon a scale corresponding with its increased importance. The music will be rendered by an orchestra consisting of one hundred performers, selected for their fame in different lands, and the unprecedented sum of

#### \$2,500,000

divided into twenty thousand gifts, will be distributed among the ticket-holders.

**COLEMAN'S**

No better evidence of the efficiency of Dr. J. S. Coleman's Compound Extract of Eucalyptus can be desired, than the following summary of cases, treated with this remedy alone, by that eminent physician, Dr. D. V. Weston, in the U. S. Marine Hospital, San Francisco, reported in the August No. 1873, *San Francisco Journal*:

**EUCALYPTUS**

Completely corroborative of the above, are the reports of the experiments with Eucalyptus by Dr. Lorrimer, of Berlin, Prussia, and Dr. Keele, Chief Physician of the Austrian Railway Co., published in the *Ann. Med. Jour.* July, 1872.

It will be found very efficacious in obstinate cases of Dyspepsia, Bronchitis, Hacking Cough, Chronic Sore Throat, Lencorrhoea, etc., and in nausea during pregnancy.

**Dr. Coleman's Double**

Extract of Eucalyptus is a special preparation for the treatment of
