Thanksgiving Proclamation. The President of the United States issued the following proclamation last Thurs-

From year to year we have been accustomed to pause in our daily pursuits and set apart a time to offer thanks to Analghty God for the special b essings He has vouch-safed to us. With our prayers for the con-tinuance thereof, we have at this time equal reason to be thankful for His continued protection and for the many material blessings which His bounty has bestowed. In addition to the favors accorded to us as in dividuals, we have special occasion to exdividuals, we have special occasion to express our hearty thanks to Almighty God that, by His providences and guidance, our government, established a ce tary ago, has been enabled to fulfill the purposes of its establishment, offecing an asylum to the people of every race, securing civil and religious liberty to all within its borders, meeting out to every individual justice and equality before the law. It is, moreover especially our duty to offer our bumble praises to the Father of all mercles for the continuance of His divine favor to us as a nation and as mainviduals. By reason of all these considerations, I. Ulysses Grant, President of the United States, do recon mend to the people of the United States to devote the 30th day of November next to the expression of their thanks and praye to Almighty God, and laying aside their daily avocations and all secular occupations, to assemble in their respective places of worship and observe such day as a day of

thanksgiving and nest.
In witness whereof I have become set my hand this 21th day of October, A. D. 1.75. U.S. GRANT.

Mountain Balm.

THE BEST REMEDY IN THE

KNOWN WORLD FOR

COLDS, DISEASES OF THE THEOAT AND

> LENGS, AND FOR ASTERMA AND

RHEUMATISM.

Selected and gathered on the spurs of the Sierra Nevada Monatains. The leaf found in the hotter climates, when dry, contains fifty per cent, of resin or gold colored gum, the properties of which are stimulating and healing, and especially adapted to the wants of the system in case of Lung disease and Rhenmatism.

The high estimate which the Spanish placed upon it on account of its medicinal malities is manifest from the name they gave to it, many years ago-Yerbasanta, or "Herb of the Saints." The natives of Southern Oregon and Northern California have used it immemorially as a Rhenmatic remedy. The white population to the region where it grows have used and prized as a throat and lung medicine. time they called it Lung Weed; but give valuable testimonials as to its virtues in
