ALBANY, OREGON, MARCH 16, 1877.

THE PRESIDENT'S CABINET.

Last week we announced the fact that President Hayes had appointed his Cabinet and sent the same to the Senate for confirmation. A portion of the Cabinet was not received with the greatest enthusiasm by that honorable body; and, in fact, it was thought extremely doubtful whether one or more of the gentlemen nominated as members of such Cabinet would be confirmed. But Senators seemingly came to view the matter with less partisan prejudice, and the entire Cabinet was confirmed, have been sworn in and gone to work. The appointments have been well received from one end of the country to the other, as showing an honest purpose on the part of the President to carry out the line of policy indicated by him in his acceptance of the nomination and in his inaugural address. We are inclined to the belief now, that if President Hayes adheres to the policy so plainly laid down in his inaugural, and which he has now so successfully inaugurated, he will be the most popular President America has ever had, and the Republican party will soon have but little opposition in any State in the Union.

Pacific Slopers.

It snowed at Seattle on the 9th.

Gold has been struck in Whatcom county, but will not be worked until the water subsides.

The Government still owns over five million acres of surveyed land in Washington Territory.

Some Italian fishermen found the decomposed body of an unknown white man at Point-no-Point last week.

Four Indians who recently left Port Discovery in a canoe for Victoria, were drowned by the upsetting of their craft.

When they take the next census of Orcas Island, Peter Ladeboos will be missing. He rolled out of his canoe.

The Port Townsend fishermen are making big hauls of halibut and find good markets, and everything is flourishing as a "green bay horse."

The workmen engaged in sinking a well for Bentley and Caton's soda works at Walla Walla, struck oil about four feet below the surface, but it was in a quart bottle—linseed oil—the bottle was full, and must have been lying in the ground for 14 or 15 years.

Seattle saloon keepers have what they call a "snuff gun." When a snoozer falls off to sleep they insert one end of a tube, which leads to some snuff, in the victim's nostril, and the sneezing of course awakes him. What if a man breathes through his mouth—is he allowed chewing tobacco free?

This is the way the victims look upon robberies: "The darkest crime on record, ever perpetrated in Walla Walla since inhabited by a civilized nation, was committed last Sunday night by robbing the *Watchman* office of essential and important pieces of the two presses, and rendering the same thereby perfectly useless.

Mr. Mitchell D. Tracy committed suicide at Bridge Creek, Wasco county, on the 5th inst., by shooting himself through the head with a rifle.

While Mr. G. G. Durling, of Douglas county, was plowing, the doubletree broke and he was jerked over the plow and had one of his shoulders badly hurt.

The Tellurium Mining Company, at a meeting held recently at Canyonville, set apart $2,500 in stock for the purpose of finishing the tunnel, and $1,500 for building a furnace.

A man by the name of Ringgold exchanged his coat and hat for better ones belonging to Mr. Cooper, at Wheatland, without the knowledge or consent of the latter. He is now boarding at the expense of Yamhill county awaiting the term of court.

A lady at Canyonville waited for her better half until bed-time the other evening, and then she marched down town to a saloon, where she and her husband remained until the "wee sma' hours." The head of that family will go home earlier hereafter.

The *Mountaineer* says about seven inches of snow fell Thursday night and Friday morning. We understand that snow is still deeper further east and south. This will be a good thing for the grass and grain, and dissipate all fears of a drought this season in this section.

The common council of Dallas has passed an ordinance prohibiting the carrying of rubber shot slings with which the average hoodlum makes himself so disagreeably numerous. We agree with the *Itemizer* that the action of the council was eminently wise, and hope to hear of it being imitated.

The Douglas *Independent* says: A letter received from the Lucky Queen mine under date of March 7th, states that workmen employed there are purchasing the stock of the company at $2 per share for the same. They also agree to pay the assessment (3 cents) levied at the last meeting of the directors. The mill is pounding away without interruption and is doing fine work.

The Roseburg *Plaindealer* has this: The infant child of Mr. George Beath, has been fretting for some time past, which puzzled the parents, as it otherwise appeared in good health. One day this week, Mrs. Beath in washing the child's foot felt something scratch her hand, and upon examination found the sharp point of a needle protruding from the top of the foot. She immediately drew it out and the little sufferer appeared much relieved. The needle run into the bottom of the foot several months before and had worked out through the foot.

From the *Mountaineer*: Mr. J. C. Luckey, just in from the "Mud springs" situated in the southwestern part of our county, gave us a call on Monday. He had in his possession several assays of the "mud" and of "rock" and "quartz specimens," all of which are positive evidences of rich gold and silver mines. One assay of the "mud" showed a prospect of $2,200 to the ton. This assay was made by Prof Hurley, of Oregon City, for Mr. Frank Storey, who gathered the mud and paid for the assay. Mr. Luckey informs us that the excitement in that section was greater than ever before, as many new quartz ledges were found containing the precious metals.

Peter smith, of Lakeview, Pierce county, had a blood vessel ruptured by being thrown from a cayuse last week. He is better, thank you.

Condensed Lightning.

It is announced that President Hayes will call a special session from the first to the 15th of May.

The *World's* Washington special says: It is again asserted in Republican circles to-night that Chamberlain is to resign the governorship and be provided for elsewhere. It this is true it will solve the South Carolina difficulty.

Notwithstanding conflicting rumors regarding the Supreme Court vacancy, it is rumored the President will nominate Bristow unless some unanticipated sound reason for the contrary shall appear.

The *Times'* Washington special says: Garfield declined the Senatorship at the request of Hayes, who wished to keep him in the House. The next House is likely to be weak on both sides, and inexperienced in legislation, and Garfield's loss would be serious.

There is the best reason to believe that Shurz will not remain in the cabinet many months, but will resign to accept a foreign mission as soon as he enjoys for a short time the honors of a cabinet position. Aside from the President's personal admiration and desire to show his sincerity for civil service reform, Shurz's appointment shows how utterly false stories about his Know Nothing principles were.

There were from three to twelve feet of snow in the streets of Pesth on the 12th.

Turkey asks help and kindly feeling from the rest of Europe in the management of its affairs.

Turks are making Christians pay tax a second time in Bosnia. Christians are fleeing to Austria.

The rinderpest, and foot and mouth disease, have broken out among cattle in different parts of England.

An Egyptian man-of-war was burned in Suez Gulf on the 12th. Of the 420 men on board only 20 perished.

Spaniards are angry because Hayes has appointed Shurz and Evarts to his cabinet, as they are supposed to be Cuban sympathizers.

The German Government requires about $17,000,000 more of the Reichstag this year than last. A hot debate ensued on the question.

Packard feels secure in his position and is determined not to surrender.

The business men of Memphis applaud the course foreshadowed by Hayes.

Senator Sherman's resignation has been accepted by Governor Young of Ohio.

A boy was poisoned at Ware, Mass., on the 11th, by eating wild turnips.

The Republicans at Raleigh, South Carolina, sustain Hayes in his Southern policy.

Richard W. Thompson, Secretary of the Navy, has left Indianapolis for Washington.

The Western Union Telegraph Company will declare its quarterly dividend of 1½ per cent.

Three Polish Jew children were burned to death in a fire on Ludlow street, New York, on the 11th.

Matthews is almost certain of ousting Banning as Congressman from the Cincinnati district of Ohio.

Cornelius Vanderbilt objects to his father's will, because his brother W. H. Vanderbilt gets nearly all the estate.

In view of Hayes' Southern policy, the Nicholas Legislature has passed a resolution very complimentary in its tone to Hayes. They will probably not elect a Senator this session.

The *Tribune's* Washington special says: It is reported that one of the boldest acts of Hayes' administration will be to change some of the important Federal officers in Louisiana. Several of these are negroes, who can neither read nor write. Even the important position of naval officer at New Orleans, is held by a negro, whose accounts come up to the auditing offices of the Treasury signed by his mark. This person is unable to read or write, and it is reported that he divides the large emoluments of office with outside persons.

It is more than probable that Hayes will appoint Bristow to fill the vacancy in the Supreme Court.

The Cabinet members have been sworn in.

The Senate will probably adjourn this week after confirming Judge Davis' successor and a few foreign ministers.

The President is daily in receipt of letters from gentlemen of both parties indorsing his course in Southern affairs.

Stanley Matthews and Wm. Eyarts, have written to Chamberlain insinuating that his resignation would be accepted.

Luttrell says that Hayes has given him positive assurance that an extra session of Congress will be held from the 1st to the 15th of May.

Gordon, Lamar and Gibson of Louisiana, called on the President on the 12th, and strongly urged the withdrawal of troops from the State Houses at New Orleans and Columbia.

By a strictly partisan vote Mr. Wm. Pitt Kellogg was granted the right to take the oath of office as Senator from Louisiana. McMillan voted with the Republicans.

The way the Senate stands at present, owing to absence, sickness, etc., the Democrats need but two Republicans to defeat Kellogg's claim to a seat in the Senate from Louisiana.

Garfield declines to be a candidate for the United States Senate from Ohio. He declines because Hayes wishes him to remain in the House. Taft is a prominent candidate for the Senatorship.

At the instance of Senator Mitchell the mail service in Oregon was on the 15th increased as follows: On the route from the Dalles to Upper Ochoco via Prineville to semi weekly, route between Union and Summerville via Cove to tri weekly; route from Oakland to Gardiner terminus changed to Drains and service increased to semi weekly; Ashland to Linkville schedule reduced so as to compel service in a day and to tri weekly. Mitchell also procured the establishment of service on a new route from Oakland to Cottage Grove.

The Pope is said to be rapidly declining in health.

A war is threatened between the Chinese and Kashager.

Stanley writing from Ujiji says he has completed the survey of the last Langany.

The real fight for Senatorship of Ohio is between Stanley Matthews and Judge Taft.

A tornado visited Atlanta, Georgia, on the 13th, causing much damage and the loss of two lives.

James Smith, a stationer's clerk in New York, has been arrested for stealing $10,000 worth of stock.

Ex-Secretary of War, Don Cameron, received the Republican nomination for U. S. Senator from the Pennsylvania Legislature.

Mitchell Merrimon, of Rock creek, Indiana, shot and probably fatally wounded two sons, while insane, on the 13th, and then killed himself.

Indications are that Bell, regular Democrat, is elected to Congress from the Ninth Georgia District, over Independent Democrat and Republican.

Francisco Peralto, the California mustang rider, commenced the feat on the 13th in the hippodrome in New York of riding 600 miles in fifty consecutive hours.

Five hundred registered letters and 20,000 ordinary letters were destroyed near Toledo, on the 13th, by a collision on the Buffalo and Chicago railroad. Many of the registered letters were from San Francisco.

Frederick W. Seward is the new Assistant Secretary of State.

Any action on Kellogg's case this session is extremely doubtful.

It is reported that Grant will be offered the Ministership to England.

The Philadelphia Union League endorses Hayes' course in the South.

For the first time in sixteen years the Democrats had a majority in the Senate on the 14th.

Key will not appoint new postmasters where there is no well grounded complaint.

Hayes' Southern policy is distasteful to Southern Republicans.

Blaine advocates new elections in Louisiana and South Carolina. Hayes is said to be favorable to the plan.

The Colorado potato bug has been discovered in Bremen on goods shipped from New York.

A ministerial crisis is imminent in France, owing to a disagreement between President McMahon and Minister Simon, concerning changes in government functionaries.

Mrs. Hayes has selected for the family the foundry Methodist church as a place of worship.

It is believed that the ten per cent. law in Tennessee will be repealed by the present Legislature.

Senator Edmunds is still very ill and intends going to Florida.

Federal officers in California will probably retain their positions.

Hayes will change some of the Federal appointments in Louisiana.

Hayes is anxious to build up a Whig-Republican party in Louisiana.

Key has announced that he has no intention of making any changes in the postoffice department.

Indiana will have a new State House worth $2,000,000.

The new Stock Exchange Board in New York has closed.

Republicans have carried New Hampshire.

Senator Sargent succeeded at the last session in procuring adequate appropriation for continuing the work of the propagation of food fishes.

The Rothschilds are said to be worth —all of them together—the agreeable sum of $3,400,000,000.

TODD'S

PRESSED YERBA SANTA; OR,

Mountain Balm,

THE BEST REMEDY IN THE KNOWN WORLD FOR COLDS, DISEASES OF THE THROAT AND LUNGS, AND FOR ASTHMA AND RHEUMATISM.

Selected and gathered on the spurs of the Sierra Nevada Mountains. The leaf found in the hotter climates, when dry, contains fifty per cent. of resin or gold colored gum, the properties of which are stimulating and healing, and especially adapted to the wants of the system in case of Lung disease and Rheumatism.

The high estimate which the Spanish placed upon it on account of its medicinal qualities is manifest from the name they gave to it, many years ago—Yerbasanta, or "Herb of the Saints." The natives of Southern Oregon and Northern California have used it immemorially as a Rheumatic remedy. The white population in the region where it grows have used and prized it as a throat and lung medicine. For a time they called it Lung Weed; but give valuable testimonials as to its virtues in curing Rheumatism.

When you open one of our packages, keep it excluded from the air as much as possible.

I have used it in my family for four or five years, and regard it as one of the best family medicines we ever used. A tincture is manufactured from it in Cincinnati, and sold at 75 cents per ounce. A single one of our packages make eight ounces of tincture, which is worth $5. The shrub from which this valuable medicine is gathered, is only found in a narrow belt of country in Southern Oregon, and along the Sierra Nevada Mountains, and is supposed to have been gathered from Mount Gilead thousands of years ago, and the gum extracted and sold in Egypt and in Tire before the times of Solomon.

Testimonials.

Dr. Nicklin, of Eugene City, says: "Your Balm is one of the best preserved herbs I ever saw, and is worthy of a higher price than you put upon it."

Rev. S. K. Raymond, of Oakland, Oregon, says: "I went to California to recover from Consumption. The Doctors there gave me up, and told me if I had any friends I wished to see I had better go and see them, as I could live but a little while longer. On my way to Oregon I commenced using Mountain Balm; it helped me; I continued its use until it cured me of the disease."

Mr. W. T. Osborne, of Eugene City, says: "I know a young man who appeared to be in the last stages of consumption, and by using Mountain Balm or Yerbasanta he became a healthy young man."

Joseph P. Moore, Esq., of Milville, Cal., says: "I have been acquainted with the shrub known as Yerbasanta for 20 years, and know it to be a very valuable medicine, both for the Lungs and Rheumatism."

Mr. Kimball, of Kimball & Welton, Red Bluffs, Cal., says: "I have been acquainted with the shrub known as Yerbasanta, for many years, and know it to be a great Lung medicine."

"I left Missouri with the consumption. Reached Rock Point, Jackson county, Or., and was taken down. I took a tincture of Mountain Balm, and chewed the leaf more or less, and in four or five days it cleaned out my lungs handsomely, and I resumed my journey; and now, after several months, my lungs still seem well.
