DEMOCRATIC RETRENCHMENT MEANS INCREASE OF TAXATION.

porary insists that Democratic rule should be continued in Linn county, because they (the Democracy) have, since they came into power, "paid the entire debt of the county, and inaugurated 'reform and retrenchment' in every branch of the county government." We are not prepared to say that Linu county is entirely out of debt; but grant the statement made by this "unknown writer," that the county is entirely free of debt, for argument's sake, why is it, we ask, that taxation is kept up to seventeen mills, when, under a Republican administration, and the county was in debt (as the same writer charges), the taxes were but thirteen or fourteen tion is Republican. ANOTHER FALSEHOOD.

Our "down town" cotemporary, a few days since, asserted that Judge Blackburn, Republican candidate for County Judge, had never cast a vote in Lirn county. This is untrue as a reference to the poll-books will show. Judge Blackburn has not only voted in this county, but he has resided here long enough to secure the respect and confidence of all who have the pleasure of his acquaintance, Republicans as well as Democrats. In fact, this feeling of confidence in his ability and honesty is so strong that large numbers of Democrats have declared their intention to vote for him next June. Our "down town" cotemporary has already acknowledged as much, and any denial now will prove unavailing. The fact is our "down town" cotemporary is in just this fix: When it stated that Judge Johns would be scratched by Demoerate, it either told what it knew to be the truth, as well as every other well informed person in the county, or, not knowing the facts, in one of its "spiritual" moments, made the assertion, hoping it was true, to "get even" on Judge Johns for fancied or real wrongs. Our "down towner" can take either horn of the dilemms he chooses, resting assured that in either case he has "put his foot in it," and the triends of Judge Johns will not forget it.

WHITE PRINCE is in good condition, and is generally known as having proven himself a No. I stock horse.

PRIDE OF PERCHE came out from France to Ohio in 1874, and made the season of '725 in Wisconsin. He isa dark dapple gray, well formed, fine style, good disposition, with a graceful, free, easy action that I have never seen equalled in any horse of his size: will weigh, in good condition, 1,860 pounds.

It has long been my ambition to be able to supply the horse breeders of Oregon with a breed of large horses and concentrated reproducing powers, emanating from purity of blood, from which could be bred when crossed upon the common mares of the country, a uniform class of horses—compact, symmetrical in form, coupled with style, action and stamina. To supply the above want, after a careful examination of the various large breeds known, I selected the Percheron family. The oldest colfs from White Prince are n weoming 4 years old, with the younger ones, show that the above fact has been acco splished, as they are all unisform in general make-up, and show the stock probably in a greater degree than the produce of any other horse in the Siste, whether bred from the full-blood, high-grade Percheron, good American or the Indian pony mares, all show the picculiarities of the Percheron race.

In offerir g the services of the above horses to the breeders of Oregon, it is not an untried matter, but a demonstrated fact of their value, as it is 23 years since their introduction into Ohio, and 19 years into Illinois, and wherever introduced they are giving the best of satisfaction. The one-fourth and one-half bloods bring more than double the price of the good common stock of the country, and the breeders of this stock are unable to supply the demand for them.

There is now, and will be for some time to come, a demand for the colts at good prices for stock purposes.

S30 the season, or four mares for \$100 in E. S. gold coin, except White Prince fillies—they will be bred by special agreement.
