LIST OF LETTERS

Remaining in the Post Office, Albany, Linn county, Oregon, June 29, 1876. Persons calling for these letters must give the date on winch Kulghton, Ellen Kulghton, Mrs A B Ed ho'd book Ogn Newton, Mariam Newton, Dord United W S Shong, Abbrow McChure, W F the date on which they were advertised. ice M Conner, Lizzle O P. H. RAYMOND, P. M.

PERSONAL .- Mr. S. S. Train, of Nebraska, a teacher as well as a member of the terday. Mr. Train and wife are both professional teachers, and are in possession of first grade certificates. They are ready to go to work wherever and whenever their services are required.

VACCINE MATTER .- Dr. Wilcox has just received a fresh supply of German vaccine virus. Those who have not been vaccunated, should call immediately and have the matter attended to, as the small pox is raging all around us. "A stitch in time saves nine."

This pleasant weather we know of nothing to prevent a healthy man enjoying perfect earthly enjoyment, unless it might be that he is compelled to do two or three hour's manual labor each day, such as "kicking a jobber" or furnishing the muscle to run a hand-press!

It is altogether superfluous for us to say to our people that the weather is magnificent in this bailiwick, and we only say it to tantalize those poor Weebfooters who are roasting alive while enjoying (?) the Philadelphia Centennial. Won't they enjoy life when they get back home, though.

All the fire and military companies, lodges, societies, and orders of the State are intended to be represented in the parade at Portland on the 4th, together with representations of all the trades and occupatoins, agricultural and mechanical imple ments, etc. It'll be a big thing, you better belleve.

DEAD .- "The "thoroughbred" barglar and road agent, Charles Eirch, alias the Oregon Kid, was killed recently on Trinity mountain by the sheriff of Eureka county, Cal. The sheriff, aided by a stage driver, ant reepted and attacked the Kid and another robber who had sacked a store at Trinity Center a day or two previous. In the fight Brewster was slightly wounded as well as the pal of Kid. who escaped.

SEVERAL KINDS OF WEDDINGS .- A sugar wedding is defined as marrying a candid man; a wooden wedding-marrying a stick: the welding-one that pans out well; silver wedding-marrying a graybeard; crystal wedding-marrying one addicted to the glass; golden wedding-when the groom is a minor and the wife a little vain; diamond wedding-when the "washings" are large. Choose your style, and

FIRE MATTERS .- A comparatively new thing for steam fire engines, is what is called a self-acting valve, so, designed that in the event of a kink in the hose, or any other occurrence causing the water pressure from the engine to run up rapidly, endangering the bursting of the hose or other damage, the valve will, being set at a certain pressure, as soon as that pressure is reached, fly open and prevent forther pressure from being attained. Another new thing is what is termed a valve nozzle. which screws on to the "blunderbuss," and ts designed to be used in shutting off the water when the pipemen desire to lead or move their bose from one locality in or about a building to another, and do not wish to have a stream playing from it at the same time. Now when it is desired to shut the water off, a man has to be sent from the pipe to notify the engineer at the engine, taking up considerable valuable time; but by using this valve. the men at the pipe shot the water off instantaneously. and the self-acting valve on the engine prevents the pressure upon the hose from becoming too great and bursting it. These valves have been in use in Sau Francisco, and give good satisfaction,

The Fire Department Drill on Monday evening was in some respects the gayest ever held in this city. Mr. Mvers' two white Percherons were attached to Lina Engine Co's, steamer, while the dapple gray, Pride of Perche, was hitched to the hose-cart. Mechanics' brass band led the procession. The firemen generally turned out in their bright red uniforms, altogether furnishing a picture seldom seen on "these coasts." We had no idea there were so many people in this city as lined the side walks and streets Monday evening-and ato children, Albany can turn out more children all about the same size or more so, than any city in the world, of similar size.

EUGERA!-A. E Porter and others, who went up the Calipoola some days ago in search of timber, have returned, and report finding plenty of magnificent fir and cedar timber on the headwaters of the Calipooia. The parties camdown the Calipoola in a skiff, lannches probably fifty miles above Brownsville. and they think it practicable to float log down from that point to this city, aftecleaning the river of drifts and snags, a they report, not a very difficult or expensive undertaking.

A MAGNIFICENT SHEET .- We have, received a copy of the San Francisco Centennial Spirit of the Time, an illustrated forty-page journal, printed on tinted paper, eight columns to the page, or three hundred and twenty columns. It is filled with matter descriptive of San Francisco. California, Nevada, the mining interests of the Pacific coast, with illustrations of scenery, manufactories, public buildings. hotels, scenery along the Pacific railway; portraits of the State officials; the railroad magnates; military officers; members of Congress, etc., etc., making a paper of vast

We are informed of a hen that has won some notoriety by laving an egg which closely resembles a pair. Now let some other fearless fowl lay a pair closely resembling an egg in shape, and she wil be a pair ahead.

SMALL Pox .- This dread disease is raging in San Francisco in its most virulent type. It is reported that the disease has also made its appearance in Portland, and that scarlet fever has also been clain .ing its victims there.

TEMPERANCE .- A largely attended temperance meeting was held at the Willamette Church on Tuesday. Rev Dr. Irvine, of this city, W. B. Carter, Esq., Dr. Boswell, of Corvallis, and others, made excellent addresses.

On Monday evening No. One's reconsidered the vote by which they were to go on the cars to the Centennial at Portland, and voted to go with Two's, by steamboat. Both companies will prebably go on the Chief.

Blain, Sox & Co. are getting their mamnoth warehouse in realizess to store grain, wool, etc. They also sell lumber, ugricultural machines, etc. A better lot. if boys don't run any warehouse than these composing this firm.

Have you ever had the junsping toothache? It not, you don't know what pure, unadulterated enjoyment is! Look at us-we've been enjoying "achers" in both upper and lower jaws, until we don't feel at home withont a swelled jaw.

Mrs. W. D. Belding, dangerously ill for -ome days past, yesterday was thought to be out of danger and slowly recovering. She has suffered immensely, and the wonler is how she has ever lived through it all.

The City of Salem and Willamette Chief. with their loads of happy freight, will ravel together from the locks on the 3d. passing down the entire city front, Portand, with music playing and banners flying.

Next week will witness an exodus of people from this city, some to Portland, ome to the coast and others to the mountains. For the next few weeks our city promises to be dull, duller, dullest.

As the water recedes at Portland, we understand a large force of men will be out on the streets, and they will be cleaned and put in proper condition for the Centennial.

Havn't you noticed that clean cuffs are tearfully prone to crawl up the arm to the elbow, while solled cuffs will just as surely and/exasperatingly remain in the vicinity of the knuckles? Unaccountable, aint it?

Rev. J. Bowerson will preach at the Gringle schoolhouse, across the river, tomorrow at 4 P. M. and Sunday at 11 A. M., und at the Linville schoolhouse, near Rainwater's, at 3:30 P. M., Sunday.

TO THE LAPIES OF ALBANY AND VICES L ity: Mrs. Unhum and Mrs. Grubb hav

opened a dressmaking scott, one door west o Pox's store, and are now 'ncreated' to do ar and all kinds of ladies' work with neathers an dispatch. Mrs. Unbain is a thorough and accomplishe dressmaker, having been in the business mor-than twenty years. Well, all we have to expli-try us and be convinced. Thankful for pair fa vors, we ask a continuance of the same

then go for it.

AKE WE NOT RIGHT?-Our farmers are getting ready for the biggest harvest 'yet secured in Linn county, by purchasing the latest and the best labor-saving machines. And this reminds as that thousands and thousands of dollars go out of the county. ever to return, each recurring harvest, for implements and machinery that might just as well be manufactured here, and the noney retained among us. With this money thus kept in circulation here, Liun county need never know what hard times or scarcity of money means. If our peode would only extend a full and hearty upport to home industries, there would lways be pienty of coin in circulationwhen any man of industry and probity could get it. Think of the matter, and tell is if we are not right.

Base ball is an old Hebrew game as is learly prove by reference to the writings of Solomon, who speaks of the pitcher sing broken at the fountain. It wouldeem from this that the old Jewish boys were much like players in Oregon, the only maccountable thing to us being, what in ginger they were doing at the fountain, inless the lagerbeer shebangs were all slosed for infringment of the revenue laws.

THE FOURTH AT PORTLAND .- As a large number of our people can not go to Portland on the 4th, they will celebrate at Hackleman's grove. Filling lunch baskets, they will start for that cool retreat in the cocl of the morning, remaining there during the day, passing the time as may prove most agreeable. Croquet, swings. etc., will be on band, and everybody, from far and near, is invited to participate.

The Willamettes, of Portland, are maklog every preparation to receive and royally entertain the Albany Fire Department. Every fireman of Albany, that can possibly do so, intends to visit Portland and accept the ho-pitalities of the Willamettes,

FRIED HOLES .- A little red-faced fouryear old, after gazing long and wistfully at a plate of doughnuts on the table the other evenlog, said, with a sigh of follness: "Ma, do you think I could stand another one of those fried holes!" He was helped to one more.

The finest team on the streets of an evening lately, is that composed of White Prince and Doll, cream whites, in their splendid new harness, attached to a buggy, practicing for the Centennial.
