Centaur Liniments.

[Letter from a Postmaster.]

"ANTIOCH, ILL., Dec. 1, 1874.
"Messrs. J. B. Rose & Co.,
"My wife has, for a long time, been a terrible sufferer from rheumatism. She has tried many physicians and many remedies. The only thing which has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale."
W. H. RING.

This is a sample of many thousands of testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published on each bottle. It contains Witch Hazel, Mentha, Arnica, Rock Oil, Carbolic, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is performing more cures of swellings, Stiff Joints, Eruptions, Rheumatism, Neuralgia, Sciatica, Croup, Bronchitis, Lockjaw, &c., than all the other Liniments, Embrocations, Extractions, Salves, Ointments and Waters now in use.
For Toothache, Earache, Weak Back, Itch and Catarrhs of the Bladder, it is admirable. It cures burns and scalds without a scar. Extracts poisons from bites and stings, and heals frost-bites and chilblains, in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

The Centaur Liniment, Yellow Wrapper.
Is adapted to the tough skin, muscles and flesh of the animal creation. Its effects upon severe cases of Swellings, Sprains, Wind Gall, Eye Heat and Pail-Eye, are little less than marvellous.
Messrs. J. B. Rose & Co., Druggists, corner of Elm and Front streets, Cincinnati, Ohio, say:
"In our neighborhood a number of tenisters are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as light as four to five dozen bottles per month to these tenisters."
We have thousands of similar testimonials. For Wounds, Cuts, Bruises, Ring-bone, Scalds, and for Scow Wounds in sheep it has no rival. Farmers, Drovers and stock-raisers, have in this Liniment a remedy which is worth a hundred times its cost.

PITCHER'S CASTORIA.

Mothers may have rest and their babies may have health, if they will use Castoria for Wind Colic, Worms, Feverishness, Sore Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphia, nor alcohol. It is as pleasant to take as honey, and will bring no gripes.
Dr. E. Dimock, of Portland, Me., says:
"I am using Castoria in my practice with the most signal benefits and happy result."
This is what every one says: Most nurses in New York City use the Castoria. It is prepared by Messrs. J. B. Rose & Co., 45 Bay street, New York, successors to Samuel Pitcher, M. D. 21vs

A Princess Peeling Potatoes.

An incident in the early life of the Grand Duchess Marie, who died the other day, is narrated in the German papers. Her parents—Czar Nicholas and the Empress Alexandra—used annually to visit the Prussian King, taking their children with them. On one occasion, while they were at Potsdam, the autumn maneuvers were going on in the neighborhood, and the whole party went out to see the soldiers. The latter were at the time preparing dinner. The two young Grand Duchesses, Marie and Olga, went up to a group of soldiers who were peeling potatoes, and admired the skill with which they performed the operation. "Can you do that, children?" asked the King. "No, they had never tried." "How? not yet tried! The sooner the

better. Not one can be a clever housewife without learning to peel potatoes.

Let us see how you can do it." The two Princesses at once knelt before the fire, receiving a couple of knives, and began their task, the King, the Czar and Empress, Prince William of Prussia (the present German Emperor) and Prince Alexander (the present Czar) all standing around. The Pomeranian, who had given up his knife, soon interrupted, "But, young ladies, you mustn't cut so deep; you cut away most of the potato, and we shall have nothing to eat. Do all Russians peel potatoes in that way?" "Right, Ahlmann," said the King—he had before spoken to the man, and never forgat a soldier's name—"teach them how to do it in the Prussian way." Ahlmann accordingly showed them how to hold the knife and exactly how much to take off; "and soon," the story goes, "the potato skins really fell more delicately from the delicate hands of the Princesses." We are not told what use was afterward made of this humble but laudable accomplishment.—London Globe.

A Milwaukee man went to a meeting in London one evening, and when the cockneys said, "ear, 'ear" he took it for a personal allusion, and got out.

"Have you seen my black-faced antelope?" inquired Mr. Leuscope, who had a collection of animals, of his friend Bottlejack. "No, I haven't. Whom did your black-faced antelope elope with?"

The whirligig of fashion may bring round the most sudden and dazzling changes, and the duties of the toilet may multiply like leaves in valambrosa, but there is nothing that will make a woman stand before a looking-glass so long as a suburban nose.

"I wish I might die," sighed a middle-aged maiden, as she hung like a limp bolster out of the third-story front window on a Sunday afternoon and espied a man whom she had once coquettishly rejected placidly propelling an \$18 baby cart.

Thirteen years ago a man was driven out of town for an offence which he did not commit. News now comes that he settled in Chicago and studied law and is now a prominent lawyer there. Thus we see how an unjust accusation may blast and ruin a man's whole career.

The "Belle Americaine."—Savior—"Well, I may hope then, dear, that at some future time I may have the happiness of making you my wife." American charmer—"Yes, I hope so, I'm sure, for I'm getting real tired of snuff fellows for breach of promise of marriage."

A Jacksonville exchange learns from F. L. The Dalles and Sandy wagon road is so nearly finished that John Divers passed over it, on the 8th inst., from Hood River to the Dalles, and returned in a two horse wagon loaded with goods, etc., weighing 1,200 pounds. This is good news to this upper country.
