A GOLD MEDAL TO FRUIT PRESERVING COMPANIES.

SECRETARY'S OFFICE,
O'GN STATE AGRICULTURAL SOCIETY,
SALEM, Sept. 27, 1875.

The Oregon State Agricultural society offers a Gold medal as first premium for the largest and best exhibition of preserved fruits, etc., by machine process, at the Fair October, 1875, entrance, $6; three or more companies to compete. The Alden Companies of Salem, Albany, Corvallis, Oregon City and McMinnville, the Fruit and Meat Preserving Company of East Portland, W. S. Plummer, Portland, and W. J. Herrbold, Eugene City, agent California Fruit Preserver, I have notified by letter. In fruit preserving machines. The premium is free for all displays of fruits, etc., preserved by machine process.

By the Board, E. M. WAITE, Secretary.

HOTEL CHANGED HANDS.—This morning, Mr. S. W. Eddy, late of Portland, takes charge as mine host of the American Exchange hotel, having bought out the interest of E. S. Merrill & Co. Mr. Eddy is a perfect gentleman, thoroughly understands the art of catering to the public taste, and will prove to be, we have no doubt, one of the most popular landlords in the State. The Exchange will, under his charge, be "run right up to the handle," the public can be assured.

MUTATION.—Dr. Plummer having traded his neat store on First street, between Ferry and Broadalbin, for a half interest in the brick building near Washington street, on First, now occupied by Bell & Parker, will soon remove his splendid stock of drugs, chemicals, stationery, etc., to his new purchase, which he will fit up in splendid style. Dr. Plummer is one of the most tasty "boys" in the State, and we predict the new quarters will be "way" up.

PUTTING ON STYLE.—Albany is getting "way up" as a city, every day giving evidence of her growth and importance. Tuesday, Dick Kays, of Salem, threw himself in sight, driving a fine pair of trotters, attached to an elegant cab, through our principal streets, attracting universal attention. Dick says he proposes to stop with us, and grow opulent and purse-proud from hauling Albany's well-to-do citizens around for stamps. The institution will doubtless prove a great convenience to our people. Rates, first hour $1 50; second hour $1 00; riding per hour $2 50; riding to or from trains and steamboats 50.

"BY THE WAY."—A certain individual who don't live "far around here," who is in the habit of using the common expression, "By the way," at all times and on all occasions, recently happened to be in attendance at a religious assembly, and offered a prayer. He done splendidly until the winding up, when he sat down suddenly without the usual "amen." As he dropped into his seat the omission occurred to him, when he jumped to his feet, and with his index finger pointed to the pastor, he ejaculated, "By the way, Amen!" and immediately resumed his seat. There was an audible smile over the countenance of that solemn assemblage.

REPUTATION.—We not only have the biggest and best county, the most rapidly growing and prosperous little city in Oregon, but the reputation of our professional gentlemen begins to tell even in the "adjacent isles." We were more forcibly reminded of this latter fact yesterday, upon learning that our talented friend Rev. R. C. Hill, M. D., had just received a telegram from Kalama, W. T., requesting his immediate presence at that point, to wait upon a lady who lies prostrated by disease.

COMING TO THE FAIR.—Mr. S. G. Reed, of Portland, telegraphed to this city last Monday, that he would be in attendance at the Linn County Fair next week with his recently imported blooded stock. It is generally acknowledged by competent judges that Mr. Reed has some of the finest stock in the State, and it will be worth a trip to the coming Fair to see them.

ROUGH.—A limited amount of rescality prevails in the city and from two to three hombres are daily marched off to the lock-up, to await the reception party at his Honor, the Recorder's, who in a most solemn, yet earnest tone, declares that the peace and dignity of the city must and shall be preserved.

NEAT AND TASTY.—Messrs. Bell & Parker, druggists, and Messrs. Titus Bros., jewelers, having rented the store-room in east side of Froman's new brick, are having it fitted up in gorgeous style. When finished it will be one of the most elegant drug and jewelry establishments on the coast of Oregon. Success to the b'ys.

INCREASING.—Business on the O. & C. Railroad is increasing. Besides the regular daily freight, there is an extra freight train every other day, and occasionally a special train, for the purpose of transporting our wheat to tide-water.

FINE HORSES FOR THE FAIR.—Mr. G. J. Baskett, of Polk county, arrived in this city yesterday (Wednesday), bringing with him five of his fine horses. Among them is the racer, "Napa," and the trotter, "Gray Eagle."

NEW MUSIC STORE.—Mr. W. B. Barr & Co., contemplate opening out in the music and book line next week, probably on Broadalbin street. Barr, himself, is a full team, and if anybody can sell musical instruments, etc., he is just the boy to do it.

Mrs. P. C. Harper expects to be a passenger on the steamer *Oriflamme* for California, having given up the trip overland, as at first contemplated, fearing the fatigue incident to so long a journey in the stage coach.

Yesterday Ol. Bushnel furnished music for this office, running a fanning mill. He was cleaning wheat for seed, he was.

Wheat buyers of Portland are paying 90 and 95c per bushel. Six bits, we believe, is the average price here.

Wheat continues to pour into our warehouses, and the city is filled from early morn till late at night with busy people.

The prisoner, Watkins, was therefore discharged.

And now comes the professional "tramp," selecting this season of the year as the best adapted for plying his vocation. Farmers would do well to "heel" themselves for these fellows, and make it particularly tropical for them when they throw themselves in sight.

Walking horses are coming into usage at Western fairs. It is urged in favor of such contests that horses able to walk at the rate of four or five miles an hour are of more value to farmers for farm work, than those that can trot a mile in two twenty, which seems to be a very reasonable conclusion.

FINANCE AND COMMERCE.

Gold in New York, 116⅞@⅞
Legal tenders 85@86½.

It may be a matter of interest to the general reader to be informed that while we of the north Pacific are "hard up" for coin, the people of the Atlantic States are in possession of more than the usual amount of the "circulating medium." Late advices from New York, for instance, inform us that the banks of that city report about one hundred millions of dollars reserve, or about double the amount the law requires. The current rate of interest here is twelve per cent. per annum, and little or no money to be obtained at current rates or any other, while in New York two and three per cent. per annum obtains. That is, if you have good "collaterals," such as U. S. bonds or first class railway or other securities, you can get money on the above low rates. Perhaps from seven to ten per cent., for the general borrower, would be nearer the mark; but no matter what the figures, the money is in the banks and can be obtained, and that is the main feature. There is more money than can find employment, therefore the low rates.

The recent sudden advance in the price of wheat in Liverpool, induced immense shipments of the cereal to that point, and for some time past, from almost every quarter of the globe, wheat has been pouring in, inducing a great decline in prices.

It is believed that as soon as this rush is over and the wheat thus received placed, a demand based upon a crop in Europe much below average, will again bring prices up and our farmers may still hope to receive $1 per bushel for their wheat. But the prices paid for wheat here will depend in a large measure upon the amount and character of the tonnage seeking cargoes here. It is asserted that for the present at least there is a scarcity of vessels, even at San Francisco, suitable for the trade, and unless shipping of the right kind can be secured, wheat dealers will not purchase very freely even at low figures. Our hope for obtaining $1 per bushel for wheat here, then, lies in there being sufficient tonnage offered to carry it to Europe.

At Portland $1 65 per cental seems to be the outside figure offering for shipping, and only those who are absolutely forced to obtain money are selling at that figure.

The latest quotations from San Francisco give $2 per cental for choice wheat. Oats, $1 60@1 90.

Wheat is nominally 75c per bushel in this market, but there is no coin to buy with at any price.

Our warehouses are pretty well filled with grain, now, with a prospect that more room will be asked for than can be supplied.

The general markets are fairly supplied with produce at fair rates. We quote fresh roll butter at 30c per pound; Eggs, 25c per dozen.

Special Notices.

I employ none but the best of mechanics, and insure satisfaction. All work warranted. I think I can make it an object for you to buy of me, in price, style and durability of work. I use the best of material, hickory and oak, from the Eastern States. Call and examine for yourselves; all I want is a fair trial. I have had several years of experience on this coast, and with the knowledge thus gained, am certain I can please you. I guarantee to sell for cash as low as can be bought in this city. A large lot of lumber wagons, side and end spring carriages and hacks on hand. Patronize home manufactory—do not send your money off out of the country. Act the part of wise men, and build up your own State, and you will prosper. 23tf

TOO GOOD TO BE LOST.

An "old print," Ed. L. Coldwell, of Salem, was united to Miss Fannie Barker, of that city, on Tuesday, whereupon the prints assembled and passed the following

RESOLUTIONS OF CONDOLENCE:

At a special meeting of Long Primer Chapel, No. 1, Deciples of Faust, held last evening at their Chapel Rooms, the Grand Bryer announced the taking off of the Grand Geological Lecturer, Edward Lothrop Coldwell, to new fields and pastures green.

Whereupon the Grand Italic Shooting Stick, Grand Roman Lye Brush and Grand Clarendon Imposing stone were appointed a committee to draft resolutions expressive of the sense of this Chapel. The committee reported the following:

WHEREAS, There is supposed to be a positive and negative to all things terrestrial, and we are positive that our Grand Geological Lecturer, Edward Lothrop Coldwell, has now passed beyond the jurisdiction of this Chapel to scenes of matrimonial felicity, and

WHEREAS, The said Grand Geological Lecturer will not likely meet around our composition kettle with us any more, to explain to our uncomprehensive minds the details of Posology, Polyparous, Geophagism, Gervillia and kindred subjects, he was want to enlighten our minds upon; therefore, be it

Resolved, That we bow in humble contrition to matters over which we have no control, and hope our worthy desciple will have the true Schoharie grit in his new field; that Saliferous beds of the Upper Siurean Era will be more pleasant to him than Calciferous Sandrock of the Age of Mollusks.

Resolved, That whether he walks in the paths of Piocene, Miocene or Eocene of Cenozoic Time, or Oolite, Lias or Trias of the Mesozoic Time, we hope that no subcarboniferous, Oneida Conglomerate or Utica Shale of the Paleozoic Time will encompass his way.

Resolved, That the Hell-box be upset and that this Chapel be draped in old composition for nine months

HE HAD BEEN THERE BEFORE.—It is a custom of some lawyers who practise in the Police Court to badger witnesses who are opposed to them, and to ask them if they have ever been in Court before, with a view of casting a slur on them in case they should answer that they had appeared in the character of defendants.

"Sir," asked an attorney yesterday of a witness who was testifying in a case of assault and battery, "have you ever been in this Court before?"

"Yes, sir," replied the witness, "I have been here often."

"Ah, been here often, have you?" said the attorney in a triumphant tone. "Now, tell the Court what for."

"Well," replied the witness, slowly, "I have been here at least a dozen times to see you to try and collect that tailor's bill you owe."

A smile was noticed on the faces of all persons in the Court-room, except that of the attorney who had asked the question. The cross-examination was brought to a close with this answer.

The Navajos have a legend as to the procuring of fire. They tell how, when they first gained the earth, they were without fire, and how the Coyote, the Bat and the Squirrel agreed to procure it for them. The object of their desire seems to have been in the possession of the animals in general, in some distant locality. The Coyote, having attached pine splinters to his tail, ran quickly through the fire and fled with his lighted prize. Being keenly pursued, however, by the other animals, he soon tired; upon which the Bat relieved him, and dodging and flitting here and there, carried the splinters still farther. Then the Squirrel came to the assistance of the Bat, and succeeding him in his office, contrived to reach the hearths of the Navajos with the coveted embers.—*Bancroft Native Races.*

ATTENTION.

PARKER & MORRIS'
New Elevator!

IS NOW READY FOR THE RECEPTION of wheat and oats. We call the attention of farmers to the fact that we have erected the finest warehouse in the State, at a large expense, and are in position to handle satisfactorily an immense quantity of grain. Our house has a capacity for

200,000 bushels of Wheat!

at one time, and is located on the margin of the Willamette River, and provided with a side track from the O. & C. R. R., so that shipments may be made daily by rail, and as often by water as boating facilities offer. We have two large suction fans, in addition to other fans, attached to the house, run by water power, and are thus prepared to

CLEAN

all the wheat received. Can take in and clean 10,000 bushels per day. Cleaned wheat is worth much more in all foreign markets than foul wheat, and none should be shipped without cleaning. Our charges will be five cents a bushel on wheat, and four cents on oats. We have

SIXTY THOUSAND SACKS

to furnish those storing wheat with us, free to those whose wheat we purchase, and at the lowest cash price to those who sell their wheat from our house to other buyers. Persons storing with us are at liberty to sell to whom they please. Those who reside on the west side of the river will have ferriage free. Will be in the market as buyers, and expect to be able to pay the highest possible price. Having prepared ourselves to do a large business, we hope for our share of the public patronage.
