An article of original manufacture, called cane fiber felt, is made by a Virginia company. It is the only telt made from cane in the world. It is used as a lining under tin, slate and shingle roofs, and for deatening floors; it also forms a cheap carpet lining and is a substi- them while cooking. tute for plaster; in fact serves any use for which telt can be employed in buildings. It is a non-conductor of heat and cold, and impervious to water or moisture. This felt is plain or resin sized, the latter as well as the former being incdorous. It is cheap, durable and free from objections which characterize other felts.

It is stated that the fiber of the ramie is in great demand for England, and that if proper machinery could be procured to strip it from the plant it would soon rival in importance the trade in cotton. The Direct Trade Company of Eugland will purchase millions of pounds of the fiber at much higher press than would be paid for cotton.

The Parvin steam plow, it is said, has been greatly improved by the use of the Crouch steam engine to propel the motor. With this improvement the plow is said to be a perfect success. The Crouch engine is an invention of a young man of Oregon, who has already become a distinguished inventor, though not yet 18 years old.

The Grangers of California are

Waffles make a nice breakfast dish. They are made thus : Beat well the yelks of 4 eggs, add 23 pints of sweet milk and 1 teaspoonful of salt ; add enough sifted flour to make rather a stiff batter; beat the whites of the eggs very stiff, and stir in lightly the last thing before baking; bake in waffle-irons; seve hot, and eat with butter and sirup. If but 2 eggs are used, add 1 heaping teaspoonful of bakingpowder to the flower.

The best way to cook sweetbreads is to broil them, thus: Parboil and then put them on a clean gridiron for broiling; when delicately browned, take them off and roll in melted butter in a place to prevent their being hard and dry. Some cook them on a griddle, well buttered, turning frequently; others put narrow strips of fat salt pork on

To make Charlotte muffins, take 1 quart of sifted flour, 3 eggs, the whites and yelks beaten separately and until stiff, 3 cups of milk, (if sour no disadvantage if soda he added), a little salt; mix quickly, beat well, and fill the hot irons half full. The excellence of these depends upon thorough beating and quick baking.

Flour chocolate is made by putting 1 teacopful of flour in a small iron kettle and setting over the fire to scorch-stir it constantly to keep it from burning on to the sides of the kettle. When the flour is of a dark brown color, pour boiling water over it, say 2 quarts or more, if the drink should be desirable to be thin. Let the whole boil up a few moments. Add 1 pint of sweet milk, and sugar to suit the taste. Use same as coffee.

Apple jelly made as follows is closh : Soak 1 quart of apples in 4 quarts of water, over night; boil until the apples are soft, strain the water off carefully, and to I quart of juice add a quart of sugar and boil until it jells. If the apples are now making arrangements for the nice, you can sweeten them and they organization of a Grangers' Home. will do very well for sauce, especially if you have a little lemon to put in them But you can use apples for this that are not fit for the table. In looking over dried apples to stew, throw all that are not first class into a dish by themselves for The difference between D. D.'s and M. D.'s-The former preach and the latter practice.

THIS WELL-KNOWN AND POPULAR institution will open on Monday, Au-gust Bist, 1574. The course of study embraces the follow-ing departments, viz: Chassical, Scientif-ic, Commercial, Music and Art. For particulars address, R. K. WARREN, A. M., Albany, Aug. Hm1 President.
