

FOR PRESIDENT OF THE UNITED STATES, R. B. HAYES.

FOR VICE PRESIDENT, W. A. WHEELER.

REPUBLICAN STATE TICKET.

HON. R. WILLIAMS, FOR PRESIDENTIAL ELECTORS.

TERRIBLE BATTLE WITH THE SIOUX.

A few days ago the telegraph brought accounts of a terrible battle between the Sioux Indians and Government troops...

VALUABLE HORSE LOST.—One day last week, as Wm. R. Dunbar and party were going from their camp to Newport in a wagon to which four horses were attached...

TO THE HIGHEST BIDDER.

That "excellent, consistent and conservative Democrat," Brick Pomeroy, is bitterly opposed to the Democratic nominee for the Presidency, Sam Tilden.

Gen. Santa Anna died on 20th of June, aged 84 years. He led a most eventful life, full of stirring events, and will be remembered more especially in connection with the early Texas difficulties and the war between this Government and Mexico.

The Belknap impeachment trial drags its slow length along. Belknap asserts his conviction that he will not be convicted, while the managers seem to feel just as sure of reaching a conviction.

Geo. M. Pinney, the defaulting pay inspector's clerk, is said to be residing at Valparaiso, Chili, having reached that city with two boxes, each containing about \$10,000 in gold coin.

Russia is said to be arming. Austria is also placing herself on a war footing, and it really begins to look as though we might have a grand European war.

The 4th was celebrated more generally, and with greater pomp, throughout the Union than ever before. In New York business was suspended for five days.

Clara Louise Kellogg offers a thousand dollars, and James Gordon Bennett \$10,000, towards a monument to the late General Custer. Others have also subscribed.

DEVASTATING TORNADO.

A terrible storm of wind and rain passed through portions of Iowa and Missouri on the 3d and 4th. The damage in Dubuque was immense, and will take many months to repair.

The death of Gen. Custer has caused universal regret, and we have heard but one wish expressed, and that was the hope there would be no more "foolishness" exhibited in attempting moral suasion with those bloodthirsty savages...

Portland is pluming herself on the success of jubilee week, and promises to make it two weeks next Centennial. Well, the programme of celebration was very well planned, and owing to the efficiency of Messrs. Sautorn, Besser and Andrus, of the Committee, who worked indefatigably throughout...

Reports from Indian sources of the late battle between Gen. Custer and the Sioux, say that the Indians lost seventy killed, among them many noted chiefs. Custer shot three Indians with his pistol, killed three more with his sabre, when he fell, shot through the head by Rain-in-the-face, a chief whom Custer had once forcibly arrested for murder.

Excessive heat prevails in the Eastern cities, and cases of sunstroke are frequent and often fatal. Up to the 11th, twelve deaths from sunstroke had occurred in Washington, and for the first time in the history of the capitol building, work has been entirely suspended.

The time of Tom Merry, in a dash of a mile and a half over the East Portland track last week, and that of Ascension, the winner of a similar race over the Long Branch course on Saturday last, was identical—3:45. Rah for Oregon.

AS TO THE MISTAKE.

Facts have come to light since the first report of the Custer fight which puts an entire new face on the whole matter. A telegram of the 12th inst. says: The newspaper charge against Major Reno, of disobedience of orders in Custer's fatal campaign, is received with a great deal of discredit.

The St. Louis Convention not only adopted a double-faced platform, but placed upon it a double-faced ticket. Tilden and professions of hard money and reform are expected to carry New York and Connecticut; repudiation and Hendricks are expected to carry Indiana, and thus divide the October States.

WAX UP TIME.

As the Mayor of Portland, several members of the City Council, City Treasurer, one or two editors, members of the Fire Department, and leading citizens of the city, to the number of fifty or more, are expected to arrive here on a special train about 8 o'clock on Monday evening of next week...

Tilden, rag-money and repudiation, is now the rallying cry of the Democracy, says an exchange. Yes, the fiery Southerners got control of the Democratic party, once more at the St. Louis Convention, and they seem determined, this time, to utterly wipe out the Democratic party, or win on an outspoken repudiation policy.

The Salem Mercury of Monday evening says: "From a passenger on the afternoon train, we learn of a shooting scrape which occurred at Eugene City last Saturday. It seems that two citizens of that place, Dr. A. I. Nicklin and St. John Skinner, had a falling out about a bill of some nature, when Skinner attacked Nicklin, who drew a dagger and shot Skinner in the breast, the ball striking the breast bone, inflicting a severe but not dangerous wound. Dr. Nicklin was arrested and his preliminary examination was still progressing when our informant left there today."

These mines are very rich, and will hereafter be made to yield double the amount of the last clean up, as a double force of men will be employed and the work continued night and day.

Card of Thanks. I think this method of expressing the feelings and gratitude of myself and family to the many kind friends who so diligently and persistently labored to recover the body of my deceased son, Christian T. New gold mines have recently been discovered on Beaver creek, fourteen miles west of LaGrande, and between that point and Senator Jones' celebrated Camp Carson gravel mine. Great excitement prevails in that section of country, and many farmers are leaving their farms to go to the mines.

Richardson writes to the Astorian as follows: "I was informed this evening by Temple Seely, that the body of a man was found lashed to a fish boat with the lead line, at a point known as False Tillamook Head, between the long and short lead beach in Tillamook county. The body was found on Monday last by an Indian of the name of Nehalem John, and can be got at only at extreme low tide. Yellow duck pants, red drawers, gray shirt and oil coat is in the boat. The boat is but little damaged. The coroner from Tillamook will get to where the body is on Saturday or Sunday. There was a net found on the south side of Tillamook bar last week, but the Indian who found it cut the rope and led from the net and left the net on the beach. I found part of a boat on the long lead beach last week marked Badollet & Co., No. 8."
