ladies and gentleman going on into the city, oblivious of the loss of an entire wagon. The boys about the depot seized upon the wagon thus left adrift, and marking upon the end-gate this legend: "For Sale, pulled it up alongside Mc.'s barn. As soon as the young folks went to get out, after arriving in the city, they missed their wag-

Cloud Banners Of The Alps. Among the most exquisite scenes which delight the eye of the European traveler are those wonderful rosecolored cloud-ban-ners, floating from the Atpine cliffs. But it is only in the sunlight that Nature hangs out these beautiful tokens. So it is only in the glow of health-the sunlight of our luner being-that nature reveals these physical cloud-banners, the "rost cheek" and "cherry lip," to praise which every poet of the earth has invoked the Muse to aid him. But they are as stars as the arm

aid him. But they are as rare as the cyn-ical Hood conceived Christian charity to be. Woman, eager to retain this charm, resorts to French art and rouge. The effect is similar to that which would be produced by substituting auctioneers' flags for the delicate glowing cloud-barners of the Alps. If woman would aid Nature instead of adapting art, would seek health instead of valuity trying to mask disease, she would not only who the greatest charm of womanhool - health - but she would avert much misery both from herself and others.
