WHY Is IT?-No one thinks of subscribing for a newspaper published outside of bis own county without paying for it in advance, but very many people never think of paying for their county papers until they are asked to do so-and in more cases than most people imagine, even this is not sufficient. And we sometimes come across a man who, feeling unable to take more than one paper, will stop his home paper to take one from the East. One of those things which a fellow never can find out, is why so many people manifest a much greater interest in events transpiring in countries five hundred or a thousand miles That a people should desire to keep inform- from the mines.
