Considerable damage has been done to the farms in the lower valley, but how much is not known."

A ROMANTIC STORY.—In the middle of the winter of 1838, a fire broke out in the female seminary at Limoges, France, and spread with such rapidity, that it was feared that all the inmates would perish. Suddenly there was a cry that one little girl had been left in her room. As the excited spectators were beginning to pray for the unfortunate, a tall girl, with dishevelled blonde hair and flowing night-dress, ran through the crowd, and with a shriek of "I'll save her!" that arose above the sound of crackling of timbers and fallen masonry, dashed into the doorway. A loud hurrah that was prolonged to the echo, only to be repeated again, attracted the attention of the devotees, and the pale faced girl was seen hurrying through the flames with the terrified child. A few days thereafter King Louis Philippe sent the heroine a gold medal for her bravery, and a captain of the French army, who had witnessed the girl's pluck, begged an introduction. The captain is now President of France, and the brave girl is Madame MacMahon.

Ayer's Ague Cure. For the Speedy Relief of Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and indeed all the affections which arise from malarious marsh, or miasmatic poisons. Has been widely used, during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills, once broken by it, do not return, until the disease is contracted again. This has made it an accepted remedy, and trusted specific for the Fever and Ague of the West, and the Chills and Fever of the South. Ayer's Ague Cure eradicates the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that no Liver Complaints, Rheumatism, Neuralgia, Dysentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual cure, but, if taken occasionally by patients exposed to malarial influences, it will expel the poison and protect them from attack. Travelers and temporary residents in every and all Acute localities are thus enabled to defy the disease. The General Liability which is so apt to ensue from continued exposure to Malarial and Miasmatic influences, is thus speedily and effectually removed. It is an excellent remedy. PREPARED BY DR. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. Sold by all Druggists and Dealers in Medicine.
