OREGON MANUFACTURE—EXHIBITED BY THE MAKER.

NEW TO-DAY. ATTENTION. PARKER & MORRIS' New Elevator!

IS NOW READY FOR THE RECEP-TION OF WHEAT AND OATS. We call the attention of farmers to the fact that we have erected the finest warehouse in the State, at a large expense, and are in position to handle satisfactorily an immense quantity of grain. Our house has a capacity for 200,000 bushels of wheat

at one time, and is located on the margin of the Willamette River, and provided with a side track from the O. & C. R. R., so that shipments may be made daily by rail, and as of on by water as our facilities offer. We have two large suction fans, in addition to other fans, attached to the house, run by water power, and are thus prepared to

clean all the wheat received. Can take in and clean 10,000 bushels per day. Cleaned wheat is worth much more in all foreign markets than foul wheat, and none should be shipped without cleaning. Our charges will be five cents a bushel on wheat, and four cents on oats. We have SIXTY THOUSAND SACKS

to furnish those storing wheat with us, free to those whose wheat we purchase, and at the lowest cash price to those who sell their wheat from our house to other buyers. Persons storing with us are at liberty to sell to whom they please. Those who reside on the west side of the river will have freight free. Will be in the market as buyers, and expect to be able to pay the highest possible price. Having prepared ourselves to do a large business, we hope for our share of the public patronage. PARKER & MORRIS, July 31st 74 Albany, Oregon.
