

ALBANY, FRIDAY, DEC. 10, 1875.

PREMIDENTS MESSA'E.

To the Senate and House of Representatives: In submitting my seventh annual message to Congress, in this centennial year of our national independence...

A CENTURY'S GROWTH.

We were then a people numbering only three millions; now we number more than forty millions. Then our industries were confined almost exclusively to the tillage of the soil; now manufactures form so much of the labor of the country...

INCREASE OF MANUFACTURES.

In 1775 manufactures scarcely existed even in name, in all this vast territory. In 1870 more than 2,000,000 persons were employed in manufactures, producing more than \$2,100,000,000 of produce...

QUESTIONS WITH SPAIN.

In March last an arrangement was made through Mr. Cushing, our Minister in Madrid, with the Spanish Government for the payment by the latter of the claims of the sum of \$800,000 in coin for the purpose of the relief of the families or persons of the ship's crew and certain passengers...

OUR MERCHANTS.

In the last hundred years have had success, and have established a reputation for enterprise, sagacity, progress and integrity, unimpaired by the people of older nationalities.

GENERAL RETROSPECT.

As we are now about to enter upon our second centennial, commencing our march as a nation, it is well to look back upon the past, and study what will be best to preserve, and also to improve, our future.

EDUCATION AND INTELLIGENCE.

Enough to cast a vote with a right understanding of its meaning. A large association of ignorant men cannot, for any considerable period, oppose a successful resistance to a tyrannical government...

TAXATION OF RELIGIOUS CORPORATIONS.

I would also call your attention to the importance of correcting an evil that is likely to continue, will probably lead to great trouble in our country...

rapidly as in the United States, there is scarcely a link to the wealth that may be acquired by corporations, religious or otherwise...

RELATIONS WITH FOREIGN POWERS.

Our relations with most of the foreign powers continue on a satisfactory and peaceful footing. The intercourse, the extension of commerce and cultivation of mutual interests have steadily improved...

WITH PORTUGAL.

I am happy to announce the passage of an act by the general Cortes of Portugal proclaimed since the adjournment of Congress for the abolition of servitude in the Portuguese colonies...

WITH CHINA.

Chill has made reparation in the case of the whale ship Good Hope, seized without authority by the crew of the Chinese steamer, though she had hitherto denied her accountability...

COLUMBIAN STATES.

The arbitration in the case of the U. S. steamer General, for the seizure and retention of which the government of the United States of Columbia were held accountable, has been decided in favor of the claimant...

THE SANDWICH ISLANDS.

A reciprocity treaty with the King of the Hawaiian Islands was concluded some months since, but as it contained a stipulation that it should be of no effect until Congress should enact the proper legislation for the purpose, copies of the instrument are herewith submitted...

THE CUBAN QUESTION.

As evidence of, and approaching some of the ruinous conflicts which have been raging for seven years in the neighboring islands of Cuba, the same disregard of the laws of civilized warfare, of the just demands of humanity, which have heretofore called forth expressions of condemnation from the nations of Christendom have continued to blacken the soil...

The Marion county Teacher's Institute has been indefinitely postponed. A cinchman bar was killed near Rosburg last week which weighed 500 lbs. In a few days the stages will run from La Grande, via Meacham's, Weston and Pendleton, to Umattila. A Roseburg butcher "lit out" very early one morning last week, and no one knows where he has gone. Ere long there will be a stage station established on the new Umattila road, twelve miles from Pendleton. The Statesman says it is reported that President Gatch, of the Willamette University, will take charge of the State University early next year. The Salem Grange of P. of H., met on Saturday afternoon in an annual session. The meeting was largely attended and good counsels prevailed. The woolen factory at Brownsview is in active operation, turning out a full line of cloths and blankets for the home market and shipping abroad. Mrs. Briggs and her son David have been lodged in the penitentiary, sent for five years each from Josephine county, for killing the school teacher Delamater.

Telegraphic. RONDIET, N. Y., Dec. 4.—Peter Eelet, quartermaster, was found near Saugerties, and had been arrested by the authorities of some person supposing him to have money which he was endeavoring to collect yesterday. BALTIMORE, Dec. 6.—Apprehension is felt here for the safety of the ship Boston, which sailed from this port on the 25th of April last for San Francisco, with a cargo consisting of 1,800 tons of canned goods and 2,000 tons of coal. It is reported on the 31st of May thirty miles south of the equator, and has not since been heard from. NEW YORK, Dec. 4.—The Rev. Justin D. Fulton resigned the charge of Hanson Place Baptist church, Brooklyn, last night. About seventy-five members of the church, including some of the most influential there, tendered their resignations. Charles Weston, one of the three negroes to be hanged on the 17th, was married to Catherine Gay, a white woman, on Thursday. The ceremony was performed in his cell, and Dolan, convicted of killing Mr. New, stood up as best man. Weston is a Catholic, Weston consented to be baptized, and was married by a priest. Jacob Stauderman received notice of respite. NEW YORK, Dec. 4.—Nancy Gamell, aged 64, was burned to death by fire, early this morning in her room on West Forty-first street. PHILADELPHIA, Dec. 4.—Mary Newton, a colored woman, aged 87, was burned to death in a fire in Lynn street to-day. CLAYLAND, Dec. 4.—About 7 o'clock this morning, William Alden, an Englishman, and expressman for Cobb, Adrew & Co., living on Scranton avenue, quarrelled with his wife, and she was killed by a bullet which he fired from a revolver. He then went to the corner of Garden street with an ax and hammer, attacked his step-daughter, cutting her in a fearful manner. Mrs. Benton, who attempted to interfere, was also chopped with the hammer. The latter is still alive, but believed to be beyond all hope of recovery. The house presents an awful appearance. The walls and ceiling are covered with blood. About 7 o'clock bloody miter are lying upon the floor, dishes broken, chairs overturned, showing a terrible struggle. Alden was arrested at Scranton avenue, while deliberately settling up his affairs, and locked up. He gives as the reason for his triple murder, that his wife, who was a widow woman when he married her, and his step-daughter, were stealing him out of house and home. When questioned why he was not satisfied to consider what the interests of their own people and their own country were, he said: "I have had hopes she would be enabled to establish peace in her colony, to restore prosperity to the country, and interests of our citizens, and allow legitimate scope to the trade and commerce and natural productions of the island. Because of this hope, and from an extreme reluctance to interfere in the affairs of another and a friendly nation, especially of one whose sympathy and friendship in the struggling infancy of our own existence, must ever be remembered with gratitude. I have patiently and anxiously awaited the progress of events. Our own civil conflict is too recent for us not to consider the difficulties which surround a government distracted by a dynastic rebellion at home at the same time that it has to cope with a separate insurrection in a distant colony; but whatever causes may have produced the situation, which so grievously affects our interests, it exists with all its attendant evils, operating directly upon this country and its people, and it is our duty to remedy them. I have proved abortive, and time has marked no improvement in the situation. The armed bands of either side occupy nearly the same territory, and the property of the difference from time to time, of more lives sacrificed, more property destroyed, and wider extents of fertile and productive fields and property constantly and voluntarily sacrificed to the incendiary's torch. In contexts of this nature, where a considerable body of people who have attempted to free themselves from the control of the despotic government, have reached such a point in occupation of territory in power, and in general organization to constitute a nation, it is our duty to recognize the government in substance as well as in name, possessed of the elements of ability, and equipped with the machinery for the administration of its laws, and prepared and able to administer justice at home as well as in its dealings with other powers, it is within the province of those who would recognize its existence as a new and independent nation. In such cases other nations simply deal with an actually existing condition of things, and recognize as one of the
