We have not been able to give as full attention to the REGISTER for several weeks past as we would like, the week. owing to sickness in our family Our little Lottie has been very sick, near

death's doar at times, we feared, for some weeks past, but we now have hopes that she will recover. Mrs. John Irvine presented the wife of the editor of the REGISTER with a

magnificent boquet on Saturday-the most magnificent and elegant one on exhibition at the County Fair. In the cultivation, selection and artistical arrangement of flowers, Mrs. Irvine has tew equals.

Our young friends, Mr. E. R. Osterhoat and Miss Lucinda E. Ritter, were "spliced" on Tuesday. Dr. Geary managed the ceremony, and Cin., bless her big heart, sent us a chunk of cake, with her compliments. Cin. deserved, and we believe has obtained, a good husband. We wish them a long life of continued happiness and prosperity. John A. The total receipts of the Linn County Fair last week were two thousand eight hundred dollars.

Early to bed and early to rise, won't amount to a row of pins if you don't LINN COUNTY FAIR.

The attendance on Thursday was larger than on either of the two days previous, but still did not come up, in numbers, to the assemblages on former occasions gathered there. The show of articles in the Pavilion was increased somewhat, but not enough to worry the worthy Secretary in making the proper entries.

We might just as well say right here, that the people of Linn county, generally, seemed to take very little interest in the Fair, and although the officers and Directors labored faithfully to make the Fair a success, they lacked the support of the people, without which no undertaking of the kind can succeed. The general impression today is that Linn county has seen the last of her Fairs; at least we would advise against another attempt, until there is a better feeling towards these annual exhibitions in this community. The grand attraction on the grounds on Thursday was the steam fire engine belonging to Willamette Engine Co. No. 1, of Portland. A ditch had been brought on to the grounds from the Santiam Canal to enable the engine to give an exhibition of her power. The largest crowd of the week was gathered to witness the exhibition, adding to the receipts and to the pleasure of those in attendance. Willamette No. 1 is a beautiful engine, and the boys know how to haudie her.

The attendance on Eriday was about the same as on Thursday. The Fair virtually ended on Friday afternoon, a large number of the articles on exhibition being withdrawn on that

evening. We were not in attendance on Saturday, but learn that the attendance was not as good as on the two previous days, there being nothing to "draw" except the races. We append a synopsis of the races :

GONE EAST .- Judge J. H. Baber left this city for the States on Tuesday's train. The Judge has been a resident of Linn county for many years, and being an excellent business man, of frugal and industrious habits, accumulated a snug little fortune. He owned and cultivated one of the best little farms in the county, and until

the death of his amiable wife, had no thought of leaving the place which had been his home so long. Her death left him without kith or kin in Oregon, and he determined to visit once more the home of his youth-Old Virginia. His-numerous friends in Linn' county wish him a happy and pleasant journey to the old homestead, and that health and prosperity may follow him wherever he may cast his lot.

Call on Mr. Blain and see the different kinds of paper be has on exhibition. At a recent meeting of the Linn County Council P. of H., the comniittee appointed some weeks since to solicit subscriptions to aid in improving the Willamette river, were ordered to collect the wheat so subscribed (about 6,000 bushels, we believe), sell it, and at or c apply the proceeds to the object intended. This amount, judicionsly expended, will aid considerably in making a more navigable river to this point. Mr. John W. The main building will be 18x44 feet, with an ell 18x24 feet, the whole to be one story and a half high. When completed. Mr. Gay will have one of the most elegant buildings in Albany Prairie. Six or more new buildings have been contracted for at Lebanon, to be erected this fall, some of them dwellings and others to be occupied as business houses. The spirit of enterprise has got hold of our Lebanon friends. and the village is pushing ahead with vigor. Hurrah for Lebanon. On Wednesday moruing Luther Elains, Esq., brought us a sucker, a good sized fellow, in the neighborhood of eighteen inches in length, that he had caught in the Canal. The Canal will yet afford fine sport to those niscatorially inclined. Mr. Louis Rehwald has rented the building formerly occupied by C. Mealey as a furniture store, where he will immediately open a full stock of boots, shoes, gaiters, &c., manufactured in California, all of the latest styles and of the best material. The building to be erected on the corner of Broadathin and First streets, is to be occupied by Mr. Rehwald as soon as finished.

W. D. Belding, who enjoyed the reputation of manufacturing a splendid article in the broom line, a year or two since, after a short stay in California, has returned to us again, and ommenced the manufacture of brooms, brushes, wisps, etc., at the old stand of John Metzler on First street. The reputation gained by Mr. B. as a manfacturer of brooms during his Fair. former stay in this city, will be retained

by him in the future, as he has larger experience to guide him, and better facilities than ever before to build a first class broom. See card in this

All the warehouses here are shipping grain to Portland, while the mills are shipping flour. The grain is shipped by the Grangers to Morgan Sons, Portland, who forward it to market. This makes the freighting business very active on the O. & C. Railroad. On Thursday fifty-seven car loads of wheat (570 tons) were ready to ship, but the two freight trains passing down were so heavily loaded that between them they could

only take away ten car loads. We omitted to mention last week, that our old friend and member of the cmft, Wm. Morgan, was in attendance during the Fair last week, reporting for the Salem Statesman, to which he is now attached.

FIRST PREMIUM ON FLOUR .- The Lebauon Mills' XXX flour took the first premium at the Linn County Fair last week. This is one of the best mills in the State, and is fast building up a reputation for doing

first class work. The proprietors, Elkins Bros., have been at great expense during the season in putting up new and improved machinery, and are determined to keep the mill up to the highest standard in the future.

THE TULES ON FIRE .- All over the State the tules are on fire with enthusiasm on the subject of the next and last Grand Gitt Concert of the Public Library of Kentucky, to come off No-vember 30, 1874. Until recently it confined to the cities and towns, but reliable accounts show that the rural districts ase as much in earnest on the subject as the cities. Indeed, the fact is not surprising when it is known that this is positively the last chance which can be given, and at this Con-cert \$2,500,000 in cash will be distributed to the ticket-holders in such prizes or gifts as \$250,000, \$100,000, \$50,000, \$25,000, \$20,000. It ing acts: possesses many advantages over any churn we have seen ; it is very simple, easily handled, a child of twelve years being able to turn milk or cream into botter in from three to fifteen minutes. Owing to its cheapness, durability,

the character of its work, and the general economy in its use, we predict for this churn a big run. Messrs. Grad-wohl & Layton own the patent for this county, and will soon commence their manufacture. Call at Gradwohl's and examine them.

The State Fair opened at Salem on Monday with an immense throng of visitors. The stock department, in the line of blooded horses, never was better of larger. The Pavilion, too, literally overflows with rich, rare and costly fabrics, plants, fruits and flowers. The art department is also well filled; the poultry show is good; in hogs, sheep, etc., there is a good showing, and those in attendance have really had a feast for the eyes. The weather being propitious, the indications are that the State Fair for 1874. will be a grand success.

The tardy action of the Legislature in regard to passing a law lowering the fee bills of county officers, is receiving general comment. The State Printer's fees, too, are exhorbitant, and need a vigorous pruning. The conduct of the State Prison ; the keeping of the insane-all these are subjects of the utmost importance, and the people are anxiously looking to the action of their servants at Salem with regard to them. The ninety days has well nigh passed, and nothing in sight yet. 'f pledges to the people, they should be about it, and that right speedily.
