Mentucky Horse Talk.

A correspondent of an Eastern paper

A correspondent of an Eastern paper writes: The moment you enter the Blue Grass region you hear nothing but horse-talk. The whole section lives upon pedigrees. The stable boys banter pedigrees in a nomenclature of their own. The men ut-ter pedigrees with a volubility like the flowing of an never-ending stream. Even the ladies of polite society wil chatter pedi-grees, and talk as finently of sire and dam as if they had received their accomplish-ments in the precincts of the breeding portions of the stock farms. Everywhere it is horse, mare, filly, foal, gelding. The stables are swarming with them, the streets are alive with them, the fields are dotted with them fike the cattle on a thousand stables are swarming with them, the streets are alive with them, the fields are dotted with them like the cattle on a thousand hills, and the visitor, even though he came merely to see, has a secretiveness and ob-stinacy more profound than the mysteries of a sphinx if he does not buy before he comes away some little equine specimen for which he has no earthly use. There is a certain Freemasonry or brotherly love among the horse dealers of Kentucky. If one breeder has nothing in the horse line to answer your demands, he will furnish you with a saddle horse and accompany you for miles around the neighborhood to inspect stock which he is sure will just suit your fancy. Their houses are thrown open to your entertainment. The rarest whe of corn and the freshest of mint, and the richest of Alderney crean, and the tenderest of spring chickens are offered, with a princely generosity, to feed the fiame of your horse fever, which must not be allayed till you have left your money behind you on some of the stock farms. This is the logie of all the attentions and pedigrees and horse enthusiasm, and it is wonderful how the interest is kept up year after year, and how the surplus funds of our wealthy horse funciers are pourcd, with a princely schemes into the actions our wealthy horse fanciers are poured, with an increasing volume, into the coffers of the Blue Grass regions.

Ab, yes; I have come such a long way, and am so fatigued, so weary ! a long way, and am so latigned, so weary i I went to the people's doors, but no one said anything, only, 'Go away! We have no room for strangers. Go to the ho-tel, why do you not?' I went to the hotel, but the landlord was worse than all the rest. Oh, how he frightened me, he was so flerce, so loud! He called me a tramp, escape a thief, because he found I had no money. No money; yes, that was it; and he bade me go about my business; but I have no business, and so I came out in the woods to die alone."

"Cheer up, then if that is all," said John, "and come with me. My mother will not drive you from her door, you may be sure. And John spoke truly, for his mother's

"Alas, I have no mother !" said the "Alas, I have no mother !" said the girl, and her tears began to flow afresh. "I will tell you my stary." "There, there, I'm sorry I said it, I'm such a blunderer! Never mind the story now, but after supper, when you are warm and comfortable, you shall tell us all about yourself, that is, all that you wish to tell." So, when the three had eaten their even-ing meal, and Mrs. Mallory had cleared the table and taken out her knitting-work, the young girl told her story. She said her name was Estelle LeRoy; that her father was a French refugee, but that her father was a French refugee. but that she herself was born in Canada. Some years after he had left France, he had maryears after he had left France, he had mar-ried a Canadian. After the death of her mother her father came to Boston, hoping to support himself and her by teaching his own language; but just as he found a situa-tion which promised to be permanent he became very ill; in fact, the elimate of this country had never agreed with him and he was always mourning for France. He was sick a long time, and when he died, left her neumiless

Of her relatives in France she knew noth-ing; and although since her father's death she had written more than once to her mother's friends in Canada, no letters had ever been received in return. She believed she could find them, however, if she could get there, and that was her aim now. What she suffered since she left Boston, she said she could never, never tell.

she said she could never, never tell. "It's all over now, my dear," said Mrs. Mallory, "so try to forget it, and just try to make yourself contented with us till you are better able to travel than you are now." John had a kind heart, and was easily moved at the sight of distress; so he stop-ped and addressed the woman. "You seem to be in trouble,"—that was what he said. The mourner lifted her face, and he saw that she was a young woman, scarcely more than a girl, in fact. But this did not lessen his pity at all; possibly it increased it, for his heart was humane as well as kind.

"So you, too, have forgotten me, as well as the big landlord up there; but maybe you remember that," and she held out to you remember that," and she held out to him a queer little purse of netted silk. John Mallory fixed his startled gaze up-on her face, and something in the lustrous eyes, the smiling month, touched a long-silent chord of memory. She saw it, and, answering his look, said: "Yes, I am Estelle LeRoy, and the same Providence which sent you to me in my despair has sent me to you in your time of sorrow. No thanks, John Mallory. I

do no more than requite your kindness to me, and hardly that, so keep the deed, I pray you. But the little purse—with that will never part." She then told him that within two or

BRAIN FOOD.-Much has been written, in late years, about the strengthening in-fluence of fish, as an article of diet, upou fluence of fish, as an article of diet, upou the human brain. Instigated by the plausi-ble theories on the subject, many persons commenced eating fish regularly and have kept up the practice for a long time with-out having experienced the desired increase of intellectual capacity. And now comes the New Orleans Republican with this dis-couraging suggestion: "Unless a man has brains, it is useless for him to eat brain food. It has never been claimed for fish has brains, it is useless for him to eat brain food. It has never been claimed for fish that it creates; it only strengthens the brain."
