FOR PRISIDENTIAL ELECTORS. W. H. ODELL, of Lanc county. J. W. WATTS, of Yambill county. J. C. CARTWRIGHT, of Wasco county.

DON'T FAVOR INTERNAL IM-PROVEMENTS.

Demogracy has always been opposed to internal improvements-to canals, to railr ads-to all enterprises of a publie nature calculated to develop the resources of the country. On the other hand the Republican party has always been in favor of every improvement calculated to build up and increase the glory and prosperity of the whole country. For the building of the great Pacitic Railroads, the country is indebted to the Republican party. The Demoeratic party has shown its hostility to granting aid to any and all public improvements, whether a railroad across the continent or to Yaquina Bay, at all times and under all circumstances. Wa hore in Oregon, isolated as we are, cut off from the markets, see and feel the need of railroads to give us an outlet to the markets of the world. With a Democratic Congress (or a Democrat in Congress), we need never expect any aid from the general government. Therefore it you want to secure aid from the general government for railroads, or for the improvement of your rivers, good sense would seem to indicate that you vote for Richard Wil. cate that you vote for Richard Williams, a tried Republican, to Congress, to replace the inelicient, weak headed I are-a man who, while professing to be a resumptionist, voted against the resumption of specie payment-because Democra's is the House demanded it! -directly in opposition to the wishes of nine-tenths of his constituents in Or-

Grover's first exense (and he seems to have two) for vetoing the Yaquina I'ay Railroad bill, is that there was no tax levied or other provisions made for raising the money required to meet the payments required under the bill. It this was the true reason, and he desired to aid the people of Benton county in their efforts to build a railroad to the ocean, why did he not retern the bill at once, so that the objection could have been removed, instead of holding on to the bill, as it is charged by Democrats, until two hours before the adjournment of the Legislature ?

The Republican party believes in free thought and free labor. It is the champion of human rights, and has done more for the substantial advancement of liberty and civilization than all other parties together. It believes in the church and the school-house as the best defenses of the Republic. It is the party of right, justice, and truth. To defeat so grand a power for good would be an act of national suicide.

Victor Hugo advises Frenchmen to vote for Tilden because he was in sympathy with France in her struggle against Germany. Just how many German votes this will make for the hoons reformer has not yet been calculated. Victor Hugo had better come over and take the stump for Tilden. Cincinnati would be a good place to start in.

Every man to the front! Not a Republican vote must be thrown away. A single vote may turn the scale of the election. A full vote means a grand victory. To secure this should be the object of all until the ballot is cast. What a solid South could not effect on the battle-field it must not be allowed to accomplish at the ballot box.

The Democratic party claims that the nation has no right to protect its citizens at home. The Republical party claims that the nation has the right, and that it is its duty to protect its citizens everywhere, at home as well as abroad. Loval citizens of America, can you besitate in your choice?

How he Denounced the Union

An Authentic and Astounding Statement by a Detroit . Clergyman.

grand reunion of the Boys in Blue at Indianapolis, Indiana, in September last, was the exposure by Rev. E. W. Flower, Episcopal minister of Detroit, of Sam Tilden's hatred for Union Soldiers. Rev. E. W. Flower served during the war as a soldier in the Eighth Michigan Infantry. At Spottsylvania Court House, Virginia, his left leg was shot off by the rebels. In 1865 he was discharged from the U. S. volunteer army, and the same year was appointed to a clerkship in the internal revenue service at New York, and afterwards transferrel to the customs service. In 1867. Andy Johnson, having accidentally become President of the United States. turned over to Smuel J. Tilden, then chairman of the New York Democratic State committee, the Government patronage, and that great "reformer" at once removed all of Mr. Lincoln's anpointees, and replaced them with sound, reform Democrats. Among others removed was Mr. Flower. Mr Flower gives his experience with Mr. Tilden in the following letter to Mr. Samuel Post, pension agent at Detroit, which was read at the reunion of the Boys in Blue at Indianapolis, Indiana, on the evening of September 20th, 1876, from the balcony of the Bates House, by Senator Logan, of Illinois. Mr. Flower was present during the reading of the letter, and when Senator Logan had concluded his remarks, verified its contents. Subsequently Mr. Flower was vouched for by Hon, S. D. Bingham, Chairman of the Michigan Republican State Committe, and Gen. Trowbridge, collector of the port at Detroit. The reading of the letter created the most intense excitement among the veterans present. Following is a copy of the letter in question, the original of which

lost a leg in the line of duty during the war of the rebellion. I was in the city of New York, and in March of the same year I was appointed to a temporary elerkship in the internal revenue service. In June, 18c5, the office of superintendent of export and drawbacks for the port of New York was created. I was endorsed for an appointment in this office by the Hon. Zach Chandler and the late Judge Longyear, who knew me personally.

I continued to perform the duties assigned me in this office till October, 1867. About that time Mr. W. F. Warren, the superintendent (than whom a more nuflinching Republican, or man of more un-impeachable integrity and business capacity never held office), was removed by the late Andrew Johnson to make way for a Democrat. I suspected there would be difficulty in retaining my place, and had a talk with the new superintendent about the matter. He told me that he wanted me to remain at my desk, but that he could not reappoin me without the endorsement of Samuel J. Tilden, then Chairman of the State Central Democratic committee. He gave me a let-ter of introduction to Tilden, stating my qualifications, experience, etc., for the place.
I called on the great "Reformer" at his office in Nassau street (I think). den read the letter, and then asked me if were a Democrat. I replied in the negative. He inquired again, "will you vote the Democratic ticket this fall, and will you work in your district for that party?" answered that I could not. In a sneering kind of tone he asked me what claim I had

on him for the place.
I stated in reply that I had acquired considerable valuable experience in my particular branch of the civil service, that I had been instrumental in detecting on more than one occasion, attempted frauds on the government, thereby saving the govern-ment several thousands of dollars, and that my work had been done in a satisfactory manner. Added to this I said: "I sought to sustain the government under which you are now living in peace and prosperity, and suffered the loss of a leg, as you can see—(I was there on crutches). Certainly I might have a clamce of earning my living in the civil service after this."

Mr. Tilden ffew into a violent passion, and with the most terrible profanity he cursed me for having gone into the war; said it served me right, and it was a piry I hadn't lost both legs. He insulted the memory of the heroic dead who had fallen on our baidefields—he cursed the living witnesses and the actors in that terrible

Will he Face his Own Record? A LETTER TO GEN. LANE. .

The following letter appears in the Oregonian of the 26th instant, eleited by a speech from that vile old sinner, Jo Lane, who foully misrepresented the State of Oregon in the United States Senate in 1861, and who, for his treasonable course, was compelled, when he returned to Oregon, to seek his home by following the most secluded by-ways in the most private manner, that he might avoid the righteons indignation of an outraged people. Will the sld copper-head answer the questions pr pounded to I im by A Democrat

Following is the public letter to Gen.

"Ex-Senator Joseph Lane: I listened to your speech last night and was amazed at your mendacity. You boasted that 'tens of thousand of Democrats tought for the pre ervation of the Union; that President Lincoln, aided by Sam'l J. Tilden, preserved the Union.' Where were you in that time of peril? Did you not declare that before 'Lincoln Oregon?

Did you not come home, arm and the rebel cause?

Did you not remain at home, and with your son Lafavette Lane, give aid and comfort to the rebels by every means in vonr power?

defender of the Union.

Gen. Lane, if men like you had succeeded, we would have had no country to-day. We would have had a miserably divided lot of confederacies. And yet you prate about the Democracy putting down the rebellion.

A DEMOCRAT OF '61.

UNCONSTITUTIONAL,

It hasn't been many years since Demperatic orators and press were using "unconstitutional" whenever applied to any measure advocated by the Republican party. Whenever a Democratic orator or press could urge no other reason for opposing a measure, he or it fell back on the convenient one of unconstitutionality. Our present Goyernor and U.S. Senator elect, finding himself pressed for reasons to justify him in vetoing the bill aiding the Yaquina Bay Railroad, falls back or the convenient "unconstitutionality" of the bill! He says the bill conflicts with article XI, section 7, of the State Constitution, which provides that the Legislature shall not create any liabilities which exceed the sum of \$50,000! Isn't it remarkable that it never occurred to this strict constitutional Governor while he was running up the State debt of over \$700,000, that he was violating the Constitution! As this "constitutional" Governor now sees that a bill voting twelve thousand dollars in aid of the Yaquina Bay Railroad is in violation of the Constitution, did it ever occur to him that all the balance of the appropriation bills, by the same reasoning, signed by him, are in the same fix? It takes an honest, pure, "Constitutional," Democratic Governor to see inneonstitutionality" in any bill appropriating a few dollars to aid a large constitueney in pushing forward a grand and much peeded cuterprise! and to see the justice and constitutionality of robbing the school fund of two hundred thousand dollars, in the interest of a few party favorites, and creating a monopoly that has stricken the industries of the Willamette Valley as with paralysis. Why, if the "sexual mistake," as he is universally called, had the least comprehension of the way he has betrayed his trust as Governor, he would go out and hang himself, as did his prototype of old! But then we have no hope that the imbecile will ever do anything which would so largely meet the approval of the citizens of the Willamette Valley.

The Democratic party says the Republic is a confederacy. The Republican party says that it is a nation. Tilden represents the confederated idea, Hayes the national idea. To vote for the former is to indorse the rebellion while to vote for the latter is to indorse the justice of its oppression.

Hon, Mr. Highy and Ben Hayden to-morrow afternoon.

Tilden was waited on by me and solicited to aid, when the said Samuel J. Tilden made in substance the following reply : "I would rather see all the soldiers starve to death than give them one cent," and the said Samuel J. Tilden did not contribute.

TWO QUESTIONS.

Republican ticket.

Is our present system of national currency worth sustaining? It it is, then the party that created it and protects it must be sustained by the people in November next.

Are our national bonds worth protecting and the credit of the nation worth sustaining in the markets of the world? If so, there can be but one auswer to the question, "Which party can best protect our bonds and our credit?" Common sense ought to dictate that the party which gnarded both during the rebellion and since its close is the only party that can be trusted to protect them at the present time.

POLITICAL DISCUSSION.

The political discussion between Dr. Watts, Republican, and Judge Cronin, Democrat, at the Court House Thursday night of last week, was largely attended, the great bulk of the attendance being Republicans. The debate was epened by Dr. Watts in one of the mest unanswerable and logical speeches of the canvass. The utmost enthusiasm prevailed throughout the address. Judge Cronin then took the stand and worried through his alotted time. He failed to create any enthusiasm; did not even attempt to answer the arguments of the Doctor, and acted throughout as though the task of making a Deniocratic harangue was very repugnant to him. The Doctor then concluded in a fifteen minutes peroration, that for eloquence and convincing power, has never been surpassed in this city, and created the wildest enthusiasm. As an earnest, forcible, argumentative speaker, Dr. Watts has few equals anywhere.
