Attend the Primaries.

By all means attend the primaries to-

Remember that the success of the ticket depends upon the character of the candidates placed upon it.

Remember that the delegates elected to the County Convention will make that

Remember that we depend entirely upon the judgment and character of the delegates chosen on Saturday for the personnel of our ticket.

With competent, honest, sober, energetic men for our candidates, we may hope to win ; the reverse of this and we have not an earthly show.

It is important, then, that we have a full turn out in each precinct in the county; that the best men in each precinct, representative men, be chosen as delegates to the County Convention; that each delegate chosen pledge himself to attend in sersen, and not by proxy, and then we may confidently expect the selection of a ticket of which we as Republicans will not be ashamed, and for which we can both work and vote for cheerfully.

We may then expect a live ticket : candillates who will work for themselves : men who will show by their work that they are deserving of the honor shown them by placing them on the ticket as our standard-bearers, and who will put new life into the party.

Then let us go into the canvass with heart and wul, determined to win-and success must be curs.

Prepare for Business.

The Democratic nominees are before the people, and we must say the selection is unusually good. As Republicans we have a square fignt to make. Let no one flatter himself that any little "sorenes" caused by candidates before the convention being defeated, will innure to our benefit -they will all vote right on election day. We must nominate a better ticket, it we wish to win, and not only select candidates that are in earnest and will work, but as a party we must back them, each woter putting in his work strong and judiclously. Our best and truest and most competent men must be nominated. We must lay saide all past jealousies and bickerings, and sudte in one strong pull, a pull altogether, if we wish to win. So mote it be.

Tough Pulling.

There were six caudidates for the office of County Judge before the Democratic Convention, and three ballots were had before a nemination was secured, the last vote standing-Bilyen 50, S. A. Johns 22, E. N. Tandy S.

For County Clerk there were seven can-All votes on best mound.

For Sheriff there were eight candidates and six ballets, Miller getting 38 and Humphrey 35.

For Treasurer there were nine or ten -candidates and dive ballots, Umphrey's yote being 41.

For Assessor there were five candidates and two ballots, Williams getting it with 38 votes.

There were 75 wotes in the Couvention and it took 38 to elect.

The Public Breathe Easter

A report came over the line Monday af-

ternoon that the steamship City of Mexico, with Gen. Grant and party on board, had gone-down in the Gulf, and all on board were lost. A terrible storm prevalled at the time, and as the steamship was report-

ed behind time, and all taken together the dread intelligence caused intense excitement from one and of the continent to the other. On the 23d, however, Galveston telegrams brought the joyful news that the vessel had arrived at that port, and the General and party had disembaraed in good health and spirits, meeting with a grand ovation from the military, societies, and citizens. The whole country seemed to breathe easier upon the announcement of Grant's safety. And this little episode shows what a fast hold the General has

They are now in a fair way of having a closer view of the Mongolian brother than has beretofore been afforded them. The Chinese have taken up their Eastward march, and unless we are greatby mistaken the Asiatic influx will speedily produce a medification of Eastern opinion on the subject of Chinese labor. Chicago and New York have already received large installments of the Chinese emigration from this coast. But the influx has not yet been sufficiently large to enable the people of Litnels and New York to realige the crits of which California has so misimude And yet there are already, at this early stage of the exodus, calcable symptoms that the presence Chinamen in Eastern communities seedily bring about a modification is baselofere prevalent in that quar-
