

The Albany Register

VOLUME VII.

ALBANY, OREGON, JULY 30, 1875.

NO. 46.

Home News.

SATURDAY, JULY 24, 1875.

The revival meetings closed last night. RUNAWAY.—A team belonging to John Laper, attached to a hay wagon, ran away to-day, throwing the driver, Mr. Foster, heavily to the ground and injuring his hip.

DIDN'T KNOW HIM.—Fred Graf's father whom he had not seen for about twenty-three years, arrived in the city a day or two since, and Fred went out to the depot to meet the old gentleman. After the arrival of the train and after Fred had anxiously scanned each face in the vain endeavor to find his father, an acquaintance came to him and informed him that his father was looking for him! Each had probably passed and repassed the other without recognition, the constantly rolling years having made such great changes in the two men.

PROBABLY FATAL ACCIDENT.—About noon to-day, out on Abe Hackmann's place, a couple of miles south of this city, a young man named James Chambers fell from the barn loft striking a stake on a wagon-rack partially loaded with hay, with such force as to penetrate the cavity of the stomach, cutting a gash five or six inches in length, from which the entrails protruded. The snake penetrated the left side just below the ribs. Drs. Jones, D. C. and J. L. Hill were called in, who removed a portion of the protruding membrane. The physicians will exert all their skill to save him, but there is scarcely any hope for the wounded man's recovery.

ETHNOLOGY.—The Smithsonian Institute, wishing to secure as large a display as possible illustrative of the ethnology of the United States, to be exhibited at the Centennial at Philadelphia in 1876, has sent out a circular requesting all friends and correspondents, and all who are interested in the completeness of such a display, to forward any and all specimens they can in the way of stone, bone, earthenware, etc., tending to illustrate the past and present history of the aboriginal races now or previously inhabiting the Continent of North America, including what is strictly prehistoric in its character or relating to a long-past age, and what belongs to the present day. Such articles as axes, chisels, flint-stones, knives, hammers, pestles, mortars, scrapers, smoothers, polishers, slinkers, pipes, tubes, vessels, or vases of earthenware or soapstone, both entire or fragmentary. The modern objects required are articles of dress, ornament, and the toilet. Implements of war and the chase, hats, wigwags, sleds, boats, dogs and harness trappings, agricultural implements—in short everything that tends to throw light upon the manners and customs of the American tribes. Skulls and skeletons, both ancient and modern, will be acceptable, as also photographic portraits of modern races. All specimens should, as far as possible, be accompanied by an invoice and a statement of the circumstances under which they were collected, whether in a mound, a grave, or found on the surface; with the exact locality, collector, etc. The collection thus obtained will, after they have served their purpose of exhibition at the Centennial, be brought back to Washington and form part of the permanent exhibition at the National Museum, where, as in Philadelphia, due credit will be given to the contributors. The display in question will be exhibited under the joint auspices of the Smithsonian Institution and of the Interior Department, both departments being engaged in making collections for a common object. Parties heretofore who may have specimens as above described can hand them to Mr. John Briggs, who will pack them neatly and forward them to Washington, where all packages for the Institution should be forwarded.

MONDAY, JULY 26, 1875.

James Chambers, so badly hurt last Saturday, is reported getting along finely to-day, and it is now thought he may pull through. Good.

COLLAR-BONE BROKEN.—A little daughter of Mr. A. Carothers, Libbie, aged between three and four years, while playing, fell off of a lounge, yesterday, breaking her collar-bone.

Dr. Geo. W. Gray, Mrs. Foster and son, Robert, took the cars for the north on Saturday. They intend joining the party, headed by Mr. Hammond, that starts for the Sound in a day or two.

Rumor has it that E. S. Merrill takes charge of the American Exchange Hotel, and that Backensto flees to the mountains to recruit. Well, Ed can run the hotel—he's just the boy to do it.

At the wedding Saturday night, the happy benedict insisted on the minister, Rev. L. Wilson, kissing the blushing bride, adding, "it must be for the last time." With the same proviso, he invited all to sail in. It was a merry occasion, hugely enjoyed by all present.

Mrs. Dr. Gray starts for Portland tomorrow.

J. J. Cemstock and wife are in the city.

The field belonging to Walter Monteith, just south of James Elkins' place, caught fire to-day. We haven't learned whether it was grain or grass that was being burned, or how great the damage. Supposed to have been set on fire by sparks from a passing locomotive.

J. W. Rust is canvassing for "Wild Life in the Far West; Personal Adventures of a Border Mountain Man," a most thrilling and entertaining work, illustrated with numerous engravings of border life. Price \$3. Persons fond of reading of hair-breadth escapes and daring deeds, should secure a copy of this work. It is well written, and the interest is sustained from beginning to end of the work. Subscribe for it.

DROWNED.—A young man named Dudley Gilmore, aged about eighteen son of the hotel proprietor at Junction City, was drowned in the Willamette river, at the bridge near Harrisburg, on Saturday. Deceased and two others were in swimming at that point, and as he was swimming across for the third or fourth time, he got too close to one of the beams in the bridge where the water makes a swirl, and was drawn under. The other boys made an effort to save him, but were unsuccessful. Search had been made for the body, but without success at latest dates.

SERIOUS ACCIDENT.—Letters have just been received from Oeloco conveying the information that Mr. Win Gird, who left his home in this city a short time ago for his ranch out there, has met with a serious accident by being kicked by a young horse. He was kicked on the left leg just below the knee, the hoof cutting a terrible gash which, in the absence of a physician, he was compelled to stitch together with his own hands. The leg is completely paralyzed, and it is feared the bone is fractured. As soon as possible Mr. Gird will start for home, although letters to friends in this city just received announce that he was confined to his bed, and it certainly is a pretty severe wound that would keep him in bed.

Dick Fox, City Marshal, has gone to aquia, leaving Ves Packus to fill his office.

MARRIED.—In this city, at the residence of Joseph Webber, July 24th, by Rev. I. Wilson, Mr. Gustav Hodges, of Corvallis, and Mrs. Anna Rodgers, of this city.

TUESDAY, JULY 27, 1875.

The first green corn we have seen in this market this season came in to-day.

Bishop Peck, of the M. E. Church, will preach in this city at the Methodist church, a week from next Sunday.

One hundred and seventy-six persons signed the covenant during the revival meetings.

Mrs. Bart. Crooks has returned from a three weeks visit out at Roseburg.

The third story is to go on to the St. Charles Hotel, the initiatory steps being taken this morning.

J. H. Stuart is out again, after a six months' affliction with sore eyes. He is in a fair way to recover.

The report this morning is that James Chambers is better, with renewed hopes of recovery.

Cucumbers, at three bits a dozen, isn't as cheap away to get chills and cholera morbus as might be expected.

VERY ILL.—Miss Lissa Williams returned from her mountain trip very ill with typhoid fever, we are sorry to learn.

GONE FROM OUR GAZE.—Misses Lucy Claypool, Lizzie Geary and Mig Parker started on a trip south this afternoon.

Two of the REGISTER employees were too unwell to work yesterday, which accounts for the limited amount of matter in that issue.

Mayor Stout, of Jefferson, has resigned the mayoralty of that little city, and now that municipality is without an executive head.

A. Carothers & Co. are kept busy night and day filling orders for drugs, paints, soda, etc. The continued and arduous labor is telling on Andy, and he is getting thinner every day.

FENCE BURNED.—The fire spoken of in yesterday's REGISTER, caught from sparks left falling from a passing locomotive. The dry grass caught in Thos. Monteith's pasture, just south of the city, and communicated with the fence, destroying about two hundred yards of it.

The Willamette is now way down, none but the lightest draught boats being able to connect on to this city.

Green plums only three bits a gallon! So much fun and choice for so little money.

Wheat is gradually advancing in price, and our farmers are correspondingly cheerful. Times promise to be "flush" the coming fall.

Our markets are not overly well supplied with vegetables, etc., not because there are none in the country, but because the Grangers are too busy to fetch them in.

The firemen were out parading the streets yesterday evening, led by the brass band, wearing their new hats. They look gayer'n anything. Wearing one of those heavy leather hats on a broiling hot day will be punishment enough to satisfy most anybody.

Fd. Robinson and E. R. Gates brought down a raft of lumber from Corvallis to-day. Gates is a rasher and knows all about a sawmill and sawmilling.

Rev. Mr. Hammond leaves Portland for Olympia on Wednesday, and from thence to Seattle on Thursday. One week from Monday he leaves for Sitka. An excursion party is talked of for Sitka in connection with Mr. Hammond's visit.

The debate between Revs. G. W. Richardson and E. A. McCallister opened at Bethel to-day, we suppose. The question for debate is: Resolved, That the Old and New Testament, and reason, alike teach the final salvation of all mankind.

Young Foster, of Oregon City, who it will be remembered was brought in from the mountains some days since very ill with mountain fever, was carried to the cars to-day, still too unwell to get up, and started homeward. His sister, Mrs. Newman, who came up to attend him here in his sickness, is now suffering from the same disease, too ill to be removed at present.

REMOVED.—Mr. John Briggs has removed his tinware, stoves, etc., across the street from the old stand on First street, where he will be pleased to see all those wishing anything in his line. As soon as may be the old frame so long occupied by the "Old-Stove Store" will be torn down, and its place taken by a neat two-story business house.

RAILROAD TALK.—The question of the construction of a railroad from this city to Yaquina Bay is taking shape. If our people conclude to build it, it'll be done. And if the Corvallis people fail to make their railroad stick, Linn county will go for the road with a rush. It will not be a very big job, and our people don't hesitate at anything that promises to be remunerative, even if the first cost is a little binding. Our people are determined to have cheap transportation facilities to tide-water, and this route promises to be the best and cheapest in sight. More on this question at another time.

Rev. I. Wilson preaches his farewell sermon next Sunday.

Salem buyers are reported as offering \$1 per bushel for wheat.

No eggs in market—hens all struck.

WEDNESDAY, JULY 28, 1875.

Watermelon time is coming on. Let 'em come.

There is talk of starting a Dollar store in this city soon.

From Lebanon we learn that all who possibly could, had gone to the mountains. Just so every where.

Prof. W. E. Wells started for Fish Lake yesterday, Tuesday, expecting to be absent for two or three weeks.

Wheat is quoted at \$2 20@2 25; choice old milling, \$2 27 1/2 per cental, in San Francisco.

Messrs. Bell & Parker have a splendid article in the line of cigars, as we happen to know. Don't take our word for it, but try 'em yourself.

We have some idea of "lighting out" next week for the mountains, as hard and continuous labor for the past two years without a "rest spell" convinces us that we can fully enjoy a week's vacation.

BUSINESS.—W. C. Tweedale has added books and stationery to his line of business, and now you can get school books, sugar, letter paper, starch, pens, syring, envelopes, tobacco, etc., etc., by calling at his establishment. Business is busy.

No SERVICES.—There will be no services in the Congregational church on Sunday.

Dr. T. W. Harris is comfortably located at 1517, Stockton street San Francisco, and we shall probably hear from him occasionally during his residence there.

Dr. W. F. Alexander and family start for the Fish Lake country to-morrow. The Dr. will return, but the family will remain up there a couple of months.

Delegates to the Democratic State Convention from this county went down to Salem to-day. To-morrow we shall doubtless know who is to be the Democratic standard bearer in the coming triangular Congressional fight.

A lady of this city a few days ago tied a calf to a sawbuck with a rope. The result can be imagined. The calf tore up the garden, and eventually tore the sawbuck all to pieces.

BEAT TIMES.—Everybody seems to be busy—few if any idlers about. Improvements are going on in almost every part of the city, and all is life and energy. We are bound to grow and thrive if we have to build a railroad to Yaquina.

The roof on Froman's brick block is being slapped on rapidly, and will probably be finished this week. Carpenters are laying the floors, and the building will soon be ready for the plasterers.

The work of tearing down the "Old Stove Store" commenced this morning. Mr. John Briggs, to whom the property belongs, will erect a handsome two-story business house where the old building stood.

RUBBER PAINT.—Talking about rubber paint, a sample of it can be seen on the new awning in front of Mr. S. E. Young's store. This paint has a good reputation. Messrs. Bell & Parker have it for sale at their drug store.

GONE UP.—Our buyers are offering one dollar per bushel for wheat. Oats have advanced to sixty cents. Eggs are sought after at 25 cents per dozen, with few in market. Butter is worth 25c. The Good times are coming.

CHEAP RIDING.—The firemen of this city have chartered two cars for next Tuesday's excursion to Portland, and as there will not be firemen enough to fill the cars, they propose to sell tickets for the round trip to all who wish to go down on that day for \$4—which is cheap enough. Seize on the opportunity, you that want to go.

ROLL OF HONOR.—The names of the following pupils have been placed on the roll of honor in the higher department of the District School in this city, which closed July 24:

Ernest Schultz, Charles Donnelly, Ulysses Hale, George Clark, Amos Bessert, Anthony Baltimore, Oscar Brown, Olive Jackson, Noelle Richards, Margie Brink.

T. J. SITTES.

GRAIN STORED.—P. C. Harper & Co. are prepared to receive and store any quantity of wheat and oats, at their fine warehouse on the corner of Ellsworth and First streets. They will furnish sacks to all who order, in any quantity desired. Now is the time to make arrangements for storage. P. C. Harper & Co. will do as fairly by you as anybody. There are no more accommodating gentlemen in the business.

PERSONAL.—Miss Lissa Williams was reported much better this morning. James Chambers also reported improving. He was able to stand on his feet yesterday for a few moments. It has come to a pretty pass that a man can have a stake-and-ripped fence run through him, and still live!

Dr. J. L. Hill went to Baena Vista to-day, to see a patient.

Rev. Mr. Stratton and family, Andy Carothers and family, and others, start for Clear Lake to-morrow.

Jay Blain arrived home from Yaquina late evening, and ecoted for Portland this morning.

J. H. Backensto is very sick, and was yesterday removed from the American Exchange Hotel to the residence of his father.

It is generally conceded that General Benjamin Harrison will head the Republican ticket in Indiana for Governor in 1876, and Hon. William S. Holman the democratic. General Harrison was second in the Convention in 1872, when General Brown became the nominee, and was nominated by acclamation for Congressman at large, but promptly declined.

Returns of the department of agriculture for July 1st, show the condition of spring and winter wheat together at about 82 per cent of an average. Winter wheat, including California, averages 74, and spring wheat 96. Spring wheat, in States in the northeast and northwest is generally in high condition. Of winter wheat the area in the South Atlantic and Gulf States is generally above the average, but in the middle States the condition is very low, ranging down to 45. West of the Alleghanies from New York, the prospect is better, the State averages being between 71 in Ohio and 95 in Iowa. California reports winter wheat at 70 and spring wheat at 75.

A Sacramento paper of the 23d says: "Lincoln, Placer county, usually a quiet place, with nothing to disturb the even tenor of its country ways, was on Wednesday agitated to a somewhat unusual extent by an elopement which took place on the night previous. A gentleman, the father of a pretty and marriageable daughter, had forbidden an estimable young man well known in this city, where he resided, to court his daughter or even speak to her; but the young people were determined to surmount parental obstacles, and friends of the young man aided him in the chivalric enterprise. A license was procured Tuesday, and it appears that later families suspected something, for that night the damsel was directed to lodge in the extreme upper part of the house. But at midnight, by some of them getting on top of the house, the young man and his friends managed to lower the lady down, and took her in triumph before a minister, who tied the knot, and the couple went to their new home happy."

An Inter Ocean special correspondent in the Black Hills, under date July 20, telegraphs from Harney's Peak that Prof. Jenny has discovered encouraging prospects along Spring and Rapid creeks where he has been working with his troops the past two weeks. There is abundance of water, probably from one to twelve inches, with fine fall of 75 to 80 feet per mile; also a number of flats that average from 3 to 4 1/2 cents per pan from the grass roots to the bedrock. There are, it is estimated, on Spring and Rapid creeks, not fewer than 200 miners, and disseminated throughout the Hills about 800, although some place the number at 1,000-1,500. The gold in the new diggings is of coarser quality and greater quantity than that discovered along Branch creek. Miners are coming at the rate of 20 daily, and new gulches of gravel are thickly settled. Col. Dodge left this morning with 2 cavalry companies for Prof. Jenney's camp. The remainder of the command will occupy camp Harney for several weeks, or till the Indian commissioners arrive. It will then move north to Bear Butte, where the next permanent camp will be made.

A dispatch from Berlin says Count Dzembeck, his mother and chambermaid, have been arrested at Landeck, in the district of Bestan, charged with being concerned in a conspiracy to assassinate Prince Frederick William.

A Washington special says Senator Cole, of California, who has been at Washington attending to business before the Geneva court, is said to be an aspirant for the position in the cabinet in case of Delano's removal.

ANIMAL SAGACITY.—A Missippian has a cat of which he tells the following story: "I was once a short time ago, and the cat would come from the table to the bed frequently. She finally caught a mouse and brought it to the bed, laying it down beside me. I threw it off but as often as I did so the cat would bring it back, until I thought she wanted me to eat it; so I made believe I ate it, and she went away apparently satisfied. And before night the same day she brought me a striped squirrel, and each day for three days I was in bed she brought game with the same result—she would never leave until I had pretended to eat it."

For twenty long years," says a New Jersey paper, "the wolf stood at this poor widow's door." To keep a wolf standing that long is nothing less than cruelty to animals.

The losses of the Carlists during the past three weeks in killed, wounded and missing, is estimated at 4,000 men.

There were 193 deaths in Vera Cruz during the month of June, of which 125 were from vomito.

John Marden, superintendent of the Dalles and Sandy wagon road, informs the Mountaineer that the road over the portage—a distance of six miles—is now finished and ready for use. He has moved his camp to one mile below Mosier's, intending to open the road between the Dalles and Hood river, or as far as the money on hand will carry it.

Republican Convention.

At a meeting of the Republican State Central Committee it was ordered that a Republican State convention be held in Salem on the 11th day of August, 1875, at 2 o'clock P. M., for the purpose of nominating a Congressman. The Committee also recommended that the Primaries be held on Saturday, July 31st, and the County Conventions on Wednesday, August 4th. In compliance with this recommendation the Republicans of this county will meet in their several precincts on Saturday next at 10 o'clock A. M., for the purpose of electing delegates to attend the County Convention, which meets in this city on Wednesday of next week. The several precincts will be entitled to the same number of delegates elected by them in 1873.

The waters of the river Nene at Peterboro are from 15 to 20 feet above the ordinary level. The rise was so sudden that bedrooms in buildings along the river were flooded between Earith and Denburg, and 3,000 cattle were deprived of pasturage. The water was 3 or 4 feet deep on 45 acres of land near Whiteley.

Duncan, Sherman & Co., New York, failed yesterday, 27th. Liabilities, \$4,000,000. The announcement of the failure created the wildest excitement in New York.

John Noble, a highly respectable farmer of Milburn, Ohio, beat his wife with a club and then cut her throat. Alleged cause, infidelity. He surrendered to the authorities. Noble was 60 years of age.

The Gazette Monteno, France, says that by an accident charcoal has been discovered to be a cure for burns. By laying a piece of cold charcoal upon a burn, the pain subsides immediately. By leaving the charcoal on one hour, the wound is healed, as has been demonstrated on several occasions.

The Acalanche says: "It seems to be a well established fact that John Mowbray, who is now in jail in Silver City for beating and threatening to kill his wife, instigated one of his children a boy some eight or nine years of age, to set fire to the house in which Mrs. Mowbray lived. At all events, the boy did kindle a fire under the house the night of his mother's confinement, and had it not been for a Chinaman, who saw and extinguished it, the bedridden woman and her helpless little children would have fallen a prey to the devouring element and been burned up alive."

To the Farmers of Linn County.

Hold your orders until you see the Chicago Pitts Threshers. Ask old Illinois farmers and they will tell you that they are the best in the world, without any exception. Sold only by Lintorth, Kellogg & Co., Portland, and their agents throughout Oregon and Washington Territory. We also have a full line of farming implements and machines, consisting of the following A. No. 1 goods: Win. Anson Wood Mowers, which took 32 first premiums, in field trials, in 1874 and could go into the field with any machine on this coast to demonstrate that they are the best, which we are prepared to prove, and challenge any machine to the contest. Extras to all machines supplied from our Portland house, without delay—a full supply always on hand. Please send for price list and circulars. Address, A. SLOUM, Agent, Portland, Oregon. 43m2

NEW FIRM.—Sam Miller has bought the Wagon and Smithshop heretofore occupied by Peters & Snell, together with the material and outfitting, and is now prepared to furnish anything in his line, consisting of Carriages, Harness, Leather Work, Saddles, and general smithing neatly and with dispatch. I employ none but the best of mechanics, and insure satisfaction. All work warranted. I think I can make an object for you to buy of me, in price, style and durability. I have the best of material, hickory and oak, from the Eastern States, call and examine for yourselves. All I want is a fair trial. I have had several years of experience in this country, and know the value of the goods I can please you. I guarantee to sell for cash as low as can be bought in this city. A large lot of lumber, wagon, axle and ending carriages and backs on hand. Patronize home manufactures—do not send your money out of the country. Act the part of wise men, and build up your own State, and you will prosper. Dec. 11, 1874.

CANCER CAN BE CURED.—We warrant a cure on Cancers and "old sores." Have also new vegetable remedies for diseases of the eye, which have cured a great many cases considered hopelessly blind. Office at the residence on corner of Calpoola and Fourth streets, opposite Judge Baldwin's. R. G. & MRS. FRESHAW.

MR. JAMES MOORE—Will commence, on or about the 10th day of May, delivering fresh Milk, Butter, Eggs and Vegetables to the citizens of Albany. Now is the time to make your arrangements, as Mr. Moore will run a team daily, and do as he agrees. 31st.

REMOVED.—Dr. Gamble has removed his office to his new building, adjoining his residence on First street, one block west of the foundry, where he may be found at all hours. 43

WOOL WANTED.—P. C. Harper & Co. will pay the highest cash price for all the wool they can get, and would respectfully inform everybody that they have a fine stock of general merchandise for sale very low for cash, or to prompt paying customers on time. 31st.

PREMIUM CHAIRS.—Those wishing to procure the celebrated Metzler chair, will take notice that none are Genuine unless the name J. M. METZLER appears on the back of each chair. 44 1/2.

SAMUEL E. YOUNG,

Wholesale and Retail Dealer in DRY GOODS, CLOTHING, GROCERIES, BOOTS & SHOES, THRESHERS, REAPERS & MOWERS, WAGONS, PLOWS, SEED DRILLS, BROADCAST SEED SOWERS, ETC. First street, Albany, Oregon. Terms: Cash. 12077

A. H. BELL & PARKER, late of Oregon City. We beg leave to inform the public that they have purchased the entire stock of drugs, medicines, etc., formerly owned by E. U. Hill & Son, and that they desire continuing the business at the old stand, where they propose keeping in the future a full assortment of Drugs, Chemicals, Patent Medicines, Toilet Articles, Perfumery, and everything usually found in a first-class drug store.

While earnestly soliciting a continuance of the liberal patronage heretofore extended to the old house, we hope at the same time, by fair and liberal dealing, and careful attention to the wants of customers, to merit the esteem of any new friends who may favor us with their orders. Particular attention will be given to the compounding of physician's prescriptions and furnishing of all kinds of the above named articles, at all hours of the day or night. A. H. BELL & PARKER, Successors to E. U. HILL & SON Albany, October 9, 1874.

Here's the Place!

S. H. CLAUGHTON Has received and is offering for sale a well selected

GENERAL MERCHANDISE

Which he is determined to sell AT THE LOWEST PRICES

for Cash, or Merchantable Produce!

Please give me a call, and examine Goods and Prices.

S. H. CLAUGHTON, Lebanon, Or. 1317

O. P. S. PLUMMER, M. D.,

DEALER IN DRUGS, MEDICINES, PERFUMERIES, TOBACCO, BOOKS AND STATIONERY.

A full stock of Trusses and Surgical Appliances. 539 Commercial PLUMMER, 23 1/2

P. C. HARPER & CO.,

Dealers in DRY GOODS, Clothing, Boots and Shoes, Hats, Groceries, Fancy Goods, Notions, Stationery, and Pistols, Nails, Rope, Mirrors, Wallpaper, Wood and Willow Ware, Trunks and Valises, Pocket Cutlery, &c., &c. Sold very low either for cash, or to prompt paying customers on time.

558 ACRES!

Large and Valuable Tract of Farming Land for Sale.

THREE HUNDRED ACRES of plow land, 200 of which is rich bottom land. On the premises are fair buildings, houses, barn, granary, sheds, etc.; also good bearing orchard of fruit trees; 200 acres of the very best pasture land; 50 acres of timber land, ash and maple, the best of farming land when cleared. A heavy fallow stream of water runs through the farm. There is also a splendid quarry of fire-rock on the place, produced by contact with a rock. Four hundred acres are under fence. It is one of the most desirable and cheap farms in Douglas county, lying 1 1/2 miles from the O. & C. railroad at its end. For particulars as to price, etc., apply in this office to J. H. BOUGHTON, M. D. Albany, May 14, 1875.

Albany Bath House & Barber Shop.

THE UNDERSIGNED WOULD BE PLEASANTLY to thank the citizens of Albany and vicinity for the liberal patronage shown to him for the past seven years, and hopes for the future a continuation of their favor. For the accommodation of transient customers, and friends in the upper part of town, he has opened a neat little saloon next door to Taylor Bros. Saloon, where a good workman will always be in attendance to wait upon patrons. Dec. 11, 1874. 308 WEBBER.
