

FOR PRESIDENT OF THE UNITED STATES, R. B. HAYES.

FOR VICE PRESIDENT, W. A. WHEELER.

REPUBLICAN STATE TICKET. FOR CONGRESS, HON. R. WILLIAMS, of Multnomah county.

FOR PRESIDENTIAL ELECTORS, W. H. ODELL, of Lane county; J. W. WATTS, of Yamhill county; J. Q. CARTWRIGHT, of Wasco county.

A MATTER TO THINK OVER.

A railroad to Yaquina Bay could be built at small comparative cost. It is stated that the amount saved on grain freights to salt water from Linn county alone for one year would build the road.

The advantages to accrue to Albany and Linn county, by the construction of a railroad direct to Yaquina Bay, are so vast and palpable, that all can see and appreciate them, and the only wonder is that this community has been so long in taking advantage of such an immense lever to their prosperity and advancement as such an improvement would certainly prove.

The completion of a railroad to Yaquina Bay from this city would shorten the distance to San Francisco two or three hundred miles; it would shorten the time required to make the trip to less than thirty-six hours; it would reduce the fare at least two-thirds; it would reduce freightage from one-third to one-half the present price; it would make Albany and Linn county the shipping point of the State.

Our grain could be placed on ships at Yaquina Bay for Liverpool at least as cheaply, if not for a less sum, than the lowest sum now proposed for transporting it to Portland.

But we are not able in one short article to enumerate a tithe of the benefits that would be reaped by Albany and the whole Willamette Valley on the completion of such an enterprise. A little work now would secure us an outlet to the ocean that would prove a never ending blessing to the whole valley.

GOOD FOR EUGENE CITY.

The State University at Eugene City, having been completed, a few days since was accepted by the State, and is, therefore, a State institution. An organization has been effected by making Judge M. P. Deady, of Portland, President, and Hon. J. J. Walton, of Eugene City, Secretary.

NOT ENTHUSIASTIC FOR TILDEN.

There is now and then a well informed Democrat who will assert that Tilden is the coming man; but when you pin him right down to his honest convictions, he will acknowledge there is no hope for the Democratic "reformer."

GOOD NEWS.

The bills introduced by Senator Mitchell appropriating \$145,000 for the improvement of the Columbia and Willamette rivers, have passed both houses of Congress. Ninety thousand dollars is the amount appropriated for the canal and locks at the Cascades of the Columbia, which insures the inauguration of this great and much needed work.

ANOTHER INDIAN BATTLE.

Telegrams on Tuesday and Wednesday bring accounts of a terrible Indian fight, in which the troops under command of Gen. Terry or those under Gen. Crook (the telegrams were undecided as to which command is entitled to the honor), met the Indians under Sitting Bull, and gave them a lesson they richly deserved.

THE "REFORM" HENDRICKS.

The Times' Indianapolis special declares that for three days a great public highway in Indianapolis has been in the hands of a lawless mob and thousands of dollars' worth of property destroyed, simply because Hendricks is not at home to do his duty.

And now it is asserted that Fog Horn Allen does not propose to support Tilden and Hendricks, but will give his influence for Cooper and Carey, the greenback inflation candidates. The defection of Fog Horn will prove a terrible disaster to the Tilden and Hendricks faction, as the old man has considerable influence in his party.

"If the Radicals expect to make any votes for their candidates by calling Gov. Tilden a thief, they will be greatly mistaken on election day."

GOOD FOR EUGENE CITY.

The bill to repeal the resumption clause of the act of January 14, 1875, passed the House of Representatives on the 5th inst., by a vote of 106 to 86. Among those voting for the bill was Mr. Lane, of Oregon.

Hon. James G. Blaine opened the Presidential campaign in Maine by addressing a large and enthusiastic audience of 4,000 people at Augusta on the 14th.

Hendricks' declaration that no man should be put in office "who has furnished money to corrupt elections," is taken as an indication that he and Tilden have not yet arrived at a perfect understanding.

The Hawaiian treaty bill has been passed through Congress, and the Pacific coast sugar refiners are happy.

The trade dollar is said not to possess the legal tender quality, and is only worth its value as a silver bar.

The University building at Eugene cost \$52,000, and is said to be an elegant structure.

Congress has adjourned.

Condensed Lightning.

Indians are stealing horses 25 miles north of Ogallalla. Emperor William and Don Pedro are at Bayereth attending the Wagner musical festival.

Centaur Liniments.

[Letter from a Postmaster.] "ASTORIA, ILL., Dec. 1, 1874."

"My wife has, for a long time, been a terrible sufferer from Rheumatism. She has tried many physicians and many remedies. The only thing which has given her relief is Centaur Liniment. I am glad to say this has cured her. I am doing what I can to extend its sale."

W. H. KING.

This is a sample of many thousands of testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published after each bottle. It contains Witch Hazel, Mentha, Arnica, Rock Oil, Carbolic, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is performing more cures of swellings, Stiff Joints, Eruptions, Rheumatism, Neuralgia, Sciatica, Caked Breasts, Lockjaw, &c., than all the other Liniments, Embrocations, Extracts, Salves, Ointments and Plasters now in use.

For Toothache, Earache, Headache, Croup, and Catarrhs of the Throat, it is admirable. It cures burns and scalds without a scar. Extracts poisons from bites and stings, and heals frost-bites and chilblains, in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

The Centaur Liniment, Yellow Wrapper, is adapted to the tough skin, muscles and flesh of the horse, and is used with success in all cases of Spavin, Swelling, Wind Gall, Big Head and Polled Horns, &c., &c. It is also used by Messrs. J. M. Rose & Co., Druggists, corner of Front street, Astoria, Ore., and by others.

"In our neighborhood a number of tentacles are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as high as four to five dozen bottles per month to some customers."

We have thousands of similar testimonials. For Wounds, Galls, Burns, Ring-bone, &c., and for Scum Worm in sheep it has no rival. Farmers, live-stock and stock-raisers, have in this Liniment a remedy which will cure a hundred times its cost.

Laboratory of J. B. Rose & Co., 64 Bay Street, New York.

PITCHER'S CASTORIA.

Mothers may have rest and their babies may have health. If they will use Castoria for Wind, Colic, Worms, Feverishness, or any other ailment of the young, it is entirely a vegetable preparation. It is entirely safe, and does not contain opium, morphine, or alcohol. It is as pleasant to take as any medicine, and neither purges nor irritates.

"I am using Castoria in my practice with the most signal benefits and happy results. It is what every one says: Most infants in New York City use the Castoria. It is prepared by Messrs. J. B. Rose & Co., 46 Bay Street, New York, successors to Samuel Pierpont, M. D., 39 1/2
