Impure Breath.

Among all the disagreeable consequence that follow the decay of the teeth, an impure breath must be the most mortifying and unpleasant to its possessor, and it i the most inexcusable and offensive in society; and yet the cause of it may easily be removed by cleansing your teeth daily with that Justly popular dentrifice, Fra grant SOZODONT. It purifies and sweetens the breath, cools and refreshes the mouth, and gives a pearl-like appearance to the teeth. Gentlemen who indulge in smoking should cleanse their teeth with SOZODON I, as it removes all impleasant odors of the weed. Ask your druggist for Pleasant Occasion.

> Lebanon Notes. LEBANON, Or., July 12th, 1880. ED. REGISTER :- Having spent about eight menths in the country known as "east of the mountains" or the "upper country," I can say that, although many

things can be truthfully said in its favor perhaps more can be recorded against it. The Walla Walla country has a good soil and lays well generally, and produces vention, returned on the last steamer, abundant crops of grain, vegetables, fruits etc., while the Palouse and Snake River taking the cars yesterday for home. The countries are rough and better suited for trip, lasting nearly three months, proved grazing, except parts of the former, which beneficial to Mr. Tompkins, we are gladmay be classed as rolling prairie and valley to note.

With good markets the farmers of the Walla Walla valley could do very well raising wheat; but as it is, the profits are July 15th, 1880; pretty well "scooped" by the time the Mariott, Henry wheat is in market. His vegetable cough drops for coughs, colds, hourseness, sore throat, whooping cough, influenza, brouchitis, asthma, etc., is on top, while his troches, for throat and lung affections, are the boss in their line. Pair's English pad, for the cure of all malarial, miasmatic and contagious diseases, without filling the system with drugs, has a wide reputation. Dr. Parr argues that absorption is the only mode of treatment that combines common sense and reason, and warrants the English pad to cure all malarial discases without the use of other medicines. This will be hailed with delight by all persons who dislike to take pills and nanseating drugs. Mr. R. Quite a Storm.

A thunder shower visited this part of the valley on Saturday inst. The rainfall in this city was slight, but east and south of us the rain was much more abundant. For a short time the rain came down lu torrents in Lebanon and vicinity, making miniature rivers of the streets. Just beyoud Lebauon the lightning struck a large tree and shivered it from top to bottom. When the lightning struck that tree the reverberation discounted a park of artillery. We have heard of no material damage resulting from the storm.

The Picnic at Roberts' Bridge.

There was a large attendance at the school pienic at Robert's bridge on Saturday, but as it ramed more or less all day the expected pleasures of the occasion were interferred with, and the crowd lett for their several homes at an early hour. Owning to threatning look of the heavens in the morning, Dr. Watts did not make his appearance on the grounds. State School Superintendent, Prof. Powell, was present and made a very interesting speech. De-pite the min, the programme was earried out, and under the circumstances was good enough. Had the weather proved fair, an immense crowd would lave been present.
