

ATTEND THE PRIMARIES.

Elsewhere will be found the call for the County Convention. The primaries are called for Saturday, April 15th, as it was thought that would accommodate everybody.

The Other Side.

Every financial ill and every development of dull times is ascribed by the leaders of the Democratic party to the Republican party; but despite this attempted display of honesty in these reiterated charges upon the Republican party, there are scores of Democrats all over the land who stout at the charges, knowing their utter falsity.

Crime Must be Punished.

Rascality in high places is being unearthed on every hand, and the heart is made sick with the general display of corruption and dishonesty that is brought to light. High officials, both Republicans and Democrats, are charged with the commission of crimes that should and will forever damn them in the eyes of all loyal and honest men.

SENATOR MITCHELL CANNED.—At a private dinner in Washington, March 4th, Senator Mitchell was presented with a gold-headed cane, the stock of which was cut from the battle-field of Balls Bluff, where Gen. E. D. Baker was killed.

Government has received and is now considering a proposition to purchase the entire billion product of the Consolidated Virginia and California mines for a year, to aid in the resumption of specie payment.

CENTENNIAL ADDRESS.

Some time ago in these columns we mentioned the fact that Congress had passed a joint resolution, recommending the people of the several States to assemble in their respective counties or towns on the approaching Centennial, and cause to be delivered a historical sketch of the county or town from its formation to the present time, copies of which to be filed in the County Clerk's office and in the Library of Congress.

WHAT MIGHT HAVE BEEN.

Representative Randolph Tucker, the member from Virginia, in his recent speech on the Centennial Bill, made the statement that in 1860 the annual taxes paid by the people of this country amounted to \$154,000,000, while in 1870 they amounted to \$730,000,000, but he forgot to mention that the chief part of the increase was caused by the operations headed by one Robert E. Lee, who lived in a "little town" of the district represented at present by him, and upon whose grave "no implication can be cast that I will not rise and repel it."

Will Probably Escape.

It seems altogether probable from recent dispatches, that the late Secretary of War, Belknap, will escape the just punishment of his crimes. There seems to be no doubt that the Secretary is guilty of the crimes laid at his door by Marsh. The sub-committee of the Committee on Expenditures in the War Department, before whom Marsh appeared and made such damaging statements against Belknap, instead of holding the witness, discharged him, and he immediately took his departure to Montreal, where he is likely to remain until Congress adjourns, notwithstanding the House passed an immunity act, which prevents his arrest or punishment for anything about which he might testify, should he return and give in his evidence before the grand jury and the U. S. Senate. The grand jury to whom the case of Secretary Belknap was referred, could find no indictment against him, because of insufficient evidence, and the Committee of the House are in exactly the same predicament. We are sorry for this mistake or oversight on the part of the sub-committee, for, if Belknap is guilty, he should be punished to the fullest extent of the law.

Raising Flesh.

Wonders will never cease. The latest wonder is reported from Bath county, Kentucky—a shower of flesh. Prof. Smith, the scientist, in his analysis of the specimens examined, says: "In my mind this matter gives every indication of being the dried spawn of the Batrachian reptiles—doubtless that of the frog. They have been transported from the ponds and swampsy grounds by currents of wind, and ultimately fall on the spot where they were found."

Senator Mitchell and Representative Lane have our thanks for courtesies to this office.

INCITEMENT.

EDITOR REGISTER:—The glorious news comes from all over the State of Oregon that Republicans are strengthening their stakes and lengthening their cords. It is an absolute fact, let Republicans come together and be united, read nothing but the loyal and truthful journals of Oregon, and come out and vote, and Oregon will be reclaimed at the coming election. The watchword of the President and the Republican party all over the Union is, be vigilant, and hunt up all rascals that would plunder the Government, and try them, and if found guilty, punish them to the extent of the law.

The Confederates in the present Congress seem determined to kill off and make Democracy odious. They let no opportunity pass to stab that organization, running the knife in up to the hilt, and then giving it a twist. Vice Tucker's tirade, Gen. Hill's speech, and Jeff. Davis' recent letter.

Joseph Sovy, defaulting State Treasurer of New Jersey, has been sentenced to three years in the penitentiary. He is over sixty years old, and has a large family. He wept bitterly on hearing the sentence.

Our City Dials have ordered that First street be scraped. Good.

Prompt Reinforcement.

When the physical energies are over-taxed or flag through weakness or disease, they need prompt reinforcement. Renewed vigor is most speedily supplied through the medicinal resources of that class, Hostetter's Stomach Bitters assuredly deserve a prominent place. Weakness, whether constitutional or arising from disease or over fatigue, cannot be better compensated for than by a resort to this prime strengthening cordial.

All along the Chehalis river, and in many places on the shores of Gray's Harbor, there are immense quantities of the very finest fir, spruce and cedar timber that can be put into a boom anywhere on the bay, for about \$3 per thousand. The bar at the mouth of the bay, can always be crossed by vessels of no more than 12 feet draft.

During eight months past the Belle Peck mine in War Eagle district, Idaho, has yielded \$70,000, and during a considerable portion of this time there were less than ten men employed. The mine has been worked under very favorable circumstances, the ledge being embedded in the earth material that was easily handled, requiring the use of but a very small quantity of powder.

The wagon road to Tillamook is in a miserable condition and has been impassable for a horse some time. The mail carrier, at last accounts, thought he would attempt the next trip on horseback.

The Reporter says: The bridge across the Yamhill river is not safe for man or beast to cross upon. The drifts which have borne against it at different times during the winter have at last torn out several pilings from the bent on the east end of the bridge, and the superstructure hangs together on its own weight just ready to go down at the least start. It cannot be repaired for some time, and there should be some means of warning supplied there before a terrible accident befalls some passenger that is not aware of the situation.
