THURSDAY, JUNE 24, 1875.

A DREAM WHICH PROVES TO BE A RE-ALITY.—This morning we met Mr. Jas. Finlayson, one of our most respected farmers; whose word is as good as his bond, who, in the course of conversation, related the following dream, remarkable because it proved to be true. Without any further preliminary remarks we proceed to tell the turning from Portland to his home in Brownsville, stopped over night at Mr. Finlayson's, as they are old acquaintances and friends. In the morning Mr. Kay remarked to Mr. Finlayson . "I had a enrious dream last night, and I must harry buried on Wednesday afternoon. home as I ain afraid it's true." "Yes; what was the purport of your dream." asked Mr. F. "I dreamed," said Mr. Kay, "that my cow had given birth to about it, for I am convinced it's true." Soon ofter Mr. Kay departed for Brownsville. Nearing his home, he met an acquaintance, who said : Good morning, Mr. K. What lo you think has happened?" Mr. Kay answered that he didn't know, "Well." sald the neighbor, "last night your cow gave birth to twin calves." "There," renarked Mr. Kay, "slapping his hand down on his leg, "I knew it; I dreamed she had last night." " On arriving at home, Mr. Kay proceeded to the enclosure where the ow was kept, and there, sure enough, was him among us. the cow with her twin calves beside her, precisely, as Mr. Kny declares, as he saw them in his dream, standing in the particuar portion of the lot and each occupying exactly the position they did at that time. we could have any assurance that we would be favored with just such dreams, and that they would turn out similarly, we should at once drop the pen, stick and rule and go right away into the stock business. Mr. Kay is a lucky dreamer.

HARVESTERS, ETC .- Our old friend John Bateman, who resides near Brownsville, dropped in a moment to-day to have a little chat and renew his subscription to the REGISTER. Mr. Bateman has something like eight hundred and eighty-eight acres of land, which he describes as "tolerable good." He informed us that he was farming a much larger area of ground this eason than ever, and was here after new machinery in the way of a header, etc., with which to get away with the expected huge crops. The increased acreage of chines generally, purchased by farmers of Linn this season, will probably double the mber beretofore owned in the county.

VERY ILL.-Mr. W. H. Goltra went out to his brother-in-law's, Mr. Denny, near Lebanon, a day or two since, where he was taken with typhoid fever. He complains of feeling no particular paint but has been gradually sinking ever since lard, who will do all that mortal man can do to bring him through all right.

Being "a lone orphing" these days, we are improving the opportunity to get acquainted with our neighbors. With this mendable idea in view, we dropped dined elegantly and in our usual frugal

wife of a Master) for every fraction thereof.

R. A. IRVINE, Deputy. Mr. Clement came in from Sweet Home one of the neighbors while out in the woods a few days ago, treed three congars, and by Dr. J. H. Hatch; "Neuralgia," by Dr. got away with all of them, which we think is enough to get up an excitement

yesterday. The express business is constantly increasing on this line. Rev. Mr. Bowersox, of Salem, reached this city to-day, where he proposes hereafter to make his home. We welcome

Rev. I. Wilson has gone to campmeeting at Monroe, where he will remain some

FRIDAY, JUNE 23, 1875. ROBBERY LAST NIGHT-THIEF CAUGHT. German, probably 30 years of age, who has been boarding at Mrs. Hopkinson's, in the eastern part of the city, last night decamped, taking with him a fine cloth coat and sleeve-buttons, belonging to Mr. Francis, one of his fellow boarders, silver watch, and other articles. The thief had sold the jewelry to the parties from whom he stole them. W. B. Rice, Chief Operator (). & C. Railroad, as soon as the robbery was discovered, telegraphed to Conductor Stroud, who is running the Albany & Portland Express that leaves this city at 5:30 A. M., the message catching him at Salem, a-king him if the German (describing him) was on his train. Strond telegraphed back that he was. City Marshal Fox then telegraphed to the proper officer at Aurora to arrest him. The hero of this for the excellency of its "grub," unconscious that the minions of the law were about to pounce upon him and deprive him of his liberty for "dem leedle jokes," when the officer spoke to him in gentle, soothing tones, "you are my prisoner." Such is the history of the latest theft. The thief was brought back to this city on the eleven

as John Kline, was brought before Justice Hamion about 2 o'clock this afternoon, the attack. His many triends in the city when and where he plead guilty to the have the satisfaction of knowing that he is charge of theft, and was bound over to have the satisfaction of knowing that he is receiving the very best of nursing, and is under the care of one of the best and most under the care of one of the best and most successful physicians in the State, Dr. Balthe taxpayers a few weeks. Prisoner, when asked it he took the articles, said yes; said he was broke, had no wash yes; said he was broke, had no work and wanted to go to San Francisco, and we suppose he took the articles enumerated above, especially the sleeve-buttons, to keep him warm. It is very seldom that a thief gets his just deserts in so short a time

manner, refusing utterly to cat anything engaged at work on Charley Barne's place, bridge, a little eccentric that way (all great men an accident on Tuesday, which might have at church, especially those who have works), and generally refers that way find on consulting Zell's late proved fatal. > Campuceting at Robert's bridge largely attended, the special train from this city

> at Robert's bridge yesterday (Sunday), two lacks came together with a crash, caused by the unmanagebleness of one of the teams, tearing all the spokes out of a front wheel of one of the lacks. A lady occupying a soat in one of the vehicles became frightened and jumped to the ground, sustaining considerable injury thereby.

House Racing.-Some boys from the ountry amused themselves yesterday af-ernoon horse racing with the Indians who are camped near the cemetery west of the city. This is rather a "lo" business, boys, and if we may be allowed the privilege, we would advise you to spend your Sundays hereafter in a less reprehe

AT LEBANON.-The attendance at the ampmeeting now in progress at Lebanon yesterday was the good order and close attention paid by this large concourse of people to the services of the day. We are glad to learn that a good work is being accomplished at this meeting—that, like Paul, sinners are asking, "Lord, what wilt thou have me to do?"

OVER AT DIXIE .- The campmeeting at Dixie was very largely attended yesterday; the rush and crowd of people and vehicles was tremendous. During the day a team became unmanageable and ran away, throw-ing the occupants of the vehicle to which they were attached out, killing one man our right and breaking the right arm and otherwise injuring another. The party that was killed was thrown upon his head, mashing it to a jelly, and literally tearing the flesh from the face.

Lebanon campricating, a horse broke loose, and for a time made things lively, loose, and for a time made things lively, as nearly the entire "meeting" were on their feet, it being very dark and no one knew at what time the animal, probably dragging a rail or post at the end of the halter, would be right upon them, not giving them time to get out of the way. One of the most terrifying things is a scared horse, dragging a rail at the end of his lariat, loose in camp after night. Weve been there, and don't want any in ourn.

Yesterday at Robert's bridge cam ing, Smith's restaurant was so husvily grub shortly after the regular dinner hour This was all caused by advertising. To daily papers of this city having informes the people where to get grab, they went for Smith, loading him down with column and eating up every crumb he had on the place. Moral—If you have anything to sell, inform the people of the fact, and install the place of the fact, and install the place of the fact, and install the place of the fact, and install the people of the fact, and the people of t

information on almost any subject, ad-IMPROVEMENTS .- Messrs. Blain & Son to-day commence preparations for the corner of their large warehouse. Into this ne v building, when completed, they will place a new steam engine, cleaner and elevating apparatus, for the cleaning and elevating of grain. A large bin, canable of holding 20,000 bushels of whear, will be put up in the warehouse, into which the grain will be elevated when cleaned, and from which it will be sacked for shipping. These gentlemen propose to be in a condition the coming season to accommodate the farmers of Liun by landling their wheat in almost any shape they may desire. Two most accommodating, reliable and trasworthy gentlemen are Messrs. Layton Blain and Prof. Sex.

Almost every one is agreed upon the

roposition that the building dustries is the surest, suest and best with secure to any community prosperity and venith. It has, time and again, been anoesafully demonstrated that the benefits acruing to society from fostering and build-; ing up home industries, are greater and fained by any other mode of investing capital. In fact all the weight of argument is up by manufacturing interests. Its growth, may not be so rapid, but is permanent and its wealth solid. But, to insure the movess of home industries. It is necessary that they be fostered by, the whole coun-1 munity-the goods or wares manufactured should have a preference with home consumers over all others. If any article tor, use is wanted, that can be purchased of the home institution at about as low rates as a similar article imported. It should be This fosters and builds up the home inlastry, and the money thus expended remains in the country to improve and enrich it. Home industries will not flourish, where the people import every article of wear-in the community that sends all its. gold from year to year to the East for its wagons, its agricultural implements, its blankets. On the contrary there is no inducement for capital to invest in manufacturing in that community. A community that goes abroad for all these things when it has the natural facilities at its doors for the successful and profitable manufacture of almost anything it may need, gains, if it gain at all, slowly, and the gain is confined to the few. A farming community that is sending off from year to year all the cash derived from the sale of the products of the soll in the purchase, of . Im) ments and machinery to produce and save those crops, is eternally "hard sip." All the surplus coin is thus drained from the country each recurring year, never to be

Let our people turn these thoughts over, and ponder and reflect upon them. As a community we of Albany are specially favored, having abundant ratural facilities for operating manufacturing interests of almost any kind. If we would see our city grow and increase still more rapidly in population and solid wealth, we have only to properly use the facilities at thand. With the present advantages which we possess, sided by the necessary push and energy which is necessary to the accomplishment of any great end, Albany need
