A friend who lives in the vicinity of Lebanon brought to our office the first of the week a sack of potatoes of the variety known as the Jenny Lind, thirty-nine of prairie. which made a "heaped" bushel. They are excellent, served in almost any style. He planted them in June, on common hill land, and dug them the first of November. When such fine potatoes as these can be raised here, we are at a loss to know why our people have been compelled to rely on California for the bulk of her "ground

Special Term.

Linn County Circuit Court adjourned on Saturday 'ast. Although the session lasted three weeks, the docket was not cleared. As we stated in our last number, a special grand jury was selected from the attendaut petit jury, to examine into the charge for the killing of Simonds, at Sweet Home. The grand jury returned a verdict of murder against Reid, and he was remanded to jail. To save the expense of a long incarceration, it is believed Judge Harding with call a special session next January to try this case and clear off the docket.

Failed to Fail.

People who tarried late on Thursday right of last week to witness the stars fall, as predicted by astronomer Tice, were disappointed-the stars twinkled as usual, but never a one "let hold his go." It was a most excellent night, too, for busimany disgusted people have lost faith in astronomers and their predictions in consequence. It seems that the fault is not with science itself, but with the astronomer, who simply made a mistake in his calculation of twenty years-the old codger wasn't ap in his mathematics. The astronomer secured an assistant and together they revised his "tables," discovering the mistake, and now assure the public that the meteorie shower will come off in 1899, regardless of the weather. This is quite a little while for the boys to wait, but at present we see no help for it.

A Nice Frand.

A Denver, Colorado, telegram dated November Stin, says: Sidney A. Grant, late of Cincingati, and A. F. Wilson were arrested to-day for conducting a fraudulent scheme through the mails under the name sioner. They waved examination and were committed to bonds which have not yet been given and probably will go to jail. The scheme was planned in Cincinnatt. Stereotype plates were prepared and have already been inserted in eight hundred first class newspapers and periodicals in the northern eastern and middle States. Grant came to Denver to secure land for the purpose and bought nearly a thousand turnly acres in the sand hills forty miles north of flour. Denver, which was platted and recorded as North Denver. Although known here but eight days, a perfect avalanche of mail is coming for S. A. Grant and the 'Denver Land, 'Company,' The trand was denonneed by local newspapers and bitterly condemned by citizens. Postmasters reported to the department and last night received orders to deliver no registered letters and pay no money orders to Grant. The arrest was made by special agent II. Half. Special Agent Furay is also here and asks a department order withholding

ordinary letters. All we know of the matter is that some weeks ago we received a letter from a prominent advertising agent, asking our price for inserting an advertisement of "The Denver Land Company," giving the necessary information regarding the size of the ad., etc. We answered the letter, and shortly after received through the postoffice the advertisement which appears in our columns this morning, together with the cash in advance payment for the same. It may be a humbug, but we have received our pay for inserting the ad., and the reader can make up his mind on the mat-

ter to suit himself. Drawing, Painting and Designing.
