Home Interests.

BRAN-BREAD.—This is a capital recipe, for the bread keeps fresh for a long time, and is very easily made: 2 1/2 lbs brown flour, that is the wheat as ground, no bran being taken out, 1/2 lb white flour, 1/2 ounce soda, 4 teaspoonfuls tartaric acid, a lump of ammonia the size of a nut, 1 1/2 pints of milk and water, or pure water. To be baked in a tin.

TAFFY.—1/2 pint molasses, 1/2 lb coarse brown sugar, not quite 1/2 lb of butter, the juice of one lemon; all boiled together till it becomes quite firm, which may be ascertained by dropping a little into a tumbler of cold water; pour into a plate or on a marble flat till cold.

RASPBERRY CREAM.—Put two large table-spoonfuls of raspberry jam in a very fine and clean sieve, pour over it and work through one pint thick cream, then whisk it until it thickens; meanwhile dissolve 1/2 oz of isinglass or gelatine, and 2 oz lump sugar in a teacupful of milk, and add gradually to the cream; when quite thick turn into a mould.

STEWED APPLES.—Make a syrup with 1/2 lb of sugar to each pint of water, some lemon peel and juice. Pare and core the apples, and simmer (but do not boil) them by the side of the fire, turning them now and then. When pretty clear take them off, and if they require it, put them in the pan another day, or warm the syrup and pour over. They will keep twelve months, but require looking at occasionally. If wanted for use immediately, use 1/2 lb of sugar, made into a syrup, to twelve apples. Simmer then till pretty clear.

Scissoring.

A Lexington, Ky., paper relates that, in that vicinity, recently, a party of thieves, wearing disguises, broke into the house of a widow lady, and demanded a sum of money she had recently received. The money was given up, when the thieves demanded that the lady should prepare them something to eat. This was done, and the men ate heartily, but the lady had mixed poison with the food, and the next morning two of the thieves were found dead. One of them is said to have been recognized as the lady's nephew.

Farmers tell the Walla Walla Union that in many places only the very best portions of the fields will be harvested. They say that when they pay \$1 50 per acre for heading and bear the expense of hauling, stacking and threshing, it takes pretty good grain to come out even on. They, therefore, will only harvest the better portion, and let their hogs have the balance.

Miss Kate West, of Paris, Ky., died a few days ago from an overdose of arsenic, taken, it is supposed, for the purpose of improving her complexion. She was of a good family and had a large circle of friends.

A local humorist at Brunswick (Me.), says: Parents should look more carefully into the education of their children. A neglect in this direction is apt to entail endless misery upon their offspring. Only last night a youth lost three games of seven-up in Kinkhorst's saloon, solely through his ignorance of mathematics.

During a recent thunder-storm near Kate's Lake, just below Quincy, Ill., says the Herald of that city, a flash of lightning struck a reaper in the field of Peter Haynor, knocking several men down and badly stunning them for a few moments, but fortunately without injuring any one. The horses attached to the machine immediately took fright and dashed off across the field, using up the reaper pretty badly, which was about the extent of the damage.

G. D. Powell, M. D., in the Irish Farmer's Gazette, describes the cure of a valuable horse by means of electro-puncture needles, from four to six being inserted in the principal muscle of the fore-quarters, also along the spine and hind-quarters. The battery employed was that of Leclanche, from four to twelve large cells, alternating in strength, and the current broken, causing the muscles to contract perceptibly. This was kept up from two to three minutes at each place. Prior to treatment, the animal was in so bad a condition that the owner was about to cause him to be shot. But within six weeks after the commencement of the electrical treatment, the horse was perfectly restored, and is now sound and useful.

In the State of Ohio there resided a family consisting of an old man of the name of Beaver, and his four sons, all of whom were hard "pets," who had often laughed to scorn advice and entreaties of a pious though very excellent minister, who resided in the same town. It happened that one of the boys was bitten by a rattlesnake, and was expected to die, when the minister was sent for in great haste. On his arrival he found the young man very penitent and anxious to be prayed with. The minister, calling on the family, knelt down, and prayed in this wise: "O Lord! we thank Thee for rattlesnakes. We thank Thee because a rattlesnake has bit Jim. We pray Thee send a rattlesnake to bite John; send one to bite Bill; send one to bite Sam; and, O Lord, send the biggest of Thy rattlesnakes to bite the old man; for nothing but rattlesnakes will ever bring the Beaver family to repentance.

The Detroit Free Press relates a singular coincidence: "About a week ago, John Schroder and Henry Andre, both of whom died on Monday, determined to visit Rochester, New York, together. At parting they shook hands merrily, and in a jocular spirit entered into an agreement that they would both die on the same day. Before a week had passed, Andre was dead, and Schroder was hopelessly ill, both having the same disease. Twelve hours after Andre's death, Schroder screamed out that Andre was calling him, made an effort to rise, choked, and fell back a corpse. He did not know that his friend had died, and the facts stated in this paragraph are vouched for by members of his own family."

COLEMAN'S No better evidence of the efficiency of Dr. J. S. Coleman's Compound Extract of Eucalyptus can be desired, than the following summary of cases, treated with this remedy alone, by that eminent physician, Dr. DAVIS, W. ST. A., in the U. S. Marine Hospital, San Francisco, reported in the AMERICAN No. 1879, Pacific Med. Journal:

EUCALYPTUS

Table with 2 columns: Disease Name and Cures. Includes Remittent fever, Chills and Fever, Typhoid Fever, Inflamm. of Kidneys, Diarrhea, Incontinence of Urine, Stricture, Inflamm. of Bladder, Hemorrhoids, Inflamm. of the Heart, Dysentery, Chronic Diarrhoea, Gonorrhoea, Dropsy.

Completely corroborative of the above, are the reports of the experiments with Eucalyptus by Dr. Lorrimer, of Berlin, Prussia, and Dr. Keeble, Chief Physician of the Austrian Railway Co., published in the Am. Med. Jour., July, 1872. It will be found very efficacious in obstinate cases of Dyspepsia, Bronchitis, Hacking Cough, Chronic Sore Throat, Leucorrhoea, etc., and in nausea during pregnancy.

Dr. Coleman's Double Extract of Eucalyptus is a special preparation for the treatment of FEVER and AGUE, and is warranted to cure every case treated according to directions, without the injurious results of the usual Quinine and arsenical remedies for this disease. Also pure fluid extract of Eucalyptus, in one pound bottles, for physicians use. Beware of imitations, and take none but Coleman's. For sale everywhere, and by J. Odier, Calif. & Co., Druggists, Portland, Agents for Oregon.

\$1,000 REWARD FOR AN Incurable Case!

DR. LE RICHAU'S GOLDEN BALSAM!
