INSANE.—On Saturday last, a man named Duncan, a late arrival from the east, was adjudged insane, and sent to the Asylum at Portland.

A Lebanon boy propounds the awful query: "Which had you rather do, be eaten up by a cougar, or have all the lasses candy you can swaller!"

FOR FISH LAKE.—On Monday morning Mr. Wm. Circle, accompanied by one of his sons, and Messrs. Fisher and Duncan Monteith, started, in a wagon apparently well laden with eatables, for Fish Lake

FOR BLACK BUTTE.—Mr. Caviness and wife start for a trip into the mountains next week. It is this thing continues for two more weeks there won't be a corporal's guard left in this burg. And then if the big circus comes along, won't they be sorry they went!

RETURNED.—Rev. S. G. Irvine and son, James Foster and probably another, arrived home after a two week's trip over the mountains to the Warm Springs Indian Reservation. The trip was made, a greater portion of the way, over the Cascade Mountain Wagon Road, and proved very agreeable to the parties. A religious meeting has been in progress among the Indians at the reservation for some time, greatly to the benefit of the tribe.

Adolphus and Angelina flutter into the drug store now and then, and she says she'll take a little lemon in hern, with the air of an old hand at the biz. Then she throws her eagle eyes on Adolphus—her feller. Dolph is a shrewd cuss. So he gracefully leans over the counter and, with one of them winks, says: "I'll take a little of that same." He's bee there, you bet your stamps, and he gets what he calls for, but it costs him two bits a glass!

GOOD BOY.—Our boys, as in duty bound, pay every attention possible to the safety and welfare of their Nancy Jane's and Eliza Ann's when they take them out buggy riding. This is a business they seem to understand naturally, without any College training. These reflections were caused by seeing one of the boys, last Sunday, who seemed to fully understand himself, and was protecting his lady love better'n anybody. As their gay turnout passed down the street, she was holding the ribbons, while he had both arms around her, and we could see by his determined manner and the wild look in his eye, that he was dead bent on keeping her from falling out, if he perished in the attempt or if cost him a law suit.

HYPNOTISM—ANOTHER REMARKABLE CURE.—We are called upon to chronic's another remarkable cure by the aid of hypnotism. Mr. Parris Richardson, a gentleman of some seventy-two years, on Monday last, was operated upon by Dr. Boughton for sciatica, in the left hip, a disease similar to neuralgia, which had troubled him for more than two months. He had suffered most excruciating pain from the hip down, and it was with great difficulty that he could walk at all. Ten minutes treatment effected a cure—all pain disappeared as if by magic, and he experienced no difficulty whatever in using the limb. The old gentleman told us that he was greatly surprised at the effects produced, as he, up to the time of the operation, had had no belief in it whatever; but as it had entirely relieved him of all pain he wanted everybody to know about it, so that others might be induced to try it for other diseases. There is certainly something wonderful in hypnotism.

NO BACK TALK WANTED.—Our exchanges have been blowing about large fleeces shorn from sheep in their various neighborhoods. We propose, once for all, to set 'em all back right now, and we don't want any back talk, either. This is the tale we have to tell. Among the band of sheep belonging to two wealthy citizens of Linn county was a buck, whose fleece, when taken from his back, weighed seventy-one and a half pounds. The shearing was done in June, and although the weather was warm, and the buck had two pair of blankets wrapped around him, he chilled to death the first night after being deprived of his wool. This statement may seem somewhat extraordinary for even Oregon, but every word can be proven. Whenever you want to blow about the weight of a single fleece, gentlemen, remember you have got to get over 71½ pounds before you can come in.

THE TRIP TO JERVAIS.—On Sunday morning last a special train left this city for Jervais, Marion county, the scene of the campmeeting under control of the Spiritualists, and returned in the evening. Quite a number of folk from this burg were passengers, and all speak of the trip and the meeting as very pleasant and interesting. Going down, a frightened band of sheep attempted to cross the track as the train came up with them. One old ram failed to make the raffle, was struck by the cow-catcher and thrown into a field close by on to his head, breaking his neck. Soon after this a hog was knocked into sausage, because he got it into his head that he could out run a locomotive. A large black dog was next observed upon the track, trotting along as if he had plenty of leisure and there was no lightning train behind him. When the train had approached to within fifty yards of the dog, and the whistle gave a shrill screech, his canineship seemed to first become aware of his danger, and after throwing his head back and casting a single glance at the iron horse, lit out, for keeps—and those who witnessed the race say they never saw a dog make such tremendous leaps and climb faster than this one did for a few seconds. But his gait was too slow for the iron horse, and as he returned to leave the track, a few yards brought it up with him, and

with one tremendous leap into the air, one prolonged howl of rage and despair, he was caught by the cow-catcher, mashed into sausage and thrown on either side of the track. And now it is said that, as each successive train passes the spot where the poor dog was murdered, that fearful, agonizing howl is heard, causing each particular hair of the terrified iron-horse to stand on end!

PERSONAL.—Judge Cronin, of Portland, who had been out at Seio and at Soda Springs for some time, enjoying a little play spell, passed through the city en route for his home on Monday.

Mr Parsons, of Portland, left us on Tuesday, after spending several days with us.

We were pleased to receive a call, on Monday, from the handsome and accomplished lady lecturer, Miss Ballou, of Ohio.

"Observing the transit of Venus," was what John Henry told his mother when she asked him what he had been doing to keep him out all night.

SPIRITUALISM.—Miss Ada Ballou's lecture at the Court House on Monday evening, was listened to attentively by a large and intelligent audience. She speaks fluently, intelligently, and holds the entire attention of her audience throughout. Miss Ballou talks of making quite a stay in Oregon.

THE FESTIVAL.—At Pacific Opera House on Friday night of last week, was not as well attended as the objects, and the labor expended in getting it up, deserved. The net receipts were only some \$45 or \$50.

Sewing Machine Sales of 1873.

The table of Sewing Machine Sales for 1873 shows that our sales last year amounted to 252,444 (two hundred and thirty-two thousand, four hundred and forty-four) Machines, being a large increase over the sales of the previous year (1872).

The table also shows that our sales Exceeded those of any other Company, for the period named, by the number of 113,254 Machines, or nearly double those of any other Company.

It may be further stated that the sales of 1873, as compared with those of 1872, show a relatively larger increase, beyond the sales of other makers, than of any other year.

For instance in 1872 we sold 45,000 more Machines than any other Company, whereas, in 1873, the sales were 113,254 Machines in excess of our Highest Competitor.

These figures are all the more remarkable, for the reason that the sales of the principal Companies in 1873 are less than their sales in 1872; whereas, as has been shown, our sales have largely increased.

The account of sales is from returns made to the owners of the Sewing Machine Patents.

It will hardly be denied, that the superiority of the SINGER MACHINES is fully demonstrated—at all events that their popularity in the household is unquestionable.

Table with 3 columns: Name of Machines, No. Sold, Increase or Decrease. Rows include Singer Mfg Co., Sewer S. M. Co., W. & W. Mfg Co., etc.
