

Albany Register.

U. S. Official Paper for Oregon.
FRIDAY, OCTOBER 30, 1874.

It is now estimated that the losses resulting from the failure of E. E. Morgan's Sons, in California, will amount to half a million dollars. The parties suffering by their failure are farmers and shipowners. There are seventeen wheat cargoes afloat on account of the Grangers, cleared through E. E. Morgan's Sons, agents for the Grangers in California, with cargoes aggregating 677,000 cents, valued at \$1,052,700, equal to \$1 54 per 100 lbs. Three of the cargoes were shipped by the Stockton Grangers, two each by the Dixon, Merced and Yolo Grangers, and one each by the Antioch, Collinsville, Colusa, Hollister, Livermore, Modesto, Plainsburg and Turlock Grangers. It is claimed that these Grangers have received \$1 per cent on the wheat thus shipped, leaving a balance of 54c due them, provided they receive no more than the manifested value of the wheat at the time it was shipped. This would leave the sum of \$363,580 yet due them on the above cargoes—a very nice little sum indeed. It is said that if these cargoes were thrown upon the English market now, they would not bring more than the advance and freight, in which event the Grangers would receive no more than the amount already said to have been advanced them—viz: \$1 per 100 lbs. This seems to be about the state of affairs now existing between the cargoes shipped by the Grangers through Morgan's Sons. Future shipments, it is understood, will be through the officers of the California State Grange.

The Legislature packed up its wardrobe last week, and departed from Salem.

The Oregon Legislature of 1874 can not be accused of doing anything particularly bad, by its worst enemies; that it made no mistakes, none will aver. That it did some good, fulfilling pledges made to the people before the election, all concede. Generally speaking it has met the expectations of the thinking, reasoning, voters of the Commonwealth. Good enough. That odious measure, entitled the litigant law, universally condemned by all parties, was repealed; certain leaks in the treasury whereby State officials were enabled to gobble up large amounts of the people's coin without returning adequate labor therefor, were stopped. A reduction in the enormous fees paid county officers was demanded by every county in the State—a law was enacted making such reduction. The vast amount of cash hitherto paid for State printing has been reduced so that there will be a saving to the State of about one-half in the work to be done by future State Printers. The passage of the railroad bills, we believe, meets the approbation of the people. Should the passage of these bills be the means of securing the building of railways giving us direct connection with the East, they will prove to be the most important of all the business transacted by the Legislature of 1874. We believe there was less "skulduggery" practised by the late O. S. L. than by any previous meeting since the organization of the State. And this is all the more remarkable, too, considering that there were three parties and each party about equally represented. While it is to be regretted that certain measures of importance to the State were voted down or neglected, it is a matter of gratulation that no measures, in which there were large and magnificent stealings, adroitly covered up, were put through under a "suspension of the rules" or in the regular way.

From Sept. 1st, 1873, to July 31st, 1874, the U. S. exported 22,302,652 cwt. of wheat to the United Kingdom, considerably more than all the rest of the world, the total receipts during said period from all quarters being only 39,788,143 cwt.

The war in Spain still progresses with varying success, and the end is not yet.

NEWS ITEMS.

In Indiana the Democrats elect eight Congressmen and the Republicans five. The Pœnix woolen mills at Seneca Falls, N. Y., burned down on the 23d. Loss, \$50,000—insured. Complete election returns from Ohio show fourteen Democrats and six Republican Congressmen elected.

The Alliance Gas Company's works, of Dublin, were burned on the 23d. Loss very heavy.

An American has been arrested at Constantinople, charged with perpetrating a heavy fraud on the Imperial Ottoman Bank.

Gov. Moses, of South Carolina, has issued a proclamation changing Commissioners in every county of the State, so that each board shall be composed of one Republican, one Independent Republican, and one Conservative.

It is announced that great changes will be made in the Internal Revenue and Post Office departments of Texas. Good men irrespective of party will be selected for the offices.

Lieut. Col. Baell, in a recent campaign against the Indians in the Indian Territory, destroyed 550 lodges, and made some good Indians.

On the 24th inst. the President appointed John J. Wood, of Iowa, agent at the Black Fleet Agency, Montana; N. E. Clapp of Kansas, agent for the Crow Agency, Montana, and James Wright, of Iowa, agent at Fort Hall, Idaho.

News from South America are rather gloomy. Advices from the Argentine States, October 21st, state that Government troops were joining the insurgents in great numbers.

A telegram from Ottawa, Canada, Oct. 24th, says: A dispatch from the Imperial Colonial Minister says it has been decided that certificates of naturalization granted in the United States do not confer on an alien any right or privilege in the British Colonies.

The Turks in Montenegro are reported as continuing their outrages against the Christians, having killed a number of Montenegrin and Saxon residents in the neighborhood of Podgoritz, and burned the village. The Christians were compelled to flee to the mountains.

Mr. George W. Childs is already negotiating for the purchase of New York's new daily, the *Republic*.

From the stomach of Captain Otis Rogers, of Marshfield, Mass., has been extracted an animal five inches long, which he thinks he swallowed while drinking from a pool in South Carolina, during the war.

The Democrats of the Seventh Massachusetts Congressional District have nominated John K. Tarbox, and the Republicans Dr. J. C. Ayer.

A dentist in Wisconsin, who found it necessary to kiss a young lady while filling her teeth, was called upon by her papa, with a shot-gun. He paid the parent \$500 not to fire, being exceedingly averse to noise.

Glanders, the most terrible disease that horse-flesh is heir to, is now raging in many of the Eastern cities, including Pittsburg, Cleveland and New York, and is said, also, to have made its appearance in Chicago.

The Archbishop of Cologne, who was imprisoned by Bismarck over six months ago for refusing to obey the ecclesiastical laws, has just been released. He served his full term, and to the last refused to recognize the right of the State to control ecclesiastical affairs.

Postmaster General Jewell is as severe on claim agents as he is determined to root out the practice of receiving straw bail on department contracts. He has informed the President of the Erie Railway Company that it is his desire that "no agent shall stand between the department and any parties with whom it has business." The conclusion of his dispatch to President Jewett—"but I cannot and will not tolerate claim agents"—has a touch of the old Jacksonian ring to it.

The appended is from Boston, October 19th: A meeting was held on Sunday night in Hollis street church to consider the Indian policy. Father Gleason presided, and in the course of his remarks he eulogized Capt. Jack, and defended his shooting of General Canby and Commissioner Thomas. Col. Meacham arose and said that he took no part in such an assertion, as he believed that the assassination of Canby and Thomas was an outrage. Father Gleason then said he read in an Oregon paper that Meacham was a political adventurer, and had he offered to Capt. Jack the terms the President desired, Canby and Thomas would not have been shot. Meacham made no reply to this. After some further controversy, Col. Meacham left the church.

BUILDING PAPER!

Ornamental, Aluminous —and— Plastering Paper Board.

IN DIFFERENT BEAUTIFUL DESIGNS, taking the place of Lumber and Plaster in ceiling.

For cheapness, durability, comfort and health, we recommend it. It costs less than one-fourth the cost of Wall Paper, Plastering or Ceiling.

It is a perfect, non-oxidizing, keeping heat out in Summer and inside in Winter, being in fact, in one year, the cost of paper. It is not so easily injured by knocks as plastering; does not shrink, admits no cold winds, and is vermin proof.

Tarred Sheathing. This is a hard, compact, straw board, saturated with tar and other substances to render it WATER, RAT and VERMIN PROOF. It is used under-siding on outside of studding. It is impervious to dampness, cold and heat; and is very much cleaner and better than brick filling or board lining.

Roofing felt, Made from woolen rags, and thoroughly saturated with tar—is adapted to all kinds of roofs—does not swell or shrink, thereby cracking the covering; and will not soak water if exposed. We have also a light felt for use under slate, shingles or tin.

Carpet Lining. Will save one-half the wear of a Carpet—warranted moth proof; can be used for years, and is very cheap.

ACARD.

A. H. BELL & PARKER, late of Oregon City, beg leave to inform the public that they have purchased the entire stock of drugs, medicines, &c., formerly owned by R. C. Hill & son, and that they design continuing the business at the old stand, where they purpose keeping in the future a full assortment of

Drugs, Chemicals, Patent Medicines, Toilet Articles, Perfumery, and everything usually found in a first-class drug store.

While earnestly soliciting a continuance of the liberal patronage heretofore extended to the old house, we hope at the same time, by fair and liberal dealing, and careful attention to the wants of customers, to merit the esteem of any NEW friends who may favor us with their orders.

Particular attention will be given to the compounding of physician's prescriptions and family recipes, at all hours of the day or night.

CARD.

AFTER THANKING OUR FRIENDS and the public for the liberal patronage we have received from them during the present season, we desire to say that we have notified from time to time in the ALBANY REGISTER and Democrat, advertisements of other Sewing Machines purporting to have outstripped us in honors conferred at the Vienna Exposition, 1873, and also setting forth tables of enormous sales of their machine in 1873, the same claimed to be "SWORN RETURNS"; and by such a course of advertising and array of figures, tend to mystify purchasers, and naturally discourage those who had not purchased that particular machine—that they had not the best and most popular one. We desire to say that printers' ink is cheap, and we

rely principally on the MERIT of our machine to recommend it to purchasers, and without boasting we can say we are not aware of any Company in the State of Oregon selling more machine property at the present time than the Wheeler & Wilson. We stand upon our record, winner at London, Paris and Vienna, and we challenge any Family Sewing Machine in the State to meet us and take the ribbon. With reference to our honors at Vienna, we claim them and got them, and challenge any machine company, for

One Hundred Dollars, that the Wheeler & Wilson Sewing Machine Company received the Highest Honors conferred on any Sewing Machine Company at the World's Exposition, Vienna, 1873. And again, as regards sales, The Wheeler & Wilson deny the existence of any Sewing Machine showing greater sales of Sewing Machines in 1873 than by their Company, and we challenge, for

One Hundred Dollars, any Agent or Company to show and prove it by their sworn returns. Again, we challenge any machine in the State, for ONE HUNDRED DOLLARS, to show against us on Mechanical Simplicity and Durability. And again, if any of the sewing Machine Fraternity in the State feel aggrieved at our great success with the World Renowned Wheeler & Wilson Rotary Sewing Machine, and desire to get even, we challenge any Shuttle Family Machine in the State, for ONE HUNDRED DOLLARS, to do the same amount and range of work, in the same time, we can on the Draw Feed Wheeler & Wilson. Now then, gentlemen, show your hand; we will fight you any way, and prove that the Wheeler & Wilson stands to-day in Oregon, as it does elsewhere, the CHAMPION. MCKIBBIN & DAVIDSON, Agents, Wheeler & Wilson Mfg. Co., Oregon, Wash- 2mscp4] ington and Idaho.

During my absence from the State, Mr. DAVID FROMAN is authorized to act as my agent in fact. J. H. BABER, Albany, Or., October 16, 1874.
