Centaur Liniments.

[Letter from a Postmaster.]

"ANTIOCH, Ill., Dec. 1, 1874.

"MESSRS. J. B. ROSE & CO.:

"My wife has, for a long time, been a terrible sufferer from rheumatism. She has tried many physicians and many remedies. The only thing which has given her relief is Centaur Liniment. I am rejoiced to say this has cured her. I am doing what I can to extend its sale.

W. H. RING, P. M."

This is a sample of many thousand testimonials received, of wonderful cures effected by the Centaur Liniment. The ingredients of this article are published on and each bottle. It contains Witch Hazel, Mexican, Arnica, Rock oil, Carbolic, and ingredients hitherto little known. It is an indisputable fact that the Centaur Liniment is penetrating more cases of Swellings, Stiff Joints, Lumbago, Rheumatism, Neuralgia, Sciatica, Caked Breasts, Lock-jaw, &c., than all the other Liniments, Embrocations, Extracts, Salves, Ointments and Plasters now in use.

For Toothache, Earache, Weak Back, Itch and Cutaneous Eruptions, it is admirable. It cures burns and scalds without a scar. Extracts poisons from bites and stings, and heals frost-bites and chilblains, in a short time. No family can afford to be without the Centaur Liniment, white wrapper.

The Centaur Liniment, Yellow Wrapper, is adapted to the tough skin, muscles and flesh of the animal creation. For horses, it will cure cases of Spavin, Sweeny, Wind Gall, Big Head and Poll Evil, are little less than marvelous.

Messrs. J. McClure & Co., Druggists, corner of Elm and Front streets, Cincinnati, Ohio, say:

"In our neighborhood a number of teamsters are using the Centaur Liniment. They pronounce it worth ten times its cost, and they have ever used. We sell as high as four bottles to one dozen of Rose's per month to those teamsters."

We have thousands of similar testimonials.

For Wounds, Galls, Scratches, Ringbone, &c., and for Screw Worm in sheep it has no rival.—Farmers, livery men and stockraisers, have in this Liniment a remedy which is worth a hundred times its cost.

PITCHER'S

CASTORIA.

Mothers may have rest and their babies may have health, if they will use Castoria for Wind Colic, Worms, Feverishness, Sore Mouth, Croup, or Stomach Complaints. It is entirely a vegetable preparation, and contains neither mineral, morphine, nor alcohol. It is as pleasant to take as honey, and neither gags nor gripes.

Dr. E. Bimoch, of Passaic, N. says:

"I am using Castoria in my practice with the most signal results, and recommend it to all my friends."

This is what every one says. Most nurses in New York city use the Castoria. It is prepared by Messrs. J. B. Rose & Co., 46 Dey street, New York, successors to Samuel Pitcher, M. D. 29v6

Van Vactor's store was broken into Sunday night, the thief making his entrance through the back door. The door in question being a sash door, all the thief had to do was to break out a pane of glass, run his hand through the opening thus made, unfasten the door and walk in. A few cigars and other goods taken, but as no money is ever left in the store over night, the thief seems to have been disappointed.

He is coming after me,
And we'll see what we shall see,

TWEEDALE'S EARLY APPLE.—It is true that while Oregon beats the world for splendid Fall and Winter apples, she has no early apples worthy the name. On Tuesday, Mr. W. C. Tweedale, of this city, exhibited to us some apples that promise to fully supply this want. They were seedlings, raised in his garden on Washington street, and were decidedly the finest early apples (ripening in July) that we have seen in Oregon. In color and shape they resemble both the bellflour and pearmain; the meat is brittle and mellow, with a most delicious flavor, being just tart enough to make an excellent dessert apple, while for making sauce it has really no superior even among the later varieties.

NEW STEAMER LINE.—The Pacific Coast Steamship Company announce their intention to run a line of steamers between San Francisco and Portland. In conformity with this announcement their steamer, the *Orizaba*, sailed from San Francisco on Thursday for Portland; returning, she will sail from Portland on the 8th inst. The Company propose placing two steamers on the route at once, to be followed by others as the trade increases. J. McCracken & Co. are the agents at Portland, and the steamers will land at their wharf. The farmers' wharf at Astoria has been leased for the same purpose. This opposition will lessen freights and fares between Portland and 'Frisco.

From Hon. W. H. Jones, of West Dover Vt.

"I have been troubled from my boyhood with chronic or hereditary lung complaint. Some years since, early in the winter I took cold, which continued to increase as the season advanced, although I made use of all the cough remedies I had knowledge of. My family physician also prescribed for me, but I experienced no relief. During all this time I was gradually running down, losing flesh and strength, until my friends as well as myself, became very much alarmed, thinking I should waste away in consumption. While in Boston, during the spring following, I was induced to try Wistar's Balsam of Wild Cherry. After one day's trial I was sensible that it was relieving me; in ten days time my cough had entirely ceased, and I was soon restored to health and strength. I have ever since kept the Balsam in my house, and whenever any member of my family has a cough or cold, it is immediately resorted to. No family should be without it." Sold by all druggists.

ROBBERY.—Last Sunday night Van Vactor's grocery store on First street was entered and robbed of sundry articles. From various causes suspicion was directed to a young man named George Anderson, who took the noon train on Monday for Salem. A telegram was sent to Salem, and officer Minto succeeded in arresting the young man and placing him in jail. Deputy City Marshal Watkins went down on the express train Tuesday morning, returning with his prisoner at noon of same day. When placed in jail officer Minto went through Anderson's pockets, and what he found he handed over to officer Watkins. Among other things was a check, which when turned over to the agent at the Salem depot, produced a trunk belonging to Anderson. Upon opening the trunk the officer struck a bonanza in the way of "store goods," such as fine pocket cutlery and several boxes of choice cigars—all having the sale mark used by Van Vactor. The prisoner was taken before Recorder Montanye at one o'clock P. M. on Tuesday, and after due examination, was held to bail in $500.

ARM CRUSHED.—On Tuesday morning, out on the farm of Councilman N. Bond, a new comer named West was so unfortunate as to get his left arm crushed between the wrist and elbow. Mr. West was engaged in starting up the threshing machine as they had just commenced harvesting, when in some way his left arm was caught in the main belt, the wheel making three revolutions before the machinery could be stopped. Sheriff Herren was present and threw off the belt attaching the machine to the power, while another party cut the belt that had caught West's arm, with his knife. The arm just above the wrist, the width of the wheel, was badly crushed, making what is called a compound comminuted fracture. The bone in one place protruded through the flesh. Sheriff Herren placed a man in his buggy and told him to go for the doctor—and when that team reached this city it looked as though it had made good time. Dr. J. L. Hill lost no time in reaching his patient, and doing all that could be done to alleviate his suffering. The patient stood the setting and bandaging splendidly, and Dr. Hill thinks he will be able to save the arm.

OUR DISTRICT SCHOOLS.—The School Directors have developed a new plan for conducting the District schools for the coming year. As we understand it the plan is simply this: They employ Mr. D. V. S. Reid as Principal of the school, giving him $500 per quarter of public money, and allowing him to collect $2 50 for each scholar per quarter, he to pay the other teachers required. There are to be three assistants, and more if the good of the school requires it. Two teachers have already been selected, viz: Misses Maria Irvine and Ella Hunsaker—both excellent selections indeed—and the other will be decided upon at once. The schools will not open, in all probability, until the first of October. The Director's have under consideration the repair of the Central school house. In its present condition it is not a fit place in which to attempt to school our children, as it is nothing but a barn. It will take three or four hundred dollars to make it at all respectable. It is high time the District erected a good, substantial house in the central portion of the city. In this respect we seem to be behind every other town in the State. As soon as possible let us have a good, large, substantial school-house in the place of the old rattle-trap that now does duty as a school-house.

OREGON TIMBER.—The *Record* tells of a prominent wagon maker of Salem who once refused to purchase a lot of oak wagon timber because it was not the equal of the Eastern article, and his customers required the best. Of course, as as an experienced work man he knew the difference between Oregon oak and the Eastern article, and knew why the latter was superior to the former, at least this would be the supposition. The experienced mechanic went to Portland and purchased a lot of superior "Eastern oak," which, not to make the story too long, turned out to be the very oak timber he refused to purchase because it was Oregon raised! It is contended that it the same pains are taken with the Oregon oak in seasoning it and preparing it for use as is taken with the Eastern, it is just as serviceable and valuable. And it also appears that when Oregon oak is so seasoned and prepared for market, experienced workmen can not tell the difference between the Oregon and the Eastern grown. A hint to the wise is sufficient.

A BOOT THIEF.—The arrest of a man for drunkenness on Wednesday, disclosed the fact that he had a pair of new boots, and that he had been endeavoring to sell them for $1. A further examination disclosed the fact that said boots didn't make a "pair," as one was a seven and the other an eight, while both were for the left foot. A little search led to the discovery that the odd 8 and 7 were still in the box at the Grange Store. Instead of a d. d., the party will stand his trial for the theft of a pair of boots. Upon his preliminary examination the man gave his name as George Daniels, and claimed that he purchased the boots at Salem. He was held to bail in the sum of $500, and failing to find in this amount he now languishes in durance vile.

STATE FAIR.—The State Fair begins October 8th and continues through the week. W. A. Llenelling has consented to deliver the opening, while Hon. A. J. Dufer will deliver the annual address. The coming promises to be an unusually interesting Fair. The railroad and steamboat lines of the State have tendered the usual half fare rates, and as everybody will have money the coming Fall, the attendance promises to be unusually large.

PERSONAL.—Mr. S. B. Story and wife, of East Portland, came up on a visit to friends in this city last Saturday. Mr. Story starts for a visit to the Eastern States about the 10th inst. He has been absent from the old homestead, twenty-five years.

ALBANY COLLEGIATE INSTITUTE—Opens on Monday, September 3d, 1877, with the following Faculty: Rev. H. W. Stratton, A. M., President and Professor of Mental and Moral Sciences; Rev. L. J. Powell, A. M., Principal and Professor of Mathematics and Natural Sciences; H. H. Hewitt, A. M., Professor of Ancient Languages; Miss Clara Price, B. S., Preceptress and Teacher of French; Miss Dora Salinger, Teacher of German; Miss Nettie Piper, Teacher of Instrumental and Vocal Music; Mrs. W. S. Peters, Teacher of Drawing and Painting. For terms and other information see advertisement in this issue. The Trustees of the College have determined to purchase a complete set of philosophical instruments for the use of the school; something we believe no other school in the State is in possession of. The teachers are the equal of any in the State and love their profession, and we expect to see the coming the most prosperous season the College has ever enjoyed. Our citizens can well feel proud of such an educational institution, and should do all in their power to foster it.

SENATOR MORTON—Accompanied by Congressman Dick Williams, Gov., Gibbs, Judge Dolph, Gen. Simpson, Gen. Odell, and a number of other prominent gentlemen of Portland and Salem, arrived on a special train from Portland in this city on Friday about noon. Word came down from the depot of their arrival, when carriages were secured, and Senator Morton and son, and others who desired, accompanied by Mayor Parker, were treated to sight of our city and its handsome public and private residences. The great Senator professed himself delighted with Albany and her people, a large number of whom congregated at the depot and gave him a cordial shake of the hand. We are sorry that the time of the Senator was so limited that he could not make a longer stay. At half past two P. M. the train returned to Salem.

HANDSOME.—While at Mr. Purdom's gallery of arts on Wednesday, we were shown the handsome medal and diploma awarded by the U. S. Centennial Commission to Messrs. Parrish & Miller, of Jefferson, for the best Flax. The medal is of bronze, handsomely ornamented, while the diploma is very neatly printed, and is to be framed in Oregon wood. Isn't it something to boast of that Oregon flax, in competition with the product of that article of the entire civilized globe, took the premium over all competitors both for lint and seed? 'Rah for Oregon!

OAK POINT SCHOOL.—The school at Oak Point, taught by W. R. Jones, closed July 20th. Whole number of pupils, 48: males, 20; females, 28. The following members of the school were placed on the Roll of Honor: Albert Patterson, John Barton, Joseph Smith, Henry Jackson, Luella Stockton, Lizzie Eagy, Mary Coney, Mary Morgan, Robert Smith, Clarence Stockton, Elmer Hamilton, and Lillie Coney.

W. R. JONES.

THE KITTATINA BLACKBERRY—To our taste, is one of the best varieties of the genus Rubus. Being sweet it takes less sugar, and the seeds are small, resembling more nearly the strawberry. It makes a most excellent desert dish. Mr. H. Kenton is in daily receipt of this fruit, and will deliver it in quantities to suit all who may desire to have it on their tables. Orders left at W. C. Tweedale's will be promptly attended to.

OATMEAL FOR THE COMPLEXION.—Says an exchange: Take the dry meal, a little in a preserve plate, pour on just enough cold water to make thin, strain through a little selve and dip a cloth into the water, wash over the face once or twice and let dry. The result, says the writer in the Household, is a beautiful complexion.

BACK AGAIN.—Capt. N. B. Humphrey, Judge Wolverton, Capt. Harper, Judge Baker, and two or three other choice spirits, under the charge of Gen. Jenks Montgomery, returned from Yaquina Bay last week. We should think from the looks of the party that they had a time.

If you want to print your name on your handkerchief, shirt, or any other article of clothing, drop in at Purdom's and get him to cut you a stencil-plate, and furnish you with a bottle of indellible ink and a brush, when you'll be fixed.

W. C. Myer offers a premium of $200 for the best family of draft horses at the coming State Fair.

E. Buchanan will sell you anything you want in the agricultural implement line at lowest rates.

You ought to see those new goods at L. E. Blain's—hats, boots, gloves, clothing, knives, jewelry, etc., etc.

The Machine Was Worn Out.

Why? Not because it was not well built; but it was wrongly run. Thousands of men who have run down long before their three-score and ten years are accomplished, might have been renewed into sprightliness and vim if they had tried the well known Peruvian Syrup, which contains among its compounds the Protoxide of Iron, so combined that it assimilates with the blood and invigorates the whole system. This syrup has proved efficacious in thousands of cases, and will do everybody good who use it. All druggists keep it. aug
