PUNCTUALITY AT DEATH.

Mr. Higgins was a very punctual man in all his transactions through life. He amassed a large property by untiring industry and punctuality, and at the advanced age of ninety years was resting quietly upon his bed and waiting calmly to be called away. He had deliberately made every arrangement for his decease and burial. His pulse grew fainter and the light of his life seemed just flickering into the socket, when one of hissons observed :

"Father, you will have but a day or two: is it not well to name your bearers?"

"To be sure, my son," said the dying man ; "it is well thought of and I will do it now."

He gave a list of six, the usual number, and sank back exhausted upon his pillow. A gleam of thought passed over he rallied once more.

"My son, read me that list. Is the name of Mr.'Wiggins there ?" "It is, my father."

"Then strike it off !" said he, emphatically : " for he was never punctual, was never anywhere in season, and he might hinder the procession a whole hour !"

California's Biggest Nugget, -How much we owe to California ! Her precious metals have enriched thousands of our fellow citizens, and have proved the main stay of America in times of mining industries have given employmentto myriads of mechanics and laborers. She is the laud of promise to the fortune seeker. But the Golden State has lately sent us a new treasure. Her last ,nugget is DR. WALKER'S CALIFOR-NIA VINEGAR BITTERS. The healthgiving principles contained in this curative are a more precious boon than gold. In all affections of the liver and stomach, remittent and intermittent fevers, rheumatism, and pulmonary dispurifying the circulation and infusing new vigor into the debilitated frame. It conquers that most unyielding of all complaints-dyspepsia, and we know of no other remedy that can accomplish this. Its entire freedom from alcoholic spirit, which retards and neutralizes the effect of any medicine, and which forms the basis of many of the pseudo bitters the sick. The papers of the United States vie with one another in doing hou, to Dr. Walker. We, too, add our voice, and say, all honor to the man whose science and skill have enabled him to draw from the vegetable kingdom such a balsam for human suffering. A METHOD to ascertaining with certainty when death has taken place, has been promulgated by Dr. Danis. It is the denudation and section of an artery, which of course will be empty if the that suggested as the best for the purpose, on account of its proximity to the surface, and the slight degree in which it retracts.

Receipts for Making Dr. Sage's Catarrh Remedy and Or. Pierce's Golden Medical Discovery:

Something over a year since, a periodical issued in Berlin, Prussia, and laying claims to a scientific character, published what was repre-sonted as being the formulæ or receipts for making Dr. Sage's Catarrh Remedy and Dr. Pierco's Golden Medical Discovery. The people were left to infer that these had been deducted from a careful chemical analysis of the medicines, which are rapidly growing in popular favor in that as well as in this and most other civilized countries. The receipts were evidently invented by those jealous of the reputation and large sale which these medicines are rapidly acquiring and who are pecuniarily interested in endeavoring to check their sale. So ridiculously preposterous are those receipts that medicines compounded after them could never have gained any repu-tation or sale in any country, for they would be so caustic, poisonous, immediately and positively injurious, as in every case to be prompt-ly condemned by the people on the first trial pillow. A gleam of thought passed over his withered face like a ray of light, and Whereas, it is a well-known fact that all my medicines enjoy the reputation, honestly earned, of being not only efficacious, but perfectly mild, pleasant and harmless in effects. Notwithstanding, however, that the bogus receipts were so ridiculously preposterous as scarcely to have been believed by the most unscientific, thoughtless and unsuspecting people, yet strange and incredible as it may seem, a paper of high scientific pretensions, published in this country, copied the fictitious receipts from the German paper. This they evidently did without a moment's reflection, for that much consideration, given by an intelligent mind, to the receipts and the properties and effects of the mixtures that would result from such a compounding of well-known caustic and poisonous chemicals and drugs, would have condemned them as bogus fabrications, and the pretentious publishers of the paper that originally insarted them, as either knaves or fools. On my atten-tion being called to the matter, in order that some thoughtless and over-credulous people might not be deceived and misled by seeing such an announcement in a paper laying claim to a scientific character, as well as to clear myself of the imputation of being guilty of perpetrating a wicked fraud upon the people, as such announcement, if uncontradicted, would imply, I, as proprietor and manufacturer of the aforesaid celebrated medicines, went be-fore a magistrate and made oath to the fact that the said receipts were utterly false. My affidavit was sent to the publishers of the paper into which the bogus receipts had been copied, and in a subsequent issue an editorial notice was given of my denial. But, notwithstanding such correction and denial, made un-der oath, certain individuals, who lounge around and infest our large cities, gaining a livelihood by perpetrating all kinds of catch-penny frauds upon the credulous, were thereby given the hint that, as my medicines were universally nopular, by advertising for sale bogus receipts for making them, they could get lots of ignorant people to bite at their bait. One Frank M. Reed, of 189 Eighth street, New York, who publishes "Love and Courtship Cards," a "Fortune Teller and Dream Bock," "The Mystories of Love Making," "How to Woo and how to Win," and various other national pecuniary embarrassment. Her | swindles, sends his dupes the following in exchange for their stamps. It is copied from the papers alluded to and is as follows: "For Dr. Sage's Catarrh Remedy, take eight grains Carbolic Acid, seven grains of Camphor, and two and a half grains of common Salt, the whole to be colored with a little Prus-sian blue." This makes a powerful caustic mixture as unlike Dr. Sage's Catarrh Remedy

(which is perfectly unirritating, mild, soothing

and pleasant) as light is from darkness. As

The article continues: "Dr. R. V. Pierce, of Buffalo, N. Y., occupies our entire eighth page to-day with his various articles. We ad-mit it because we know the doctor, and know of his articles. We know him to be a regularly educated physician, whose diploma hangs on the wall of his office, and we know that he has associated with him several of the most eminent practitioners in the country. We know that parties consult him, by mail and in person, from all the States in the Union every day, and that they are fairly and honestly dealt with We know that his medicines are sold in enormous quantities in every State in the Union, and very largely in many foreign countries.

"This grand result has been accomplished by two agencies-good, reliable articles-articles which, once introduced, work, easily, their own way-and splendid business management. They have succeed because they ought to have succeeded."

In conclusion, I cannot offer a better refutation of the slanderous reports published concerning my medicines, then to call attention to the testimonials on file in my office, which are open to the inspection of the public. They are from all parts of the world, and express the gratitude of thousands that have been afflicted with Chronic Catarrh, Lingering Coughs, various Blood Diseases, affecting the skin, flesh and bones, severe diseases peculiar to females, and many other forms of obstinate diseases, and have been cured by the use of my Family Medicines, after suffering for years and being pronounced incurable by eminent physicians. The Rice Divorce Suit for fraud in age, is causing great excitement in Boston. It should warn young men not to marry in haste. Rice is but 22; his bride 37. He swears that she made him believe she was but his own age, by using Magnolia Balm upon her face, neck and hands. Poor youth! He probably found her elbows weren't quite so soft and pretty. Ought Hagan to be indicted? We know of many similar cases. This Balm gives a most wonderful pearly and natural complexion, to which we don't object. We like pretty women. To finish th, picture, they should use Lyon's Kathairon upon the hair. With pearly chin, rosy cheeks. and soft, luxarious tresses, they become irresistible.

Fell from a Railroad Car, and nearly broke his neck. Pat picked him up, rubbed him with Mexican Mustang Liniment, and sent him on by the next train. Falls, bruises, cuts, contusions. lameness and such accidents are constantly occurring. There is nothing so sure, safe, cheap and convenient as the celebrated Mustang Lini ment. It costs but 50 cents and \$1.00 per bottle and no Family or owner of Horses should be without it. There is no flesh, hone or muscle ailment upon man or animal, like Rheumatism, Bruises Spavin and Lameness, which it will not alleviate or cure. Why will you suffer? Beware of counterfeits. It is wrapped in a steel plate engraving, signed "G. W. Westbrook, Chemist."

On Everybody's Tongue.-Eulogiums of the great National Regenerator of Health, PLAN-TATION BITTERS, are on everybody's tongue. This gratuitous viva vice advertising is better than all paid-for pefling to which the owners of bogus bitters are obliged to resort. It has a spontaneous heartiness about it which carries conviction to the mind of the auditor.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which tre extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BIT-TERS?" Our answer is, that they remove the cause of disease, and the patient re-covers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation c the Liver and Visceral Organs, in Bilious Diseases.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diaretic, Sedative, Counter-Irritant, Sudorific, Altere, tive, and Anti-Bilious.

As a blood | hoped, profit by the lesson thereby taught them depurent and invigorant it is unequaled, and not be so ready next time to bite at every catch-penny advertising dodge that swindlers may offer them. For Dr. Pierce's Golden Medical Discovery the bogus receipt reads : "Take four drachms purified Honey, fifteen grains extract poisonous Lettuce, thirty grains of Opium, three and a fourth ounces dilute Spirits, three ounces water. Mix." Of the ridiculous bogus formula I will say, as I did under oath, not one of the medicina! or poisonous ingredients therein given enters into the the basis of many of the pseudo bitters composition of my Golden Medical Discovery ! and tonics, doubly enhances its value to And furthermore. I will say that I defy all the chemists in the world to accertain, by chemical analysis, the composition of any of my Family Medicines, as they cannot be analyzed so as to determine their ingredients, many of which are new in medicine and, like nearly all vegetable extracts, there are no known reagents or chemical tests by which their presence can be determined. If any further proof is wanted to satisfy any person that the receipt given above is utterly false, let that person have the mixture, as given, compounded and, not only will it be seen to be entirely unlike my Discovery in appearance, but if a further test is wanted, by taking a dose of it, it will be found to produce drowsiness and stupor, whereas my Discovery, in ever so large doses, produces no which of course will be empty if the such effect. Others, located in different cities heart is dead. The temporal artery is ceipts for making my medicines, send those that bite at their bait other and various ridiculous formulæ. One sent out by a villainous knave, located in Chicago, gives the chief ingredient of Dr. Sage's Catarrh Remedy as being Blue Vitriol, which is only equaled in absurdity by another issued by parties in Philadelphia who say that the ingredients compos-ing Dr. Sage's Catarrh Remedy are "burnt Alum, white Vitriol, Sugar of Lead, and Prussiate of Iron," and that my Golden Medical Discovery is "simply Syrup and Tincture of Ginger." In refutation of all the various and riticulous bogus receipts for making my medicines that have ever been, or may hereafter be published and circulated, I would say that I have, in dealing with the people, ever been governed by the maxim that "honesty is the best policy," and that "success makes success;" for it is because some sufferer has obtained relief and cure, and that sufferer has sent another to me; and it is because thousands have been cured that they have recom-mended me and my superior remedies to other thousands of sufferers. In this way I am constantly making living advertisements for my-self and medicines. It is a common thing to hear people say that plenty of advertising will make a success out of anything, whether it has any merit or not. Nothing could be farther from the truth. It is with this delusive idea actuating them that thousands have rushed headlong into advertising, only to find themselves bankrupt in a little while. Not more than one in five hundred, who engages in advertising medicines, over makes a financial success out of the undertaking, for the reason that a medicine to be successful must possess unusual and extraordinary merit. It is not enough that it should be a remedy of fair efficacy ; it must possess superior and ful remedial properties, for if it does not, those who use it with the most sanguine expectations will condemn it. They will expect much of it, and it must be equal to the test, or it will prove ruinous to the proprietor. For, although a great display of advertising will, many times, create a considerable immediate demand for the article advertised, yet if that article does not possess real merit, the demand will be only temporary; the fraud will be de-tected, and the reaction will upset the proprietor and all his high expectations, long before he is able to recover the amount of money already expended. With this view of the subjoct, I have felt warranted in contracting for hundreds of thousands of dollars' worth of advertising in the newspapers of this and other countries, feeling perfectly assured that the merits of my remedies were so great as to insure a financial success out of such a bold undertaking. And in this I have not been disthey have not got them at your furnisher's, tall them to buy some for you. exceed half a million dollars' worth of my medi cines. This grand success, I am certain, could never have been attained had the medicines not possessed superior and wonderful merits. The Toledo Blade, in an editorial article, has truly said, alluding to my business, that "great success is never achieved without morit. An article that holds the field year after Go TO RIVERSIDE Water Cure, Hamilton, Ill. year, and the sales of which increase regularly and rapidly, must have absolute merit."
