ALBANY S. S. UNION .- The first anniversary of the A. S. S. Union was held in the Court House on last Monday evening. A large audience was in attendance. Speeches were made by Revs. S. G. Irvine, Isaiah Wilson and H. W. Stratton. The music, vocal and instrumental, under the leadership of Prof. Warren, was excellent. Following are the officers elect for the incoming year: President, Prof. E. F. Sox ; Vice Presidents, P. H. Ravmond, T. Hackleman, G. F. McCoy and Rev. W. R. Blain; Secretary, T. B. Royal; Treasurer, Walter Turrell. An Executive Committee was appointed, consisting of the Superintendents of the various Sunday Schools in the city and the Vice Presidents of the Union. A collection was then taken up, resulting in donations to the amount of \$5 75. The largest portion of the collection came from the

A BRIDGE ACROSS THE SANTIAM AT LEBANON.—The question of bridging the Santiam river at Lebanon has been agitated more or less for years. The difficulties connected with crossing this turbulent stream have long been a back set to the people of the Forks of the Santiam, and appeal after appeal has went up from the citizens there to the county authorities to help them by appropriating at least half the necessary funds to construct such a bridge as is needed and demanded by that section. The Forks contains nearly onethird of the population of the county, has rich and fertile lands, and all that is wanted to make her citizens rich and prosperous is proper and convenient outlets to a market. The erection of a bridge across the Santiam at Lebanon would go far towards filling this want, and as far as we are concerned we can see no good reason why the county should withhold aid in a matter so important to so great a mass of her people. The citizens of Lebanon, who are also interested in this matter, have gone to work and raised \$4,000 by subscription towards building a substantial bridge. The business men of Albany are interested in this matter. Trade that now goes to such a bridge was constructed-thousands of dollars that rightfully belongs to Albany and Lebanon, is now diverted elsewhere on account of the difficulty experienced in crossing this stream. A delegation of the citizens of Lebanon came to this city to ask the County Commissioners to aid in erecting such a bridge as is required at this point, and we hope these officials, seeing the necessity of the case, have or will grant the demand, so that the work may be commenced at once. The point selected for spanning the Santiam is about one mile east of Lebanon. The east bank of the river at this point is above high-water mark, and is of solid rock; the west bank is not so high. The bridge of the Smith-Truss patern will require a pler and an abutment, will be covered, sided and painted, and will cost from \$8,000 to \$10,- made by the schools during the year :

THE MONEY HEARD FROM. - Letters have been received by Mrs. N. M. Geary and Mrs. Backensto, of the Albany Ladles' Aid Society, both from Nebraska and Kansas, not only acknowledging the receipt of the money and clothing recently forwarded from this city, but rendering a detailed account of the manner in which the money was distributed. Mr. Wm. McCandlish, of Nebraska, to whom the Society forwarded \$20 to be given to the needy, reports that five families in Madison county, about 120 miles west of Omaha, who were in most pressing need, were relieved. We give the report, to show how much good a little money will do: To one family, out of flour and out of wheat, \$4 10; to another family, without shoes and almost naked, \$5 40; to a mother and three children (the family having been deserted by the husband and father), for shoes and groceries, \$4 50; to a married daughter of the above family, for absolute necessaries \$2 50; groceries furnished to a family named Runiman-a helpless family-83 50. The letter from which we glean these facts concludes thus: "And now, as your gift has reached and helped those who were in need, let me hope that the greater blessing of the Giver will rest richly on each of the Christian ladies of Albany, who have regarded the distant cry of distress. The winter has been severe and is still severe. The Lord bless us with an early spring, if that shall be best for us." A letter from Mr. W. W. Gilmour, dated Grover, Ottowa county, Kansas, March 8th, 1875. gives a detailed account of the money and articles received up to that time from the A. I. A. Society. That portion of Kansas is full of destitution, and the clothing came in good time, and being placed in the heet honestly distributed to those who were morthy and really in need. Mr. G. thinks that although the winter caused terrible suffering among the people, the hardest times are per to come. The spring comes and finds the people weak and suffering from an immiliciency of food and clothing during a long and unprecedentedly severe

winter, with no strength to put in crops even if they had the necessary stock to enable them to break up and prepare the ground and the seed to sow. As the severe cold and want of feed has destroyed their horses and cattle, in a large number of instances, these poor people are indeed in a deplorable condition, and appeal strongly to the ermpathy and ald of their fellow-citizens here in more favored Oregon. 'The writer says : "Do not be particular what you send : new or old, nothing in the shape of eatables or wearing appare will come amiss. You may rest assured that everything you send will be disposed of honestly and honorably to the most needy. * * * We think your State is doing wonderful in the way of supplies. * * May the Lord bless you and yours in basket and in store." Assured that there is great suffering among the people of Kansas and Nebraska, and that whatever our citizens give will be conscientiously distributed among the most needy, let our people continue to give as long as they have to spare.

Religious Intelligence.

During the progress of the revival meetings in the M. E. Church in this city, one hundred and sixty-eight persons came forward for prayers, and many others manifested an interest by asking for the prayers of God's people.

The Cumberland Presbyterians of Oregon will hold their first Synod at Lebanon, commencing June 24th, to continue till about the 4th of July. In connection with the Synod will be held a campmeeting. Ministers from all parts of the State and W. T. will participate. Extensive arrangements will be made for the accommodation of all visitors.

The revival meetings commenced at the M. E. Church, Lebanon, last week, under the guidance of Rev. I. D. Driver, were discontinued Wednesday evening. The meetings were productive of much good, greatly reviving the church.

Rev. Dr. E. R. Geary has accepted the pastorate of the Presbyterian Church at Eugene City, and will remove his family to that place next week. He carries with him the best wishes of our people for the fullest success in his ministrations in his new field of labor.

School District No. 15.

School District No. 15, on Oak creek, at the annual meeting on the 5th inst., voted to erect a new school-house to cost tew of the land-holders present, the carpetbaggers had it all their own way, and voted the necessary tax. This serves the land-holders right for not attending to ther own business. Our school-house is not a had one at all, having had a new roof put on it five years ago, besides having a new foundation put under the entire building, and other repairs. It might have lasted for some years yet and done good service. But let us have a new schoolhonse now; times are so good, and money so very plentiful that we can stand it!

It is sellow that we notice anything in the medical line, nor would we now, unless we could be convinced that we are not doing our duty as a journalist in recommending to the public the celebrated botanical preparations of Dr. Henry. Whoever induces the victim of Scrothla or any other disease of the blood, to use Dr. Henry's Extract of Sarsaparilla, has begun a good work. There can be no question as to the result of this medicine if persevered in. It is a sure cure for Scrothla. Rheumatism, Salt Rheum, and indeed all complaints arising from vitated or impure blood. It is just what a good physician would prescribe for 1 bese complaints, and we confidently recommend it as being the best article now in use. Dr. Henry's Cough Balsam is the meast effective remedy for any affections of the Throat or Lungs that we have ever known. It contains no deleterious drage, and can be taken with impunity and certainty of relief. For the care of Coughs, Colds, Sore Throat, etc., itstands without a rivai. Dr. Henry's Liniment, as an alleviator of pain, is unrivalled by any preparation before the public: the most skeptical will be convinced by a single trial. It will prove itself a "friend in need" which no family should be without.

HAVE GIVEN THEIR PLANING MILL, sash & Door Factory a general overhanding and repairing, and greatly increased their facilities for doing work, by putting in a new WATER WHEEL, a new SHAPING MACHINE and a new PLANER AND MATCHER, all made in Oregon by Operon preclamics and out of and a new PLANER AND MATCHER, all made in Oregon by Oregon mechanics and out of Oregon iron, and are a credit to tregon.

The Planer and Matcher is specially adapted to matching Flooring and Rustic, which we make a specialty, and are now prepared to do without delay, as we can change the machine from one kind of work to another in a few minutes, and with our excellent water-power are always ready to run any or all our machinery.

minutes, and with our excellent water-power are always ready to run any or all our machinery.

We keep DOORS, SASH and MOLDENG always on hand, or make to order with dispatch. We have made arrangements by which we are now prepared to furnish Sash and Sesh-Doors, primed and glazed, to order, at very near Portland prices, and propose to make it to the interests of Builders to buy AT HOME and encourage home interests.

With our new SHAPER we are prepared to do any kind of circular or irregular work, much better than it has ever been done in Albany.

We have two new Grindstones, one for the special benefit of those wishing togrind axes or tools of any kind.

In short, we have spared newber money or labor in fitting up our shop for doing all kinds of work in our line with neatness, cheapness and dispatch, and have masterially reciseed our prices for work. All of which we hope the public will appreciate, and continue to give us a liberal share of their patronage.

En. Carren will alway be on hand, with competent mechanics, ready to serve those who may favor us with their orders.

Sewing Machine Sales of 1873.

The table of Sewing Machine Sales for 1873 shows that our sales last year amounted to 232,444 (two hundred and thirty two thousand, four hundred and forty-four) Machines, being a large increase over the sales of the previous year (1872.)

The table also shows that our sales Exceed those of any other previous that our sales Exceed those of any other previous year (1872.)

being a large increase over the sales of the previous year (1872.)

The table also shows that our sales Exceed those of any other Company, for the period named, by the number of 113 254 Machiners, or nearly double those of any other Company. It may be further stated that the sales of 1873, as compared with those of 1872, show a relatively larger increase, beyond the sales of other makers, than of any other year.

For instance in 1872 we sold \$5,000 more Machines than any other Company, whereas, in 1873, the sales were 113,254 Machines in Excess of our Highest Companies of the principal Companies in 1873 are less than their sales in 1872; whereas, as has been shown, our sales have largely Macressed.

The account of sales is from some returns makes have largely Macressed.

The account of sales is from some returns makes to the owners of the Sewing Machine Patents.

It will hardly be dealed that the supportority It will hardly be denied, that the superiority of the SiNGER MACHINES is fully demonstrated at all events that their popularity in the householdis unquestionable.
