ONESTER'S DAY.
Picnic all day.
Croquet is making up.
Our hotels are crowded with guests.
Marshal Fox is rousting for city taxes.
It keeps our butchers rousting to supply the demand for meats.
Mrs. Hart and children have been very ill, but are about again.
Henry Myer has gone to Corvallis on a pleasure trip. May health attend him.
Col. Jos. Tait has been with us some during the week.
Miss Beach is able to be out on the street once more.
Geo. R. Helm, Esq., is so far recovered as to be at his office a short time each day.
Jas. Harris secured a nice lot of beef cattle on Tuesday.
The surviving members of the Davis family are recovering from the measles.
Nice furniture at W. D. Beddings's, way down in price.
Several very drunk individuals in the city on Tuesday.
Butter is quoted at 20c and eggs at 18c. in the market.
A good deal of cloudy, cool weather during the week.
A large number of people from the States arrived here during the week.
Chas. Moulton and wife started on their return to Lapwai on Wednesday.
Cass Humphrey called yesterday. Cass has sold his interest in the Corvallis News, and is ready for new fields.
The boys have fitted up magnificent base ball grounds between Fifth and Sixth and Ellsworth and Lyon streets.
We are informed that Mr. Montgomery sold Shoofly and Scotchlin, his noted packing team, in San Francisco, for \$1,400.
Chas. Moulton and wife, of Lapwai, L. T., reached this city last Saturday, on a visit to relations and friends.
Bishop Morris, aided by Rev. Mr. Babcock, held Episcopal services in the Congregational church Monday evening.
Mr. S. Montgomery has returned from his southern trip, in good health and spirits.
At the election of Directors for the Albany Farmers' Company last Tuesday, the old Board was re-elected a man.
The election for officers of the Albany Farmers' Warehouse which came off on Tuesday, brought a large number of farmers into the city.
Messrs. Elkins Bros., of the Lebanon Mills, are getting out a superior quality of Graham flour, intending to make it a specialty.
Rev. S. G. Irvine's son, Ohio, started for Ohio yesterday, to visit his grandparents. We believe his intention is to remain for an indefinite time.
Wedworth & Parks were awarded the contract for painting the new Southern Methodist church, at \$155. They will use the chemical paint.
J. M. Field has for sale some of the handsomest chromos you ever want anywhere, already framed ready to hang on the wall. They cut out see 'em.
From a notice elsewhere in this issue it will be seen that the stockholders in the Eagle Woolen Mills Co., of Brownsville, will hold their annual meeting at the office of the Company on Friday, the 10th day of June next. Those interested will please make a note of it.
The contract for the construction and completion of the bridge across the south fork of the Santiam, near Lebanon, will be let at public auction, at the Court House in this city, on Wednesday next, May 29th. Plans and specifications for the bridge can be seen at the County Clerk's office. Bridge builders will take notice.
Prof. V. E. Wells, who has been engaged for the past few months in this county as a popular and successful teacher of penmanship, will commence a class at Haley on Monday. From recommendations we have seen we can freely recommend Prof. Wells to the patronage of the citizens of Haley.
Geo. F. Stetler returned from his trip from the southern mines on Tuesday. It storm nearly all the time he was gone. He reports everything remarkably quiet in the quartz districts, and would so remain until capital was forthcoming to develop them.
A special election to fill the vacancy occasioned by the death of Congressman La Dow, will be held in this State on Monday, October 24th, 1875. This gives our people five months in which to canvass the merits of the different aspirants for Congressional honors. The time selected is about as convenient probably as any that could be selected, and we judge will meet the general approval.
The spelling match last Friday evening was not very largely attended, owing to the fact that there were many other attractions on the occasion. Because of this the dictionary was not "put up," and will be spelled for at some other time.
The proceeds of the evening, by some, were devoted to the contingent fund (Davis), the members of which have suffered so severely, almost ever since their arrival here, with measles.

Home Interests.

Chas. Mealey and his son George were in the city the first of the week.
Wm. Beach, of Polson, reached his old home in this city on Wednesday, looking hearty.
Miss Nellie Cannon arrived home on Wednesday from Wallburg, W. T., where she had been on a visit.
A large number of new buildings are going up, the larger number being in Hackleman's addition.
It is both probable and possible that the St. Charles will be enlarged during the season to accommodate the increased travel.
Wm. Peterson was united in marriage to Mrs. Young in this city on Sunday last.
The ditch down Lyon street, to carry water from the Canal to Althouse & Co.'s planer, is progressing.
Miss Eva Goetz, who has been dangerously ill with measles, we learn is out of danger.
"Charley" has gone back to China, having amassed a fortune in the washing business.
The Farmers' Company, at their meeting on Tuesday, resolved to increase their stock and build a mill.
San Miller has some elegant hacks and carriages completed. Call and see some handsome vehicles.
Our city is check full of strangers, large numbers of their wishing to purchase farms.
Owners of fast horses are beginning to exercise them and get them in shape for the County Fair.
The soda fountain at Parker & Morris's, the only one in town now, is in full blast, and the soda is the very best.
W. W. Parrish and family have gone to the mountains for health, and calculate to remain some weeks.
Hurd & Co., busted the bull-wheel of their sawmill last week. The boys are having considerable bad luck of late, we are sorry to say.
"Is a mistaken idea to suppose for one moment that we will take offense at any one who hands in \$2.50 for the best family paper in Oregon?
The stockholders in the Albany Farmers' Company at their annual meeting Tuesday, it is understood, authorized the Directors to build a mill.
The repairing of old and the construction of new sidewalks and street crossings will be commenced as soon as lumber can be secured.
Dave Froman will soon be ready to commence the work of erecting his brick block on First street. It will be a handsome addition to the city.
Frank Backus is now carefully nursing one of his feet, as some of the bones were broken in a collision with the ferry boat a few days since.
Another child of Mrs. Davis, a little boy, probably four years old, died Thursday night week, of measles. The poor little fellow suffered untold agonies for hours before he breathed his last.
Prof. Sox, in charge of the Albany College Institute during the absence of President Warren, is filling the position admirably, and giving the fullest satisfaction.
Our little roster, seven months old, updates a cup of hot syrup over his right hand, on Monday, fearfully burning the inside of the hand, and causing the most intense pain.
Mr. Melan, our excellent tailor, has moved into his new quarters on First street, a few doors west of the old shop, and when he gets fixed up will look worth "a'nybody."
The two-story frame on First street, occupied by Prof. Paxton's picture gallery, has been on wheels most of the week, and Messrs. Banty & Co., have had to labor faithfully to move it all.
Baltimore & Dowel, contractors, have the frame of the Albany Alden Felt Pressing Factory up ready for the rustic, which they will probably put on next week.
Wm. Gird takes his blooded mare Antelope to Sim's feed's farm next week.
Mart. Payne, Mr. Cowan and Frank Paxton will start next at the same time.
Mr. Reed has had printed a book of 68 pages giving names and pedigrees of his stock.
J. B. Comley, the champion Nimrod of Pass Creek, with his protege, Wm. Gird, returned on Monday from that delightful retreat, after a ten days' absence. They report everything lovely at Coonstock's, and advise parties in search of health and pleasure, to take a trip in that direction. A railroad station and telegraph office makes it more convenient for business men.
Onester's picnic to-day at Hackleman's grove, and a dance in the evening at the Open House. The great feature of the picnic will be the sack race for fat men, in which W. V. Brown will run against time. There is some hope that Mart, will make a tolerable race, as we are informed Mr. Comley has had him in training for some days.
Mrs. R. K. Warren, having had several severe attacks of hemorrhage since the 30th Inst., it was thought best to telegraph her to Cleveland, Ohio, as a delegate to the Presbyterian General Assembly, and the telegram was received by her at Elko, Nevada. It is immediately taken the return train, and will probably arrive here to-day.
The Portland prints have a piece to-morrow, in which they announce twelve of their number will stand up in an orthographical contest against all comers.

Home Interests.

Prof. Graf, J. F. Beckenstorf, Dave Thompson and G. W. Young went down to Portland the first of the week, to be in attendance at the meeting of the Grand Encampment and the Grand Lodge of the L. O. O. F.
Jerry Luckey, of Ochocho, came down last Friday, via the Dalles. He brought to Dalles one hundred and ninety-two head of beef cattle, selling at that point for 4 1/2 cents a pound net. One of the "best critters" weighed 1,704 pounds.
Mrs. J. B. Springer, of Portland, and Mrs. C. C. Russell, of Lewiston, I. T., both former residents of this city, were visiting friends here on Wednesday and Thursday. Both were enjoying splendid health.
Wild strawberries, ripe and perfectly delicious, were received by express from Pass creek on Tuesday. There were about two gallons, and they came to Mr. Wm. Gird as a present. Such friends are worth having, you know. Wild strawberries are much more delicious than the tame ones.
Mr. D. Beach has been suffering for months with a cancer on the hip, and has tried various remedies with little or no success. Dr. Preshaw took charge of the matter a few days ago, since when, we are informed, there has been marked improvement in the health of his patient.

It seems that at least one of the stockholders in the Farmers' Company was dissatisfied with Superintendent Simpson, and gave vent to a growl through last week's Democrat. The matter coming before the Board of Directors, that body passed a resolution, unanimously endorsing Mr. S. At the meeting of the stockholders on Tuesday the same resolution was unanimously endorsed by that body.
Prof. Kennedy, who has been lecturing on phrenology, physiognomy and physiology during the week, is decidedly the peer of any man who has ever visited this State as a lecturer on human science. He not only thoroughly understands his subject, but has the faculty of imparting his information to his audience so clearly that none can fail to understand him. The Prof. goes from here to Lebanon, and among his liberal and progressive citizens will doubtless receive a warm reception, as his talents and skill deserve. As a reader of character Prof. Kennedy has no superior.
The "Little Monitor" is the name of the latest style sewing machine that we have seen, and it certainly is a complete machine, possessing advantages that will recommend it to the ladies. It makes the lockstitch from two spools direct; also the chain stitch directly from two spools. It does away with shuttle and bobbins; it saves time. It runs exceedingly light, and makes scarcely any noise. It will sew silk thread equal to cotton; has self-setting straight needle, and puts work through very rapidly. Call at Paxton's gallery, and see the Little Monitor.

The Good Templars give a grand picnic at the old campground on the bank of the Calhoun river, furnish Roberts' Bridge, nine or ten miles south of this city, on Thursday next, May 27th, and invite everybody to come. J. A. Warner, of this city, is to be President of the day; Rev. I. Wilson, of this city, is to deliver the oration; Joseph Beard, of Tugent, is to be Chief Marshal. Appropriate committees have been appointed, and it will undoubtedly be a big day. A brass band will be in attendance, volunteer speeches will be made, wild swings, croquet, etc., will afford healthful amusement. There'll be an alfred big crowd there, if the weather prove favorable.

Doc Stewart had been suffering extremely with something like catarrh in his right hand, getting little or no sleep for nine or ten days up to Wednesday, when Dr. Plummer lanced the hand and gave him a dose of morphine. The relief afforded by the operation, added to the effects of the medicine, set Doc up in the sleep business, and considerable alarm was felt by the family because of the perturbation with which the old gentleman hung on to the semblance of the "last sleep," and strong coffee and other remedies, probably, were administered. We learn, however, that he is all well with him yesterday, and that he was getting along nicely.

The Light Rev. Dr. Wistar Morris, D. D., assisted by the Rev. J. H. Babcock, held services on Monday evening, the 17th Inst., in the Congregational church, which was kindly offered for the occasion. The services were peculiarly impressive, and heartily enjoyed by quite a large congregation. At the close of the services the Bishop made a statement of his wishes and plans in regard to the establishing of the Episcopal Church in this place. The congregation responded to the Bishop's appeal by promptly pledging three-fourths of the amount necessary to purchase a day. We understand that on the following day the full amount needed for the lot was made up. The site selected is at the corner of Evans and Seventh streets. Thus the proverbial liberality of our citizens in such matters has been again manifested.

The military condition of the city needs the serious attention of the City Dues, and we hope they will give the matter serious consideration before the heated heat is upon us.
Report has it that the Greenhorn Co. repaired their ditch and went to work last week. S. F. Robinson, one of the owners, has gone up to be in at the tiller.

The Panny Morgan house did not come as advertised. We can't explain why.

Home Interests.

Mr. John W. Millard, who has been up in the Ochocho country, looking after his stock interests, arrived home in this city last Saturday. From him we get the following items:
The extreme cold weather and deep snows of last winter caused the loss of a good many cattle in the various ranges in and about Ochocho. Near White, ten miles above Prineville, lost between sixty and seventy head; Calloway & Chase, at Willow Creek, twenty-five miles from Ochocho, lost about 300 head; Guilford's lost a number, while other parties, whose names were not remembered, met with serious loss. Horses do splendidly in Ochocho, and there are large numbers of them there. Sheep also thrive well.
The sheep diggings at the head of Ochocho are paying well. Uncle Jimmy Donthill and a Mr. Foster own the lions share of the paying ground, having bought up the claims. They have put in a hydraulic, and have some fifteen men at work. A partial stonn up after a few days' run, showed \$300. Uncle Jimmy says he has grown enough to afford him work for the next ten years, and the only drawback is the lack of water—the water affording work for about six weeks only.
Ed. Freeland has been having a hard time of it. More than seven months ago he hurt his left knee in getting off a horse—the saddle turned, throwing him violently to the ground—confining him to his bed ever since. As soon as he is able to stand the trip, he will be brought back to his old home here, for proper medical attention.
The weather for some time past had been pleasant but very dry, and the crops were needing rain. The rainfalls of last week and the week previous probably was sufficient to insure fair crops.

From a letter dated Pluse Creek, I. T., April 26th, 1875, we glean the following items of interest:
The weather during the past winter was the severest known, killing pine trees that had stood the storms of half a century or more. Whole forests on the southwest slopes of the mountains were killed by the fierce Frost King.
A great many cattle succumbed to the cold and want of feed. One party lost 125 out of 1,025 head; Powers lost 150 out of 600; Davis lost 400 out of 600—in fact nearly every settler in that region of country lost heavily, some losing every head, the writer of the letter losing every head but one, and is thankful that he and family are left alive.
Following such dreadful cold weather comes the cheerful spring, starting the grass and grain; but, alas, no sooner does nature begin to put on her most cheerful garb than that fearful pest, the cricket, makes his appearance, coming in countless numbers, filling the whole earth and eating up and utterly destroying every green thing. These crickets are but half an inch in length, but what they lack in size they make up in voracity. As the crickets were making their way north, the farmers hoped still to raise some grain; but if they returned again in June, farewell to hope, to crops.

Some of the sheep men were preparing to leave the country, and stock men generally were feeling blue. The writer had joined the Grangers and was much better pleased with them than he had been led to believe he would be. Everybody in that country belonged to the Grange—in fact it is all the fashion.

ABOUT FLOWS.—A plowing match came off on the farm of Isaac Edwards, two miles from Junction City, on Tuesday of last week, at which there was a good attendance of the farmers of that section. The plows contending were the John Deer Mollus Gange, Garden City Sulkey, Collins Cast Castrol Walking, and Frank Woods' Combined Gang and Sulkey. After a thorough trial, in which Woods' plow labored under some disadvantage, our Frank got away with the whole lot in good style. Following is a report of the trial: John Deer, gang of two eleven inch plows, required a draft of 750 pounds for a depth of 7 1/2 inches; Garden City Sulkey, 16-inch plow, required 875 pounds; Collins' 16 1/2-inch plow, required 350 pounds; Woods', one 13-inch plow, 300 pounds—two 13-inch plows on gang, required 750 pounds. The farmers were greatly pleased with the Woods' plow, and Frank will have good sale for them in that section. That is one of the best ironing sections in the valley, and has some of the most thorough and energetic farmers in the State.

A LARGE COLD.—Mr. Isaac Edwards, who lives near Junction City, Lane county, has one of the finest French horn culls in that region of country, sealed on the night of the 5th. The cull was used by White Prince, owned by W. C. Myers, of Ashland, and fifteen hours after his first grazing the following measurements: Two bodies one and a half inch in height; 53 inches girth; 8 inches across the chest; 10 inches around the knee; 13 inches around the hock; 11 inches across the hips. If any one has a larger cull of same age, bring it along.

CANCER CAN BE CURED.—We warrant a cure on Cancer and "old sores." Have also new vegetable remedies for the treatment of the eye, which have cured a great many cases considered hopeless blind. Office of Geo. F. Stetler, Second Street, near Democrat office, Albany, Oregon.

E. G. & Mrs. Plummer,
Eye and Cancer Doctors.

Home Interests.

These crickets are but half an inch in length, but what they lack in size they make up in voracity. As the crickets were making their way north, the farmers hoped still to raise some grain; but if they returned again in June, farewell to hope, to crops.

Some of the sheep men were preparing to leave the country, and stock men generally were feeling blue. The writer had joined the Grangers and was much better pleased with them than he had been led to believe he would be. Everybody in that country belonged to the Grange—in fact it is all the fashion.

ABOUT FLOWS.—A plowing match came off on the farm of Isaac Edwards, two miles from Junction City, on Tuesday of last week, at which there was a good attendance of the farmers of that section. The plows contending were the John Deer Mollus Gange, Garden City Sulkey, Collins Cast Castrol Walking, and Frank Woods' Combined Gang and Sulkey. After a thorough trial, in which Woods' plow labored under some disadvantage, our Frank got away with the whole lot in good style. Following is a report of the trial: John Deer, gang of two eleven inch plows, required a draft of 750 pounds for a depth of 7 1/2 inches; Garden City Sulkey, 16-inch plow, required 875 pounds; Collins' 16 1/2-inch plow, required 350 pounds; Woods', one 13-inch plow, 300 pounds—two 13-inch plows on gang, required 750 pounds. The farmers were greatly pleased with the Woods' plow, and Frank will have good sale for them in that section. That is one of the best ironing sections in the valley, and has some of the most thorough and energetic farmers in the State.

A LARGE COLD.—Mr. Isaac Edwards, who lives near Junction City, Lane county, has one of the finest French horn culls in that region of country, sealed on the night of the 5th. The cull was used by White Prince, owned by W. C. Myers, of Ashland, and fifteen hours after his first grazing the following measurements: Two bodies one and a half inch in height; 53 inches girth; 8 inches across the chest; 10 inches around the knee; 13 inches around the hock; 11 inches across the hips. If any one has a larger cull of same age, bring it along.

CANCER CAN BE CURED.—We warrant a cure on Cancer and "old sores." Have also new vegetable remedies for the treatment of the eye, which have cured a great many cases considered hopeless blind. Office of Geo. F. Stetler, Second Street, near Democrat office, Albany, Oregon.

E. G. & Mrs. Plummer,
Eye and Cancer Doctors.

Home Interests.

RENDED—CENTRAL CHURCH.—About seven and a half miles east of this city, was burned to the ground, on last Sunday night about 7 o'clock, believed to be the work of an incendiary. Two weeks ago Sunday night, it will be remembered, the school house, a mile and a half south of the Central Church, was burned, and the school had been in use since then for holding the district school. As the house had been burned since Friday the fire was undoubtedly the work of some evil disposed person or persons. The church was erected about twenty-one years since, and was still in a good state of preservation. The Central Church, last Summer, erected a new church edifice, about one mile west of the old church, which the Society had been using ever since for church purposes. The belief is that the school-house and the old church were destroyed by the same hands. The buildings destroyed are in what is known as the Marshall district, School District No. 21. We hope that the party or parties guilty of these mean and cowardly acts may be caught and punished—and they deserve about 99 years of quiet life.

LOST.—Last Sunday, somewhere between her residence and the Congregational church, Bessie Crandall lost a gold bracelet and chain, the bracelet containing miniature of her father and mother—the late Judge Crandall and wife. Of course the jewelry is valued very highly as an heirloom, and the finder will be suitably rewarded upon leaving it at Mrs. Kate Crandall's residence on First street, or at this office.

LAYING THE CORNER-STONE.—Our citizens will be gratified to learn that there is a favorable prospect of erecting a High School house of worship in Albany during the coming summer. Bishop Morris expects to lay the corner-stone of the edifice on the 21st Inst. Any one wishing to deposit any articles in the corner-stone can have them at the store of W. H. Dodd & Co.

STOCKHOLDERS.—A meeting of the stockholders in the Grange Union is called for the 23rd Inst., at 10 o'clock A. M., in the Court House. Remember the time, and be on hand early.

WOOD, 275.—Only 400,000 pounds good wood wanted, for which I intend to pay the highest market price in cash. For wood made and terms, inquire at N. Ryan's, May 14, 1875.

MR. JAMES MOORE.—Will commence on or about the 25th day of May, delivering Fresh Mills, District, Eggs and Vegetables to the citizens of Albany. New is the time to make your arrangements, as Mr. Moore will run a team daily, and do his best.

NEW FISH.—See Miller has brought the West on the 15th inst. by the Oregonian, a very fine lot of fresh fish, including salmon, trout, etc. They are all fresh and of the best quality. Call on Miller at the corner of Evans and Seventh streets, Albany, Oregon.

MARRIED.—In this city, May 18th, by Rev. S. G. Irvine, William H. Patterson and Clara Young.
James D. Bright was not expected to live through the day on the 15th.
