They will be sent on application. March 20, 1877-3025 W. C. MYER.

We Have IT. TODD'S PRESSED YERBA SANTA; OR, Mountain Balm, THE BEST REMEDY IN THE WORLD FOR COLDS, DISEASES OF THE THROAT AND LUNGS, AND FOR ASTHMA AND RHEUMATISM.

Selected and gathered on the spurs of the Sierra Nevada Mountains. The best found in the hotter climates, when dry, contains fifty per cent. of resin or gold colored gum, the properties of which are stimulant and heating, and especially adapted to the wants of the system in case of Lung disease and Rheumatism.

The high estimate which the Spanish placed upon it on account of its medicinal qualities is manifest from the name they gave to it, many years ago—Yerbasanta, or "Herb of the Saints." The natives of Southern Oregon and Northern California have used it immemorially as a Rheumatic remedy. The white population in the region where it grows have used and prized it as a throat and lung medicine. For a time they called it Lung Weed; but give valuable testimonials as to its virtues in curing Rheumatism.

When you open one of our packages, keep it excluded from the air as much as possible. I have used it in my family for four or five years, and regard it as one of the best family medicines we ever used. A fracture is manufactured from it in Clifton, Oregon, and sold at 75 cents per ounce. A single one of our packages make eight ounces of fracture, which is worth \$8. The shrub from which this valuable medicine is gathered is only found in a narrow belt of country in Southern Oregon, and along the

Sierra Nevada Mountains, and is supposed to have been gathered from Mount Gillett thousands of years ago, and the gum extracted and sold in Egypt and in Tire before the times of Solomon.

Testimonials. Dr. Nicklin, of Eugene City, says: "Your Balm is one of the best preserver herbs I ever saw, and is worthy of a higher price than you put upon it."

Rev. S. K. Raymond, of Oakland, Oregon, says: "I went to California to recover from Consumption. The Doctors there gave me up, and told me if I had any friends I wished to see I had better go and see them, as I could live but a little while longer. On my way to Oregon I commenced using Mountain Balm. It helped me; I continued its use until it cured me of the disease."

Mr. W. T. O'borne, of Eugene City, says: "I know a young man who appeared to me to be in the last stages of consumption, and by using Mountain Balm or Yerbasanta he became a healthy young man."

Joseph P. Moore, Esq., of Millville, Cal., says: "I have been acquainted with the shrub known as Yerbasanta for 20 years, and know it to be a very valuable medicine, both for the Lung and Rheumatism."

Mr. Kimball, of Kimball & Walton, Red Bluff, Cal., says: "I have been acquainted with the shrub known as Yerbasanta, for many years, and know it to be a great Lung medicine."

"I left Missouri with the consumption. Reached Rock Point, Jackson county, Or., and was taken down. I took a fracture of Mountain Balm, and checked the leaf more or less, and in four or five days it cleaned out my lungs, and I resumed my journey; and now, after several months, my lungs still seem well.
