Council Proceedings.

Council met on Tuesday evening, a full board present.

Committee on Streets reported in favor of grading petition of H. Flint for sidewalk on north side of lot 2, block 11, Hackleman's addition, which report was adopted and said sidewalk ordered built within 15 days.

The Committee on Accounts and Current Expenses presented the following report which was adopted:

To the Mayor, etc.: We your committee on Accounts and Current Expenses, having been, at the last meeting of this body, requested to investigate the city finances and report as to whether it would be expedient for the city to purchase at this time a look and ladder outfit, beg leave to report as follows: We find that last year the City Treasurer paid out the sum of \$10,187 52, and of this amount there was over \$2,800 laid out in ways which will not occur again for years. The purchase of the hose tower from No. 1's cost \$607 50. Lumber, \$125 25; fees and costs in appended cases, \$250; besides these, over \$1,300 was paid out during 1879 on orders drawn prior to that year, which the Recorder informs us in his last report, that the outstanding orders for 1879 which we will have to pay off, do not amount to \$100. Putting these different amounts together they read as follows:

Old orders paid.....\$137 23

Fees and costs in appended cases..... 250 00

Newel's tower..... 625 25

Hose tower..... 607 50

Total.....\$2,810 32

This amount is the surplus we have to work on, as the remainder of the \$10,187 52 will be used as current expenses and to pay the Willoughby note, which we have not taken account of only by putting it in among the current expenses, the same as last year. The whole amount of saloon license last year was \$1,990, so that if we should lose all of it, we would still have a balance of over \$800. Taking all this into consideration, we beg leave to report that the city is abundantly able to purchase. All of which is respectfully submitted,

J. L. HALLER, Recorder.

R. S. MORTIS, Mayor.

The committee on the resolution to license drug stores, was granted further time to report.

The Marshal's report for January was read and placed on file.

On motion the vote giving the city printing to the Democrat, passed at the last session, was reconsidered, and the Recorder ordered to proceed with the letting of the city printing as required by ordinance.

On motion, the ordinance relating to city police was placed upon its final passage and passed. Said ordinance to be in force and take effect five days after publication.

On motion, ordered that the Democrat print above ordinance in next issue. [See ordinance in this issue of the REGISTER.]

Communication from Board of Fire Delegates read and approved.

On motion it was ordered that the purchase of the hook and ladder apparatus be referred to the committee on Fire and Water.

On motion, the statement of G. F. Simpson in regard to purchasing lot for Lion Engine Co. No. 2, was referred to committee on Fire and Water.

On motion of Martin, the Marshal was ordered to erect a lamp at southwest corner of Washington and Seventh streets.

On motion of Scott, the Marshal was ordered to regulate the beat of the night-watch by stationing one above and the other below Broadbush street.

A motion was offered by Grindwold, directing that all new lamps ordered erected by the city be the tubular lamps. The motion was amended by Rice, that the matter be referred to committee on Streets and Public Property, and passed as amended.

Bill of W. N. Miller passed under suspension of the rules—\$45.

Lebanon Items.

From our regular correspondent under date of February 10th:

Roads are drying up, and traveling is now much more easy than a few weeks since.

The W. B. ... not very hard on cattle in the ... We are informed that Mr. A. Saltmarsh, living about two miles east of this place, out of about two hundred head of cattle, has only lost one head.

Mr. David Andrews, our new Postmaster, took charge of the postal department in this city yesterday, and within four hours thereafter, he had it moved from first door north of the St. Charles hotel, to first door south of First street, about two blocks south.

Mr. Andrews has an eye to business, and "is the right man in the right place" in the postoffice.

The doctors of this place report considerable sickness in the immediate vicinity; the patients are mostly children who are afflicted with lung fever. No deaths.

Mr. Joe McDonald, who has been attending school at the Santiam Academy in this city, started yesterday morning for Weston, Umatilla county. Good bye, Joe; we hope to see you again here long, though.

The drug store of Dr. J. M. Powell will be moved during the latter part of this week from Irwin's block to the postoffice building. The business part of Lebanon will be drawn to a focus of about one square block as soon as this is done.

John Dougan, proprietor of the "Dew drop" saloon, has closed his place of business in this city, and we understand is shortly to move his goods to Sweet Home. That makes two saloons closed here during the past year, and there is one more to close yet.

The united forces of the Methodist Episcopal Church North and South, are holding a protracted meeting during the present week at the C. P. Church in this city. The Reverend Mr. Jenkins, of Sheild, and Nichols, of Brownsville, are engaged in the pulpit, and are doing a good work at an appropriate time, for never has Lebanon needed a meeting of this kind more than now.

Big failure here creates a sensation in business quarters.

J. T. Black, Esq., reports one-third more grain growing in the vicinity than at corresponding date last year.

Black & Co.'s farmers' store is doing a large share of the trade by quick sales and small profits.

The Villard House is doing a good business, being new and popular.

A Splendid Paper.

We have received a copy of the Muskegon, Michigan, Chronicle, the holiday edition, a triple sheet with supplement, (thirteen pages), containing a full description of the city and surroundings, embellished with engravings of its principal business houses, mills, etc., making a splendid number. One thing we can say of a certainty that the business men of Muskegon are enterprising and liberal, as is shown in the manner and style of advertising in the Chronicle. It is certainly a creditable number to the editor, Mr. W. M. Harford. Success, old boy.

Last week, says the East Oregonian, Howlcek made a good Indian out of Capt. Jack, a Cayuse, who was on a bender, by splitting his head open with an ax. The Capt. will be mounded but little by his tribe, and the whites generally hail the news of his death with satisfaction. He was always a "bad egg."

Revival Meetings.

Rev. A. J. Hunsaker commences a series of meetings at Gingle's school-house in Benton county (soap creek) this (Friday) evening.

To any one sending us ten new subscribers with the money (\$15), will send free for one year one copy of the REGISTER and one copy of the American Agriculturist, the leading agricultural journal of America.

Something Frisky.

"Got something frisky?" he asked as he walked into one of our livery stables the other day, and called for a saddle horse.

"Something that will prance about lively and wake a fellow out of his lethargy, I used to ride the trick mule in a circus, and I reckon I can back anything that wears hair."

They bore him home and a spotted calico-colored beast with a vicious eye, and he mounted it and dashed off. Before he had gone two blocks, the animal backed, crashed through a high board fence and plunged into a passing vehicle, tossing the rider over the top of an adjacent building and landing him on the rugged edge of a lawn mower.

They bore him home, straight-ghetted him out, and plastered him up with raw beef. A few weeks later he called at the stable and said that if they had a gentle saw-horse with an affectionate disposition, a bridle with curb bit and martingales, and a saddle with two horns and a crupper to it, he believed he would go up in the hay mow and get up around a little where it was soft, and it wouldn't hurt him if he went to sleep and fell off as he did the other day.

True Merit Always Wins.

In these days of sham it is refreshing to become acquainted with true merit. "For value received" could be appropriately printed on every subscription receipt given by Andrews' Bazar.

This marvelous paper with its low price, only \$1.00 per year, is a perfect gem in the literary world, published in America. Always original, reliable and in advance, it is the acknowledged standard English authority of this country.

Its low price, every subscriber is prescribed free with 50c. worth of patterns; and all those who subscribe for 1880, beginning with the January number, will receive as a present a magnificent Supplement, 32x44 inches in size, which contains designs for fancy work which could not be obtained from any dealer for \$10.00.

For an appropriate gift to mother, wife or sweetheart we can surely think of nothing better than a year's subscription to Andrews' Bazar. All communications should be addressed to W. R. Andrews, publisher, Tribune Building, New York.

We Can't Talk.

Without showing the condition of our teeth, Everytongue exposes them. In order not to be ashamed of them let us use that standard dentifrice, SOZODONT, which is sure to keep them white and spotless.

No tartar can erode them, no canker affect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. It is a botanical preparation, and its beneficial effects on the teeth and gums are marvelous, as it removes all discolorations, and renders the gums hard and rosy.

A Humist.

Last Sunday, Walker, the hunter, who lives on the Sterling ranch at the foot of the Skillyons, killed two large panthers which he found feasting on the carcass of a buck they had just killed, and on Monday he killed another panther and two wildcats, the panther measuring six and a half feet from tip to tip. Mr. Walker should have a pension.
