ADVICE.-If your neighbor's hens are troublesome and steal across the way, don't let your angry passions rise, but fix a place for them to lay.

A STAND OFF ... One of the boys" returned bome late Saturday night full as a tick, when Sally Ann greeted him with the sarcastic remark : "Drunk again!" to which he unfeelingly replied : "All right, old gal! hic! so be I!"

A GAY DECEIVER.-A report is current on the streets something like this: Not many days since, a young man brought a young lady to this city, and left her at the residence of au acquaintance, while be proceeded to the County Clerk's office to procure a license enabling him to make the aforesaid young lady his wife. As time passed and the young man did not return with the license, the young lady became anxious, and proceeded to make the necessary inquiry as to the cause of his delay, and this was what she learned : Her (supposed) "feller" had procured a license to marry another girl than her, and had proceeded at once to the other girl's residence, where the ceremony was quickly performed, and she had been left to obtain another escort or proceed to her home unattended. There is more of this story, but as it will unfold itself in due time, we refrain from making farther mention.

An insurance case was recently tried in the Court of Queen's Bench, England, wherein payment was disputed of a policy upon the life of a woman, on the plea that the man to whom it was made payable had no insurable interest in her life. The claimant averred that the deceased was his betrothed wife, and this fact being established, the court held that the claimant, had, an, in-surable interest in her life, and, the policy must be paid,

Fewing Machine Sales of 1873.

The table of Sewing Machine, Sales for 1873 shows that our sales last year amounted to 232,444 two hundred and idirty two thousand, four handred and forty-four Machines, being a large increase over the sales of the previous year

The table also shows that our sales Ex-The table also shows that our sales Ex-ceed those of any other Company. for the period named, by the number of 113, 254, Machines, or nearly double those of any other company. It may be further stated that the sales of 1873, as compared with those of 1872, show a relatively larger increase; beyond the sales of other makers, than of any other year.

other year.

For instance in 1872 we sold 45,000 more Machines than any other Company, where us, in 1873, the sales were 173,254 Machines in Excess of our Highest Competitor.

These figures are all the more remarkable, for the reason that the sales of the principal Companies in 1873 are less than their nakes in 1872, whereas, as has been shown, our sales have largely large exacts.

The account of sales is from aways returns under to the owners of the Sewing Machine

It will hardly be denied, that the superiority of the SINGER MACHINES is fully demonstrated—at all events that their popplarity in the household is unquestionable.
