J. B. Irvine.....Scio.
Thos. H. Reynolds.....Salem.
W. Waterhouse.....Monmouth.

FRIDAY.....NOVEMBER 5, 1875.

ANOTHER HYACINTH.

Since Saturday last the air has been thick with the rumor that Father Leuken, pastor of the German Catholic Church of this city, tiring of a life of celibacy, had put aside his church vows fled the city and taken a wife in the person of Miss Mary Laugemann. The members of the congregation were very reticent about the matter, and in consequence there has been a difficulty at getting at the facts of the case, while all sorts of stories have been in circulation in regard to the affair, some of them without the last shadow of foundation, and calculated to place the reverend father in even a worse light before the community than the facts justify. About two years ago Mr. Leuken, with the consent, no doubt, of his congregation and proper ecclesiastical superiors, went to Europe and was absent for some months. It was rumored at the time that this young woman, the daughter of his housekeeper, whose name appears above, went with him. The affair created considerable remark in a quiet way at the time, but whether or not it was made a matter of investigation by the church authorities is not known. After a time he returned and resumed his duties as pastor of the congregation of SS. Peter and Paul, and the scandal quieted down in a measure, though it was not forgotten, and occasional reference to it would be made. It is said now that the parties have been criminally intimate for some time, but this statement has not appeared to the public until the outbreak of the affair. It appears to be certain that two weeks ago Father Leuken visited Bishop Baltes at Alton, and asked to be released from duty in that diocese. This request was not granted, and it would seem that upon this refusal was based Mr. Leuken's determination to elope. The clothing and other personal effects of himself and Miss Laugemann were shipped away from here so as to elude suspicion, and on Thursday they both left, and are now husband and wife. They were married he says one day last week in Cincinnati, by a justice of the peace. A report that he took with him a portion of the church fund is stated by the best authority to be incorrect. He had some money of his own, and Miss Laugemann was worth not less than $4,000. There are plenty of people here to-day who "knew it all the time," but Mr. Leuken has always been highly respected here, and his renunciation of his church vows is a matter of surprise and grief.—Springfield, Ill., correspondent of Chicago Times.

The most complete success has been attained in New York in the equilization of State taxes. This is the way it has been worked out: The majority of the State assessors, whose office it is to make the equalization, represent the rural districts, and they have equalized by adding $541,000,000 to the assessed valuation of New York City, and $41,000,000 to that of Brooklyn, while they have reduced the valuation of the remainder of the State $262,000,000. The result is that in New York City, the State tax amounts to $8 per capita for the entire population, and the city is charged with more than half the State levy, though it contains less than one-fourth the population of the State, in the rest of which (except Brooklyn and King's county) the tax amounts to but $2 50 per capita. This, with the enormous city taxes added, makes their lot more than ever that of the worst tax robbed city on the continent.

Among the Alabama claims lately presented to the commission, is one for "inferential" damages, on account of the profits that were *not* realized because the ventures which were to produce them could not be gone into while the *Alabama* was cruising around in search of good things.

Charles Bradlaugh is lecturing on "Five dead men I have known." We have seen no statement of who the five dead men are, but the Chicago *Tribune* says they are Gov. Allen, Gov. Hendricks, Pig-iron Kelly, Sam Cary and Ben. Butler.

The Supreme Court of Michigan has just rendered a decision affirming the constitutionality of the law passed by the legislature of that State levying a special tax on the sale of spirituous liquors.

HELENA, Mt., Oct. 30.—Stears, colored, one of the murderers of an old Frenchman, last Spring, was hanged here at noon last Thursday. He made no confession.

TERRIBLE TO THINK OF.

Professor P. H. Trauser, M. D., of New Orleans, makes an awful prophecy as to the end of all things terrestrial. After advancing several new theories as to the connection between the earth and sun, he goes on to tell how this world of ours will be wrecked by disastrous phenomena as follows:

The Mosaic deluge took its rise in the northwest: the next southern deluge will proceed from the southwest, in about 6,900 years, when the sun, after retrograding through the meridinal signs, shall stand in 26 degrees of Virgo. The increasing proximity of tre sun to the Autumnal equinox, will smite with death all the living beings under the torrid and temperate zones; it will dry up the water courses, will empty the largest rivers, and by its incessant approach, will menace our latitudes with a general conflagration. The waters it will be that will save the world. The ocean will be evaporated in mass in an atmosphere that will extend itself, from day to day, in greater altitudes by virtue of its expansion by heat. This evaporation will not be accomplished by an instantaneous act, but with a regular order of progression from which Nature never departs. These vapors, which will be heaped up in clouds, will be able to intercept the burning action of the solar rays. The rain, which is always ready to ponr down from the extreme limits of the atmosphere, being continually evaporated afresh, will reascend to the upper most zones, before reaching the lower ones, which the radiation of a blazing soil will render peculiarly apt to generate vapor. When the continual retrogression of the sun will withdraw it from the earth, these ponderous collections of water, transformed into clouds will lose a considerable portion of their heat. The lowering of temperature will commence in the upper regions of the atmosphere. The waters that will be the highest up, in descending toward the earth, and passing through the inferior regions, will cool them, and the condensation will become general. The ocean will precipitate itself in its immensity under the form of rain. It will be a torrent-like descent, accompanied by tempests of unparalleled solemnity. Terrific winds whirling around the earth conflagrations of lightning, in a state of permanence, tearing in its whole extent a maddened atmosphere. On the surface of the planet, volcanic eruptions and explosions of internal convulsions and earthquakes agitating the crust of the globe, already tossed by the billows of an appalling flood. Murderous phenomena of a tempest matchless in terror! Men will have no words to describe the boundless and universal sweep of its awful ravages.

Telegraphic.

CINCINNATI, Ohio, Oct. 29.—An Athens, O., special says: One Kennedy, colored, with wife and infant, left three small children alone and started to town this evening. The house was burned and the children burned to death—supposed to have been caused by the overturning of a lamp.

ROLLA, Mo., Oct. 19.—A hail storm of unprecedented violence passed over here to-day. The hail was about the size of pigeon eggs and did immense damage. Almost every pane of glass on the west side of the house was broken.

PORTLAND, Me., Oct. 29—This afternoon, as a man named Small, rode in a wagon on Commercial street, near the railroad wharf, he saw two children playing on the track and the train backing on them. He sprang from the wagon to rescue them, and succeeded in doing so, but was himself run over by the train and killed.

ST. LOUIS, Oct. 29.—The *Republican's* Kansas City special says news of a startling nature was received to-day in regard to the fight on Tuesday between U. S. troops near Fort Hayes and a wandering band of Cheyennes. The Indians drove back the troops and killed two. Fresh troops were sent from the Fort, and dispatches received at the office of the Kansas Pacific Railway to-night says the fresh troops were attacked by the Indians, while camped near Smokey Hill river on Tuesday, and the Indians were again successful, and made the soldiers retreat with the loss of one man killed and one severely wounded. General Carr's command had left Fort Hayes by special train for the seat of war.

WASHINGTON, Oct. 30.—Commissioner Smith, of the Indian bureau, says the Indians reported as defeating our troops near Fort Hayes, are a band of between 25 and 100 Cheyenne Indians who nearly a year ago were declared outlaws both by the bureau agents and the military. They surrendered to the military last spring and were placed upon the Cheyenne agency, but ran off and regaining a quantity of fire arms which they had secreted before surrendering, fought the troops from behind sandbanks all day; and made good their escape at night. They have proved themselves to be hard fighters. The commissioner considers it of great importance that they should now be thoroughly whipped and subjugated.

ST. JOSEPH, Mo., Oct. 29.—Between 6 and 7 o'clock seven prisoners escaped from the jail by sawing off the iron bars of a window. The prisoners were Frank Brown, murderer, and sentenced to be hanged; John B. Patten, Oscar Kirk, Charles Reyhont and Thomas Hannon, under sentence for grand larceny; Alex Broughton and Wm. Early, under sentence for horse stealing. $500 is offered for the capture of Brown.

MEMPHIS, TENN, Oct. 30.—Gen. Patterson, collector of internal revenue, seized last evening about 30,000 cigars in the hands of various dealers, because the maker's name was pressed into the boxes instead of being burned in with a brand as required by law.

WINTHROP, Me., Oct. 30.—On the 2d of last July the safe of the National Savings Bank, in this city, was robbed by burglars of $90,000, mostly government railroad and municipal bonds. The bank officers effected a restitution of $50,000 bonds, for which they paid the reward advertised, $10,000.

NEW YORK, Oct. 30.—A telegram from Maderia to-day states that part of the crew of the American ship *John Pascal*, Capt. Toply, which sailed from Calcutta July 14th for New York, had landed at Ascension. They report that the ship took fire at sea and was totally destroyed, and that the crew were saved by taking to the boats. Eight of the crew are on board the steamer *African* and the Maderia authorities have telegraphed to arrest them on their arrival in England, their testimony being unsatisfactory.

LONDON, Nov. 1—News received of the British expedition to punish the pirate vessel on the Congo river, for the murder or English sailors, states that the entire squadon on the west coast of Africa was engaged and sent boats up the river. Many villages were destoyed, and a large number of natives killed. The British lost one killed and six wounded.

NEW YORK, Oct 30.—The Board of Education of Union Hill, New Jersey, voted last night to prohibit the reading of the Bible in the public schools. Some citizens openly threatened there would be blood shed before the Bible should be removed.

WILKESBARRE, Oct. 30—In the great ejectment suit of Calhoun M. Deringer vs Cox et al. for coal lands, valued at $4,000,000, a verdict was rendered to day for Deringer.

NEW YORK, Oct. 30—John E. Hall, arrested for alleged complicity in forgeries of credit on the Bank of British North America, was discharged to-day on the ground that the prosecution had failed to produce any direct evidence.

CINCINNATI, Oct. 30—The *Times'* Indianapolis special says: As the freight train on the Pan Handle Railway was approaching the bridge near Cambridge, Indiana, last night, during the terrific storm, the engineer saw the bridge totter and fall. He reversed his engine, jumped off and saved his life. The engine and four cars went through, carrying the fireman and head brakeman, killing both.

SYRACUSE, Oct, 31—A severe snow storm prevailed here the entire day. Five inches of snow fell.

BOSTON, Oct. 31—Snow fell throughout New England to-day.

Contracts for carrying the mails from January 1st, 1875, to June 30th, 1879, under the advertisement of September 1st have been awarded by the post-office department as follows:

California—From Redding to Lake City, Jas. H. Warren, of Albany, Wis., at $770 per annum.

KANSAS, Mo., Oct. 30.—Extensive and destructive prairie fires are raging in Southern Kansas along the line of the Fort Scott railroad. At one place in Cherokee county the ties on three miles of track were burned. The fire caught from a locomotive and at last accounts had swept over miles of country destroyed houses, fence and crops.

LONDON, Oct, 30.—The Leeds *Mercury* of to-day says the large iron producers, J. Bolckow, Vaughan & Co., employing in these collieries, mines and works nearly ten thousand men, have notified their employers at Middlesborough. Witton Park, and eston works in Yorkshire, that owing to the depression of trade their engagements must terminate on the 30th of November.

CAIRO, Oct, 30.—The Egyptians army has entered Abyssinia, the enemy offering no resistance.

Oregon—Eagle creek to Highland, O. Price, $241. Washington Territory—Seabeck to Port Gamble. Wm. Warin, $489. No proposal is accepted for service on any other Pacific Coast route advertised, all the bids received for them being considered too high.

WASHINGTON, Oct 31—The assistant treasurer of New York has been instructed by the secretary of the treasury to sell $2,000,000 gold coin during November, as follows: $500,000 each Thursday.

LONDON, Nov. 1.—The *Mark Lane Express* in its review of the corn trade for the week, says the weather has been more moderate and but little chance for field labor in England. Yet samples are in good condition but the cautiousness of millers kept prices at previous rate. At Paris flour was a franc cheaper while wheat was unchanged. In the provincer, wheat is 9 pence to a shilling higher. In Belgium, Holland Germany and Vienna, prices were firm and in the latter the market was rather dearer. At Odessa there has been scarcely any business, because of the pretensions of holders.

PARIS, Oct. 31.—The ironclad *Magenta*, flagship of the vice admiral commanding the French squadron of Toulon, caught fire yesterday and exploded. All on board were saved.

LONDON, Oct 31.—Private telegrams from Montevideo, dated the 28th, say the restoration of peace in Urguany is confidently expected, the revolution having practically ended in favor of the government.

LONDON, Oct 31.—Arrived at Queens town—Bark *Clifton* from Astoria Oregon.

NEW YORK. Nov. 1.—A letter from Russia states that the government is engaged in a vigorous raid amongst socialist agitators. Arrests have been made at numerous places—among others Moscow, Fulla Odessa, Riazan and St. Petersburg. In one village near Moscow thirty working men were seized by the policee. Some of the prisoners resisted the arrest and one M Rogatcheff, believed to be the leader of the movement, defended so desperately that he had to be killed. The policee are reported under impression that they have struck a blow at the stronghold and center of the movement which will put an effectual stop to its further spread.

CENTENNIAL.
1876. 1876.

Proclamation.

Chicago & North-Western Railway.

THE POPULAR ROUTE OVERLAND.

Passengers for Chicago, Niagara Falls, Pittsburg, Philadelphia, Montreal, Quebec, New York Boston, or any point East, should buy their

Tickets for sale at all the Ticket Offices of the Central Pacific Railroad. W. H. STENNETT, MARVIN HUGHITT, Gen. Sup. Gen. Pas. Agt. H. P. STANWOOD, General Agency, 121 Montgomery street, San Francisco. v7n47y

Just Issued. 200th Edition.

MANHOOD,

Revised and corrected by the author, E. de F. Curtis, M. D., &c., &c.

A Medical Essay on the cause and cure of premature decline in man, showing how health is lost, and regained. It gives a clear synopsis of the impediments to marriage, the treatment of nervous and physical debility, exhausted vitality, and all other diseases appertaining thereto; the results of twenty years successful practice.

Opinions of the Press.

CURTIS ON "MANHOOD."—There is no member of society by whom this book will not be found useful, whether he be parent, preceptor or clergyman.—*London Times.*

CURTIS ON "MANHOOD."—This book should be read by the young for instruction, and by the afflicted for relief; it will injure no one.—*Medical Times and Gazette.*

Price One Dollar, by mail or express. Address the author, DR. CURTIS, 52 Sutter street, or P. O. Box 457, San Francisco, Cal. 48v7m3

ATTENTION.

PARKER & MORRIS'

New Elevator!

IS NOW READY FOR THE RECEPTION of wheat and oats. We call the attention of farmers to the fact that we have erected the finest warehouse in the State at a large expense, and are in position to handle satisfactorily an immense quantity of grain. Our house has a capacity for

200,000 bushels of Wheat!

at one time, and is located on the margin of the Willamette River, and provided with a side track from the O. & C. R. R., so that shipments may be made daily by rail and as often by water as boating facilities offer. We have two large suction fans, in addition to other fans, attached to the house, run by water power, and are thus prepared to

CLEAN

all the wheat received. Can take in and clean 10,000 bushels per day. Cleaned wheat is worth much more in all foreign markets than foul wheat, and none should be shipped without cleaning. Our charges will be five cents a bushel on wheat, and four cents on oats. We have

SIXTY THOUSAND SACKS

to furnish those storing wheat with us, free to those whose wheat we purchase, and at the lowest cash price to those who sell their wheat from our house to other buyers. Persons storing with us are at liberty to sell to whom they please. Those who reside on the west side of the river will have farriage free. Will be in the market as buyers, and expect to be able to pay the highest possible price. Having prepared ourselves to do a large business, we hope for our share of the public patronage.

Also, an essay upon advertising; many tables of rates, showing the cost of advertising in various newspapers, and everything which a beginner in advertising would like to know.
Address GEO. P. ROWELL & CO.,
41 Park Row, New York.

TASTELESS MEDICINES.

A prominent New York physician lately committed to DUNDAS DICK & CO. about their SANDALWOOD CAPSULES, stating that they sometimes cured miraculously, but that a patient of his had taken them without effect. On being informed that several imitations were sold, he inquired and found his patient *had not been taking* DUNDAS DICK & CO'S.

What happened to this physician may have happened to others, and DUNDAS DICK & CO. take this method of protecting physicians, druggists and themselves, and preventing OIL OF SANDALWOOD from coming into disrepute.

PHYSICIANS who once prescribe the Capsules will continue to do so, for they contain the pure Oil in the best and cheapest form.

DUNDAS DICK & CO. use more OIL OF SANDALWOOD than all the wholesale and Retail Druggists and Perfumers in the United States combined, and this is the reason why the **pure Oil** is sold cheaper in their Capsules than in any other form.

OIL OF SANDALWOOD is fast superseding every other remedy, sixty capsules only being required to insure a safe and certain cure in six or eight days. From no other medicine can this result be had.

DUNDAS DICK & CO'S SOFT CAPSULES solve the problem, long considered by eminent physicians, of how to avoid the nausea and disgust experienced in swallowing, which are well known to detract from, if not destroy, the good effects of many valuable remedies.

Soft Capsules are put up in tin-foil and neat boxes, thirty in each, and are the only Capsules prescribed by physicians.

Tasteless Medicines.—Castor Oil and many of her nauseous medicines can be taken easily and safely in **Dundas Dick & Co's Soft Capsules. No taste. No smell.**

☞ These were the only Capsules admitted to the last Paris Exposition.

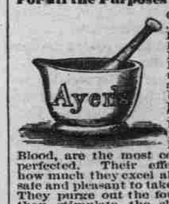
VIRGIL PARKER.

Ayer's Cathartic Pills,
For all the Purposes of a Family Physic,



CURING Costiveness, Jaundice, Dyspepsia Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Many skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

Dr. J. C. AYER & Co., Lowell, Mass.,
Practical and Analytical Chemists.
☞ Sold by all Druggists and Dealers in Medicine. v7n8

Ayer's Ague Cure.

℞ For the Speedy Relief of Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons, has been widely used, during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills, once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy, and a trusted specific for the Fever and Ague of the West, and the Chills and Fever of the South.

Ayer's Ague Cure eradicates the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no Liver Complaints, Rheumatism, Neuralgia, Dyspepsia or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual cure, but, if taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travellers and temporary residents in every land all Ague localities are thus enabled to defy the disease. The General Debility which is so apt to ensue from continued exposure to Malaria and Miasm, has no speedier remedy. For **Liver Complaints**, it is an excellent remedy.
