

THE ELECTORAL COMMISSION.

On the 12th, at the joint meeting of Congress, the presiding officer announced that, as the two Houses had not yet concurred in ordering otherwise, the vote of Florida would now be counted in conformity with the decision of the commission. Senator Allison then announced that Florida had given four votes for R. B. Hayes, as President, and four votes for Wm. A. Wheeler, as Vice President. The Vice President then proceeded with the count, commencing with Georgia. No objection being made to Georgia her eleven electoral votes were given to Tilden and Hendricks. Next came in succession the State of Illinois, with twenty-one votes for Hayes and Wheeler, Indiana, with fifteen votes for Tilden and Hendricks, Iowa, with eleven votes for Hayes and Wheeler, Kansas, with five votes for Hayes and Wheeler, Kentucky with twelve votes for Tilden and Hendricks. Then came the certificate from Louisiana, showing eight votes for Hayes and Wheeler—two certificates having been received, one by mail and a corresponding one by Messenger Thomas C. Anderson of the returning board, both properly authenticated by Kellogg as Governor. Two other certificates were also received, authenticated by McEnery as Governor, certifying the election of Tilden and Hendricks. A third certificate was then presented, authenticated by the Secretary of State, certifying to the election of eight electors for Hayes and Wheeler. A fourth certificate was then received—received by mail no corresponding one having been received by messenger—certifying that John Smith had been chosen elector from the fourth district, John Smith No 2 from the second district, John Smith No 3 from the third district, etc., and that the eight John Smiths had cast their votes for Peter Cooper of New York, and Sam Carey of Ohio. As the paper was manifestly a burlesque, it was omitted from the proceedings of the joint convention. Objection to all the certificates being made, the Electoral Commission withdrew to decide which set of electors were legally and lawfully entitled to cast the vote of Florida. So far as counted Hayes and Wheeler have fifty votes in the Electoral College, while Tilden and Hendricks have fifty-seven.

GOVERNOR-SECRETARY CHADWICK.

Mr. Chadwick, Secretary of State, issues his proclamation declaring himself Governor of the State of Oregon. The proclamation is signed "S. F. Chadwick, Governor; By the Governor, S. F. Chadwick, Secretary of State." The Constitution of the State of Oregon says that "in case of the removal of the Governor from office, or his death, resignation or inability to discharge the duties of the office, the same shall devolve upon the Secretary of State." As the same Constitution declares that no person shall hold more than one lucrative office at the same time, Chadwick certainly will not claim that he is Governor as well as Secretary of State! And yet he has signed his proclamation in both capacities! It is just possible that Stevey is running altogether on "by-laws," and hopes in these unsettled times to get away with the "honors" and profits of both positions. It is hard to tell what a ring Democrat would do these days.

We see it stated that some of the leading Democratic politicians are advising the Democrats composing the electoral commission to resign! The Democrats have had their own way in the matter of making the electoral commission; they had the majority and unless they had voted for the bill authorizing such a commission it could never have been formed; but, as this commission seems to be determined to do its duty honestly in the premises—finding Hayes and Wheeler elected, the choice of the people, they will so announce—your honest Democratic politicians would like to disorganize and destroy the work of their own hands! But we don't believe such counsels will prevail, but the vote will be counted, and the Republican candidates duly declared elected. 'Rah.

Apparently our entire population (male) turned out yesterday afternoon to witness the Chinese exhibition on First street. The most terrific beating of gongs, etc., aided by thousands of exploding fire-crackers, bombs, etc., created such a din that we began to think the "war" had really commenced. This thing may be fun for the boys but its getting terrible old with us, and we'd willingly sell our interest in the show for a last year's almanac. Give us a rest.

VILLAINOUS DEMOCRACY.

The telegraph on Thursday brought the news that the treasonable, murdering Democracy have assassinated Gov. Packard, of Louisiana.

NOW AND THEN.

In 1872 Sec. Chadwick gave to each of the Presidential electors a certificate of their election. In 1877 he handed all the certificates (in one envelope) to Cronin, who was not elected and had no title to them under the sun! And this is why little Chad has lost prestige in his own party as well as the Republican. Secretary, now Governor Chadwick, has cooked his political goose—in fact he's burned it to a cinder! Poor Chad!

RESIGNED HIS OFFICE.

It has been said that "Democrats die, but they never resign office." But it is really true as is reported, that Bill Watkins has resigned his office of Superintendent of the Penitentiary, then for once at least the saying above quoted is untrue. The place made vacant by Watkins' resignation or removal has been filled by the appointment of Capt. B. F. Burch, of Polk county. We are in hopes that the new Superintendent will be an improvement on the old.

SAMUEL IN TROUBLE.

In New York on the 13th Henry H. Boddice commenced suit against Samuel J. Tilden at special term of the Supreme Court. Plaintiff sues for a partnership accounting in a pool in railroad stock in 1864, and for \$26,000 which is alleged the defendant was overpaid under misapprehension as to profit.

Late dates say that the Sioux under Sitting Bull and Crazy Horse are very anxious to make peace, and of course to be allowed to come into the Agencies and be clothed and fed! The reverses they have met with of late at the hands of the soldiers, but more particularly their sufferings from cold and hunger, have admonished them that it is about time to make "peace," get filled up, re-blancketed and armed that they may be better prepared to do good scalping! Give the poor Indian another chance, do!

An exchange directs attention to the fact that the compromise bill may not be constitutional, but when five judges of the supreme court have acted under its provisions a majority of the court have declared it constitutional, and there you are, you know. The framers of the measure were careful to have it declared constitutional by the highest judicial tribunal in the country, by the simple enforcement of its provisions.

On the 13th there were 76,000 strangers in New Orleans, called there to witness the carnival on that day. The programme of the day was fully carried out, the subject of the procession being "history of the military progress of the world." The period of time covered was from 1,500 years before Christ to date. It was a brilliant affair, requiring twenty-four cars to represent the different scenes.

At the telegrapher's ball held in Chicago on the 12th, music was transmitted over the wires, by means of Elisha Gray's telephone, from Milwaukee, with great success. The wires were run into the several newspaper offices, and the prints enjoyed the newest luxury—music by telegraph. This is indeed a fast age.

The suspicion of corruption in the manner of Grover's election to the senate is so strong, that that body will be compelled to investigate the matter. It is confidently asserted by those who are supposed to know whereof they speak, that so great will be the amount of corruption disclosed, that Grover will be excluded from a seat in that august body. And then this base fraud will crawl into his hole and pull the hole in after him.

In the matter of the Louisiana vote, the Democrats claim that two of the Hayes electors were ineligible, as they held office at the time they were elected. The fact will be shown that both the electors resigned their offices, and the board, afterwards, elected them to fill vacancies. The Democratic Congressmen simply oppose the counting of the vote for Hayes to let themselves down easy. After such terrible threats of blood and carnage they must do something to show they have a little courage left.

It is now charged that Ben Franklin asked to be appointed distributor of the very "stamps" that caused the trouble between the colonies and Great Britain, resulting in the independence of America! Shoot the fiend that would thus attempt to destroy the faith of Americans in their Revolutionary fathers.

The electoral commission were still considering Louisiana on Wednesday, and may not arrive at a vote until today. Democrats coincide the election of Hayes and Wheeler.

The accident occurred about five o'clock, and although the bark was immediately hoisted and a boat lowered to aid the unfortunate man, yet in the darkness it was impossible to obtain any clue to his whereabouts. It is probable that, as he was thickly clad, and not knowing how to swim, he sank instantly. Mr. Brett was a native of New York, aged about 25 years, and is highly spoken of by Capt. PROSPECTIVE CROPS—An all-wise providence has been specially kind to the people of the Willamette Valley during the present winter, which, so far, has been unprecedented in every way. We have had no snowfall, and the sunshine and rainfall have been about equally distributed, and thus the ground generally put in proper condition for the plow. This being the state of the weather, our farmers have not necessarily lost much of the time because of inclemency, but have been busy nearly the entire winter in getting their ground in readiness for seeding. Under these favorable circumstances a larger area of ground will be sown and with a continuation of good weather Lin county will turn out the coming fall, the largest crop ever raised within her borders by many thousands of bushels. The present indications, then, point to a most successful season for the agriculturist, everything, so far, being favorable and pointing to such a result. The unsettled condition of Europe is also favorable to us, as if no general war shall result from the present threatening condition of affairs, the great preparations made by the several Governments interested has drawn largely from the agriculturists of those States, leaving them short handed; and should the season prove ever so favorable, the want of farm laborers in the agricultural districts will lessen the area usually cropped, thus reducing the aggregate yield more or less largely. As long as these Foreign Governments are compelled to remain on a war footing, so long will there be an unusual demand from each for bread-stuff; and the longer this condition of things remains the less able will be the several countries to provide, within their own borders, the necessaries demanded by the maintenance of such large bodies of non-viewed in this light, therefore, the outlook for the Willamette farmer, in the way of good prices for his grain, was never better. With this prospect, and as we have said before, blessed with probably the finest winter Oregon has ever known, our farmers should be the happiest men in the Nation, not forgetting to return thanks to an overruling providence for the vast benefits thus conferred.
