OFFICIAL CITY PAPER.

ALBANY, FRIDAY, JULY 30, 1875.

The New York Daily Bulletin is publishing full details of the condition of the weather and crops in Europe. The main weight of the injury to wheat has fallen on France, but even there the injury is not so decisive that it might not be remedied by subsequent fine weather. In Germany the weather is fair. The average in Hungary is unfavorable. Ireland has suffered from too much wet. Paris papers give the following account of the weather and crops: Harvest operations will now be delayed, and the yield be materially less than last year. The quality of the wheat has already given rise to general complaints. Rust has made its appearance almost all through the country in the West. Central departments complain that the sprouting which is plainly manifest in the south threatens extension into the central and western provinces. The weather has been most deplorable. A copious and continued downpour of rain has prevented the commencement of harvest, which works great uneasiness among farmers. The weather, coupled with an active demand from the south of France, has led to an advance in wheat in France of 5 centimes per cental, or from 35 to 45 per cental. There is an equal rise in the value of flour. The wheat crop has yet suffered but little from rain. If fine weather comes soon the present anxiety will speedily be dispelled.

The Seattle Dispatch says: On Tuesday evening, last week, as the sloop Martha was passing Protection Island, the men on board discovered a strange looking object floating in the water. They steered towards it, and on picking it up they were horrified to see that it was a coffin containing the body of a woman wrapped in a sheet. The coffin was a plain fir box, and a portion of the lid was broken off. The face was so much decomposed that it was impossible to tell whether it was a white woman or a black woman, though they could make out that the features were regular and the hair long, black and glossy. The body was buried on Protection Island by the men who discovered it, Jas. Wilson and Thos. Haynes, from whom any information in regard to it may be obtained. They reside near Port Townsend.

Laura de Force Gordon, proprietor and editor of the Stockton, Cal., Leader, on the 23d of July, brought suit against the City Council of Stockton, praying that a writ of mandamus be issued to compel said Council to award the city printing to her, the bid of the Leader being 33 per cent. lower than the Herald, of which paper the Council awarded the contract.

The Tribune announces that the postmaster general has set the mail route along the shores of the lakes for fast mail to the west. It is expected to begin to run by the first of October. It will make the distance from New York to Chicago in not more than 26 hours, and hope to reduce the time to 24 hours, a gain of 12 hours over the present mail and express time. The amount of mail matter to be carried will reach 45 tons before the expiration of six months. The greater part of the work of distribution will be done on the cars. Newspapers will be taken in by the bundle and folded and distributed on the cars. Re-ays of clerks will be stationed on the Syracuse, Buffalo and Toledo Enterprise, the railroad having met the government in the most generous spirit.

The Democrats met in State Convention at Salem yesterday Thursday, had a vigorous fight over the nomination for Congressman. The nominees were: Lane, of Douglas; Nemeth of Polk; Hayden, of Polk; Page, of Multnomah; Slater, of Marion; Reed of Multnomah; Whitaker, of Lane. Slater and Page were afterwards withdrawn. The platform contains fifteen resolutions. As we have not read the platform we refrain from comment. A nomination was not reached to day, Friday the votes being pretty evenly divided between Lane, Whitaker and Reed. This morning Lafayette Lane, of Douglas, receded the nomination.

The British Parliament almost unanimously voted \$70,000 for the expenses of the Prince of Wales in India. This may appear enormously extravagant to Americans, but the British Government understands the importance of displaying when treating with Oriental. The Prince's visit is of a diplomatic nature, for the purpose of strengthening the ties between the two countries. Being a King in prospect, he must travel in royal state, to command the respect of his future subjects, and if he makes a good impression, the money will have been well invested.

Some boys carelessly set fire to a grain plot near Gov. Grover's barn at Salem the other day, and only by extraordinary efforts were the building and contents saved.

Salomites gave Mr. Hammond only \$161 for his services there.

The new buildings at Philadelphia are on a scale of prodigious magnitude. The main one is 1,880 ft long and 464 wide, and covers twenty acres. Memorial Hall is to be of granite, glass and iron, 335 feet long, 210 wide, and 59 in height. Horticultural building, iron and glass, 383 feet long, 193 wide, and 72 high. Machinery building, 3,824 feet long, one story, and covers thirteen acres. Agricultural Hall, 820 feet long, and covers ten acres. All these vast structures are expected to be finished early next Spring.

The firm of Palmer & Woodruff, druggists of Roseburg, were robbed on last Saturday evening of \$250, which they had concealed in their store. The thief is not yet known, although suspicious are entertained of a certain person whose name they do not propose to give at present.

The trial of John D. Lee is progressing in Salt Lake City. The evidence so far elicited proves what has long been charged, that the Mormons massacred an emigrant train at Mountain Meadows in 1857.

There was a French regiment in which duelling was all the rage. The officers were fighting each other, or getting up little affairs with the officers of other regiments. At last the War Office, weary of the officers changing the commanding officer. A Colonel was sent down who would be sure to put a stamp on such nonsense. A few days after his arrival two of the officers came to ask his permission to go out and fight. To the amazement of the others, he refused their request. They went to fight, they slightly wounded each other, and "honour was satisfied," as they say on these occasions. They were no longer recovered than they received an order to wait upon the Colonel. "You have to go out and fight again to-morrow," said he, and as they looked at him with questioning astonishment, he explained, "when officers fight in the regiment I have the honor to command they kill. The officers went out again, and at last they killed each other; but henceforth and forever in that regiment, and a good many besides, there was an end of duelling."

From Mr. H. H. Lane, of Coos Bay, who is at Salem attending to some bad matters, the Farmer learns that four vessels are now being built there, one of 1,000 tons capacity, by Simpson, at North Bend; one by John & Co., capable of carrying 700 tons, building at Marshfield; and by Reed & Co., at Marshfield, and Lane himself at Empire. Vessels each of 400 tons capacity. The two first named vessels are barkentines, and the two last schooners. The time is soon coming when ship building will become a great business at Coos Bay, and also at Puget Sound and the Columbia river, and already ship builders from Maine are emigrating in the hundreds on this coast with wonderful success.

The editor of the Roseburg Plaindealer, having made an extended tour through the northern portion of Douglas county, concludes that the yield of grain was never larger. The farmers are nearly all busy harvesting. Many have their grain already in the beez like a golden sea.

The La Grande Sentinel man says he has heretofore taken, on subscription to his paper, "bran and cabbage, potatoes, rutabagas, green wood, sour fruit, green hills, old clothes, swill, feathers, fence rails and carpet rags, and lost money on them all." Now he wants money or its equivalent.

The schooner Northwest, that went ashore on the north spit, while attempting to enter the harbor at the mouth of Rogue river on Jan. 30th, was bought by Stewart & Strain, registered and launched on the 14th inst. She was to load with fish, and sail for San Francisco.

Dr. Bunell left Roseburg last week en route for San Francisco to purchase machinery for the Nonpareil chum mill. This looks like business. About \$40,000 will be expended, and the owners are confident that they have the best thing in Oregon.

The wool clip for Curry county this year is unusually large. Notwithstanding there has been some disease among sheep they are mostly in a healthy condition. The wool is being shipped to San Francisco.

The Clackamas county court meets on the fourth Friday of each month at 11 o'clock A. M. Place of meeting at J. C. Trullinger's mill, near the center of the county.

A number of wheat fields on French Prairie, Marion county, are "white out to the harvest." Reapers will start in on them this week.

J. C. Mortimer, a colored barber, was found dead in his bed at Salt Lake City last week. Mr. Mortimer was a young man of considerable ability, and two years ago represented the colored men of Utah in the civil rights convention in Philadelphia.

Southern Utah wants Jay Gould to bury his extension of the Union Pacific in that direction. The mines of Salt Lake Beaver promise the new line plenty of business.

The river at Salem is at low water mark but the steamers Champion and Ohio continue to disturb the gravel for some distance above.

The Statesman says some of the young men of Salem are in the habit of sending obscene language through the mails on postal cards.

The intense heat in the valley between Salt Lake City and Lake Point, twisted the little narrow gauge rails to such an extent as to impede the passage of trains.

Wednesday of last week was a "scorching" day at Walla Walla. The mercury measured 108° in the shade. It was the hottest day of the season.

Mrs. Ann Eliza Young, is at present stopping with Mr. and Mrs. John B. Gough, at their residence near Worcester, Massachusetts.

Colorado people now call their Territory the "Centennial State," as they expect to be a full fledged member of the sisterhood next year.

The citizens of Laramie are subscribing to a fund for the purchase of fish to stock the Laramie river with.

Wasco county owes now only \$3,983.00, having reduced her indebtedness considerably during the past year.

Jackson county has warrants outstanding to the amount of \$6,957.00, and has \$971.90 cash on hand.

The locust tree in Oakland, Douglas county, are in full bloom for the second time this season.

Pacific Slopers.

An unknown man was drowned in a lake near Cheyenne the other day.

A man who had been working for B. W. Dunn, at North Yamhill, helped himself to \$18 belonging to a fellow-laborer, and a revolver and some clothing belonging to Mr. J. Shelton, who he thought might, and then sloped for parts unknown.

Several mining claims have recently been located on the Florida Mountain, in the vicinity of Silver City, T. T. Quite an excitement exists, and it is believed that bonanzas are numerous. Prospecting is being attended with very favorable results. In the mining towns of Idaho Territory the prospects of a marked and gratifying improvement in all kinds of business the coming fall are very encouraging. The mines are looking well, and from the crop raising sections of the Territory the reports are favorable.

The Idaho World of the 21st inst. says: "There was a tremendous rush into the recorder's office last Monday, to have claims recorded taken up on the rich ledge discovered six miles west of Placerville, last Sunday. Five hundred feet were recorded, and the excitement continues."

Several sales of farming lands and farms in the vicinity of Walla Walla have been made recently. Mr. Frank Shelton has sold his splendid farm, of 320 acres, from town, to a gentleman just out from Tennessee, for \$7,500. Mr. O. P. Lacy has also just sold the old country farm on Garrison Creek, four miles from town, for \$3,500.

An Alabama man advertises: "Prepare at once to get one of my pictorial Home Bibles. I have the best umbrellas for buggies. Also another good thing, cucumber PLANTER AND MATCHER, which is the best of all the American eastern planters. The people want my patent coffee pot, these last times. I have a speciality, and are now prepared to do without delay, as we can change the machine from one kind of work to another in a few minutes, and with our excellent water-power saws ready to run any or all our machinery."

The Sanish Indians, who are at old are very disorderly, drunkenness prevailing among them to an alarming extent. Last week, while two intoxicated Indians were in a canoe together, one fell into the water and was drowned, the other being too insensible to render any assistance.

The Seattle Tribune says: Mr. Bishop, the enterprising Chinaman farmer, lost forty tons of hay, while it was standing in the field, by the ravages of the army worm. The vegetables in the same vicinity are fast being destroyed. Fifty tons of these worms are seen attacking a single plant.

The Seattle Intelligence tells of a big tree that was cut at Salmon Bay, W. T. a few days ago, the product of which was \$2,000 worth of lumber. Another cut, 32 feet in length, with a measurement of 55 inches at the small end and 65 inches at the butt, could have been obtained, but it was not free from knots.

The Idaho World says: "The water courses are getting very low, and many of the streams are dry. There is a sufficient quantity in the principal streams, however, to feed the big ditches some time yet. The majority of the farmers, having finished up their work for the season, have turned their attention to prospecting for gold."

Peter Napoleon, an Indian, was arrested at Puyallup on Tuesday last by Mr. Montgomery, deputy sheriff of Pierce county, for a murder committed by him upon one of his own race some time since, he having killed a squaw by twisting her neck till he broke it.

The Cheyenne cemetery has no fence around it, and the cows go in and scratch themselves against the tombstones.

A nest of gold nuggets has been found 40 miles west of Trinidad, Colorado. The ranchmen have quit farming and gone to mining.

A Salt Lake mother held her three-year old boy in an irritating ditch, head down, until it was drowned. She will be tried for murder.

Two brothers, named Nelson, aged respectively ten and thirteen years, were drowned in a pond near Corvallis, Saturday, while bathing.

Work at the mines at Selma has been partially suspended for the past three weeks, owing to the bunkers being full and the coal vessels behind.

The Tribune estimates that the Cottonwood and Bligham mining districts in Utah together, are turning out ore at a rate that will average \$10,000,000 a year.

The Ogdenites are vociferous in their claim to have the United States mint established at the junction and call Ogden the "center of the national belt of the world."

An unmarried preacher is wanted in Leavenworth. One (the advertisement says) desiring an engagement is requested to correspond with Sister Kate Hanson.

Forest fires have swept thousands of acres of timber in Decatur mining district, Utah. The miners saved themselves by abandoning their cabins and taking refuge in the tunnels and shafts.

J. W. Parker, of Greeley, Colorado, set out 970 transcendental crab trees, and the "loppers" came, says the Sun, they stripped the leaves clean from the trees, and even destroyed the young shoots, some of them several inches in length.

On Thursday morning, Frank Parker, a son of Mr. Parker, the head carpenter at the Reiston coal mine, near Seattle, was killed by the fall of a piece of a sawdust bank, in which he was excavating a play house. His funeral took place in town Tuesday.

A stabbing affray occurred at Port Discovery on the 10th inst. between two salaried men, the big Zeeon, named Johnson and Lewis. During the affray Lewis received five cuts on different parts of his body, one of which was, at the time, considered dangerous.

The steamship Los Angeles is withdrawn from the route between Seattle and San Francisco. Her place is to be taken by the steamship Pacific, which is to make semi-monthly trips between Puget Sound ports and San Francisco, touching also at Victoria.

The following is an exact copy of a coroner's jury verdict in a New Mexican town: "We, the jury, find that the deceased came to his death by a shot accidentally went off by himself by killing a cat by shooting the same and when she was not dead instantaneously by striking the cat with the branch of the gun and the cat discharged itself."

An old gentleman named Kinney, who is well known around Salmon river and Florence, was found dead in his cabin in the Big canyon, of Snake river, where he was mining, a few days since. When found he had been dead some days, and was in a bad state, so some of the miners around opened the roof and filled the cabin with dirt. The old man had been ailing for some time past.

On Saturday before last four Chilians started out for a sail in the harbor at Port Madison, but shortly after getting underway the small boat they were in upset. Two of them being unable to swim along to the boat, the other two, however, struck land, one of them shore. Becoming exhausted, one of them was found lying on a pile that was floating near him, but the other, unable to sustain him longer, sank and was drowned. The other three were shortly afterwards rescued from their perilous situation.

The Mormons of Tooele valley, Utah, have been all the spring praying for the young grasshoppers to leave, and now they are not leaving a leaf on any of the trees or a vegetable on the farms.

Pendleton will have a new flouring mill in running order by the 1st of August.

The people of the Dalles are luxuriating on green corn, cucumbers and doctor's stuff. The mercury came within two of a hundred at Roseburg last week.

C. E. Whitney has been chosen city clerk of Walla Walla.

One firm at Walla Walla bought 4,000 bushels of wheat last week at 75 cents per bushel.

A large number of people in Nebraska and Kansas are talking of coming to Utah.

The Andean says the mumps and measles prevail among the children in Owyhee county.

Whitman seminary, at Walla Walla, will reopen Sept. 1st, under charge of Prof. Mariner.

Emeline Fries, who was once a favorite wife of Brigham Young, died at Salt Lake last week.

Ayer's Sarsaparilla,
For Purifying the Blood.
This celebrated vegetable alterative, cures all diseases of the blood, such as Scalding Head, Itching, Stiffness, and all the humors of the skin. It makes a most effective cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the humors, and restores the system, that underlie health and settle into the most perfect condition. It is the only medicine that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or some humor, whose action they derange, and whose substance they disease and destroy. AYER'S Sarsaparilla expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Throat, Scalding Head, Itching, Stiffness, and all the humors of the skin. It makes a most effective cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the humors, and restores the system, that underlie health and settle into the most perfect condition. It is the only medicine that should be expelled from the blood. It makes a most effective cure of a series of complaints which are very prevalent and afflictive. It purifies the blood, purges out the humors, and restores the system, that underlie health and settle into the most perfect condition. It is the only medicine that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ, or some humor, whose action they derange, and whose substance they disease and destroy. AYER'S Sarsaparilla expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Ulcerations of the Throat, Scalding Head, Itching, Stiffness, and all the humors of the skin. It makes a most effective cure of a series of complaints which are very prevalent and afflictive.
