REPUBLICAN STATE CONVENTION.

A Republican State Convention is hereby called to convene in the city of Portland, Wednesday, May 3d, 1876, at 11 o'clock A. M., to select six delegates to the Nation-al Republican Convention, candidates for judges of the supreme court in the second third and fifth judicial districts, for proseenting attorneys for the several judicial dis-tricts, three presidential electors, and a candidate for representative in congress, and for the transaction of such other business as may come before the convention.

It is recommended that primary and county conventions in the several counties be held as follows: Primary conventions on Wednesday, April 19th, and county conventions on Wednesday, April 26th, or at such other times as the county committees may appoint.

The following is the apportionment of delegates in the said convention upon the basis of the Ropublican vote for representa-tive in congress in 1875:

In making this call for a Republican State Convention, the State Central Com-mittee realize the fact that too much importance cannot be attached to preliminary operations. This being a "government of the people, by the people, for the people," the agents or officers of the government should be in accord with the people. Ac cording to the general accepted plan of selecting candidates, the first steps are ta-ken in our primary, county and State conventions. These form the ground work of political organization upon which the whole superstructure must stand or fall. If hon-est men desire honest officials, is it asking too much that they lay aside for a day all other business affairs and devote the time necessary to select proper persons to attend county and State conventions?

In view of these considerations and of the important interests at stake we carnestly appeal to all legal voters who are in sym pathy with the *principles* of the Republican party, regardless of personal likes and dis-likes to rully at the primaries, and see to it that none but true men are entrusted with

A FOOT LAMP .-- One of the most inter-esting things in the Holy Land is the fact that one meets everywhere in daily life, the things that illustrate the word of the Lord. The streets of Jerusalem are very narrow, and no one is allowed to go out at night without a light. Throw open your lattice in the evening and look ont, you will see what seems to be little stars twink-
