LOCAL MATTERS.

Seriously Hurt.

On Saturday last a party from Newport, on Yaquina Bay, started for a visit to Siletz. The party consisted of Mrs. Abby, Misses Alexander and May McDaniel, Ed. Haffenden, Mr. Crow and James Dixon. The party rode in a thoroughbred hack. In the vicinity of Frank Stanton's place, as they were crossing a dry swale in which poles had been laid to keep vehicles from entirely disappearing in "soft" weather, a part of the load hooding it over the rough road, leaving Miss McDaniel to occupy the rear seat all alone, the fore wheels dropped down into a rut with a jerk, the rear end of the hack rebounding with such force as to pitch Miss McDaniel head first to the ground. Fortunately she struck in the mud, otherwise her neck would have been broken. As it was she was taken up senseless, and although everything that could be thought of was done to resuscitate her some time elapsed before she gave any signs of returning animation. Owing to the mishap the party were unable to return to Newport until Monday. We omitted to mention that Mayor Clark and family were in the company, in their own conveyance, of course. It was the intention of Miss May and friends to start on their homeward trip on Tuesday last if she was able to travel.

Personal.

Rev. J. T. Wolfe goes to Siletz Indian reservation as Superintendent of instruction for the next two months. We hope it may prove a pleasant and profitable year to him and his.
Rev. Isaac Dillon who is to fill the pulpit of the M. E. Church in this city the coming year, has the reputation of being one of the most popular and earnest preachers in the Oregon Conference. We have not learned when he is expected to arrive here.
Mr. N. C. Hawks, of the Pacific Type-Foundry, San Francisco, arrived in the city on Wednesday. He was taken very ill while on his way overland beyond Roseburg, and was compelled to lay over nearly two weeks, but his health is gradually improving, and he is expected to go to Portland to-morrow or Monday.

Spec.

On Tuesday Mr. G. F. Simpson and a gentleman from Portland, got into a buggy in front of Mr. S.'s business house on First street, and gave the word for his game little three-year-old to travel. Quick as a flash she started to make the turn down First street; the suddenness and shortness of the turn upset the buggy, throwing both men to the ground. Mr. S. held on to the strings, and the mare was stopped, the buggy righted, the men resented themselves, and proceeded on their way. The mare is as quick as a flash in all her movements and requires a steady nerve and strong hand to hold her level.

The Oregonian.

For September, affords excellent reading. It is even an improvement on former issues. Its contents are varied and entertaining, and can not but please the wide awake people of the Pacific slope. The magazine is growing in popularity every day, and will soon have a wide-spread circulation. Published at No. 202 Sansome street, San Francisco, by the California Publishing Co., at \$3 per annum.

Tires Iron.

Have just received a large invoice of gold and silver watches and jewelry, of the latest designs. Also have for sale the New Home sewing machine, manufactured since the expiration of patents on sewing machines, and combines the good qualities of leading machines. Call and see.

Presbyterian Church.

Service will be resumed next Sabbath morning. The congregation will assemble at the chapel of Albany Collegiate Institute. Sabbath School immediately at the close of the morning service. In the evening the pastor will deliver the first of a course of lectures on the life of St. Paul. A cordial invitation for all.

Unanimously Recommended.

The Oregon Methodist Conference unanimously recommended the appointment of Hon. F. M. Wadsworth, of Benton county, to be Agent at Siletz Indian reservation. As this reservation is the prize of the Conference, Mr. Wadsworth will doubtless get the appointment. He will make a good agent.

A Card of Thanks.

We take this means of tendering our thanks to Dr. J. L. Hill for his very attentive service, and to our neighbors and friends, and the K. of P. for their kind assistance and sympathy during our late bereavement.

The Ague Remedy.

Prepared by D. Plummer, is proving a popular and effective medicine. Without advertising, it has by its merits extended the demand to adjoining localities. Being pleasant to take, and affording a certain and speedy cure, recommends it to all.

There will be preaching at the M. E. Church of this city next Sunday evening by Rev. J. T. Wolfe. No services in the morning.

NARROW GAUGE.

BROWNSVILLE, Or., Aug. 25th, 1880.
ED. REGISTER:—Since my last letter the smoke is not quite so thick, and the weather is comfortably cool.

Harvesting operations are progressing rapidly, and the yield is quite good, and the quality is first class.

From the present appearance of the weather it don't look as if we shall have any rain to trouble the grain till the farmers all get through threshing.

Last Monday, the wife of Mr. Nils Thompson, a son was born, while he is up on Willow Creek looking after his interests there.

Mrs. E. Rockwell has been very sick with a large carbuncle on the back of her neck, but is getting better now.

Since the weather got cooler Mrs. C. Cochran is troubled with rheumatism, and feels quite poorly.

As a chronicle of passing events it becomes my painful duty to mention an affair that happened in our little town late last Saturday evening. A three-horse crowd near town finished a job of threshing, and having a keg of beer, most of them got intoxicated, and one of them, Mr. Marion Angell, came up town to the blacksmith shop of J. D. Arthur, and got into a dispute with Mr. A., which wound up in a few minutes by Mr. Angell getting his jaw broke. There is a very good moral in this transaction if all would only take heed, and it is this: never drink any beer and you will not get your jaw broken.

Walt, Jack has got his porch finished, and a new set of stairs, and it is a great improvement.

Mr. J. D. Arthur has also got a new porch added to his house, which accordingly to the good looks and comfort of his home.

We are sorry to say O. P. Co-how, Esq., is confined to his house by sickness.

The saw mill had shut down till after harvest, but as the railroad needed considerable timber, the mill has been running most of the time for the last week, with a new crew of hands, Geo. A. Dyson acting as engineer.

Another gang of Chinamen arrived here this week, and are at work grading the switch, and a lot of carpenters are at work laying the foundation for a warehouse 30 by 70 feet, and more hands are soon to be put on and the work will be pushed through as rapidly as possible. Work on the road is progressing finely, and it is confidently expected that the cars will be here by the middle of October next.

The great demand for men and teams here still continues, and as the Company intend to build two more warehouses just below here, work is likely to continue some time. Many strangers are here every day, and things are beginning to take shape for a rapid growth in the near future, at least such is the prophecy of

NARROW GAUGE.

Severely Injured.

On Monday forenoon, as Mrs. Geo. F. Simpson, accompanied by her oldest son and another boy from this city, were driving toward Taigent, the animal attached to the buggy shied or jumped suddenly to one side of the road. The suddenness of the movement threw both boys out of the buggy, and Mrs. Simpson attempted to gain possession of the lines dropped by her son as he was thrown out of the vehicle. As she was reaching to obtain the lines, the fore wheels of the buggy struck a considerable bank on one side of the road, and repairing it, with such force as to pitch Mrs. Simpson to the ground head first. It was a fearful fall, and while no bones were broken, her head and face were severely contused, and it was some time before she fully recovered the use of her faculties. The animal, finding herself free of all control, trotted off down the road a considerable distance and then stopped, where she was found shortly afterward by one of the boys and driven back. It was a painful accident, and the many friends of the lady will be pleased to learn that she is not likely to suffer any permanent injury from it.

Down in the Dust.

Last Friday a carriage load of young people started for the country in high spirits. They made good time for a short distance, and made light of the intense heat and painful dust that enveloped horses and carriage like a cloud, until, like a flash of light, something gave way and down came the whole business into the unfathomable dust. As soon as the team could be quieted and the fair occupants hauled out of the dust, it was found that the king-bolt had broken and two other bolts given way causing the downfall. After considerable trouble, a fair amount of perspiring, and the expenditure of a good deal of solid talk, the vehicle was patched up, and the party sailed back to the city to slow music. This king-bolt business must be looked into more closely, else somebody'll be out and injured.

Almost a Big Fire.

On Monday a fire was started on the farm of Bob Carter, just in the southern edge of the city, in the straw where he had been threshing his wheat. There was a large quantity of dry straw, and the wheat, sacked and ready for hauling to the warehouse, was in the midst of it. The fire is supposed to have caught from the locomotive. The fire, fortunately, was discovered in time, and with considerable exertion was extinguished.

All Kinds of Lumber.

We have for sale at Lebanon and Grass-ridge some 300,000 feet of lumber, such as scantling, joists, baro timbers, boxing, fencing, and other rough lumber. At Lebanon we have a superior lot of dry lumber, consisting of rustic, flooring, etc. Owing to the late fire, we are offering this lumber at reduced rates. Address us at Lebanon.

Committee on Fire and Water recommended that One's house and Hook & Ladder house be insured in the sum of \$1,000, in some good company.

The report was adopted and the Recorder instructed to attend to the matter.

The same committee reported the painting ordered of One's house and Hook & Ladder house, by Mr. A. T. Arnell, completed according to contract, and that he had done \$5 worth of extra work, and that a warrant be drawn on the treasurer for the sum of \$43. The report was adopted.

The same committee recommended the appointment of John Jones as engineer for Two's, and nightwatch as well, to receive for the first \$20 per month, and for the latter service \$50 per month, the service to commence at once. The report was adopted.

Committee on Fire & Water reported in the matter of the washing away of the bank at the foot of Broadalbin street, that the Marshal be instructed to notify the owner of the mill at the foot of said street to change the spot in some other direction so that the water will not wash down the bank.

The same committee reported on the petition of Dr. Pinner to erect a water tank in front of Odd Fellows' Temple, denying the petition.

The special committee to investigate city liens, asked two weeks further time, and there being no objection, the same was granted.

A petition signed by A. D. Rogers and Joseph Allison, asking for a sidewalk across the railroad block on the east side of California street, between Ninth and Tenth streets, was referred to committee on Streets and Public Property.

A petition asking that the drain along the south side of First street, from the pump in front of S. E. Young's to the REGISTER building on corner of Ferry street, be extended west to Washington street, was granted, and on motion, the property-holders were ordered to put in the same within fifteen days.

A communication asking the attention of the City authorities to the Canada bridge, supposed to be growing on some of our streets, was read. On motion the matter was referred to the committee on Health and Police.

A petition from Lion Engine Co. No. 2, asking for a tender, was read, and on motion, Fred Willert was ordered to build the same for the Co. in thirty days. The tender will cost \$90.

A resolution asking the committee on Ordinances, with the aid and advice of the City Attorney, to prepare an amended charter for the city, and submit the same at the next regular meeting of the Council for its approval was adopted.

On motion the Marshal was instructed to build the fence between Mr. Fry's lot and the city property on Lyon street. There is about twenty feet of fencing to be constructed.

A. J. Hunt, fees, etc., \$37.60.
J. L. Halter, fees, \$12.55.
W. H. Miller, clerk of election, \$1.50.

On motion the committee was instructed to draw an ordinance fixing any person blowing a police whistle, except when in actual need of assistance. Boys and others who have been in the habit of blowing whistles to the annoyance of the police heretofore, will take notice that a repetition of such acts will cause their being locked up and fined.

Adjourned.

For Contempt.

A man named Wm. H. Harrison was arrested by deputy sheriff S. H. Claughton, in this city on Sunday, per order of the Sheriff of Multnomah county. It seems that Mrs. Harrison had sued for and obtained a divorce from William Henry; she had also sued for the custody of their offspring, a girl some ten years of age, and the Judge had taken the matter under advisement, ordering the parties to appear at another day for his decision. In defiance of this order of the Court, William Henry Harrison secured the child, and came to this city, leaving her at the Revere House, and going into the harvest fields to work. Upon his appearance in this city on Sunday, he was arrested for contempt of the order of the Court as above stated, and taken to Portland to answer.

Thanks.

We are indebted to Wells, Fargo & Co. for a copy of their Express Directory for 1880, a very convenient and handy work to have in the office. It gives a list of principal points in territory occupied by Wells, Fargo & Co., showing the proper express offices for way-billing, etc., with a full list of the Co.'s offices.

Tender ordered for Lion Engine Company by the Council was just the thing to be done. As there was no way provided to carry fuel on the engine, in case of a fire any distance from the engine house, especially in the night, the sacks containing coke had to be carried by hand—and a two hundred pound sack, especially in mucky weather, is not the easiest or cleanest thing to handle. A tender in which to haul the fuel was an absolute necessity to the complete efficiency of the steamer, and the prompt compliance of the Council with the request of the Company, cannot be too lightly commended.

A Good Sheep Tale.

If any of our readers recognize a familiar face in the following, they can laugh as much as they please, but they must keep mum:

A man in rather indifferent circumstances, surrounded by a large family, being entirely out of meat, had recourse to the sheepfold of a neighbor, (a wealthy farmer) for relief. The neighbor, having a large flock of sheep, did not perceive he had lost any until one of the finest of the flock, very large and fat, was missing, and counting his sheep, he found he had lost several.

Unable to account for this extraordinary loss, he resolved, a few nights after, to watch. About midnight, he observed an uncommon disturbance among the sheep, by the sudden appearance of a man dressed in disguise. Curiosity, as well as to observe the conduct of the person so as to find him out, induced him to be still. In the flock there was a ram with which, it seems, the man was in the habit of conversing, as if he had been the actual owner of the sheep.

"Well, Mr. Ram," said the nocturnal visitor, "I have come to buy another sheep; have you any more to sell?"

Upon which he replied himself, as in the person of the ram:

"Yes, I have sheep to sell. By this time the owner of the sheep perceived him to be one of his neighbors."

"What will you take for that fat wether?" said the purchaser.

"Four dollars," says Mr. Ram.

"That is a very high price," says the man; "but, as you are so good as to wait on me for the pay, I think I will take him. Well, Mr. Ram," continues the honest sheep buyer, "let us see how many sheep I have bought of you."

"If I am not mistaken," says Mr. Ram, "this is the fifth."

He then went to cast up the amount of the whole; and, after giving Mr. Ram a polite invitation to call on him for the pay, and bidding him good night, left the wether at home, while the owner lay laughing at the novelty of the scene, as highly gratified as if he had received ample pay for the whole.

A few nights afterwards, when he supposed his neighbor was nearly out of mutton, he caught the old ram and tied a little bag under his neck, and placed a piece of paper between his horns, on which he wrote in large letters: "I have come for my pay!" Under the line he footed the whole amount of the five sheep, exactly as his neighbor had done, as before related; he then took the ram to his neighbor's house, where he tied him near his door, and went home.

When the neighbor arose in the morning, he was not a little surprised to find a sheep tied to his door; but it is beyond to express his astonishment when he found it was the old ram with which he had been dealing so extensively in mutton, with his errand on his forehead, and the amount of the five sheep accurately made out, as he had done a few nights before, in the person of the ram.

suffice it to say, he obtained the money and, after tying it up in the bag, and tearing the paper from his horns, he set the ram at liberty, when he immediately ran home, jingling his money as if proud of having accomplished the object of his errand, to the no small gratification of the owner.

Died.

In this city, August 26th, Irma C. Henton, aged 6 years, two months and 20 days, of scarlet fever.

Little Irma was as beautiful in mind and heart as in feature and form; the idol of her parents, captivating all hearts by her winsome ways. Armed to the Teeth.

Is a very common expression, but we think that arrived to embellish and preserve them to a ripe old age is decidedly more appropriate. This can be done by keeping yourself supplied with a bottle of that splendid dentifrice, fragrant SOZODON, which will beautify the teeth and preserve them from the ravages of decay. SOZODON contains no acids of gritty substances which injure the enamel, but is composed of rare and antiseptic herbs, which have a beneficial effect on the whole economy of the mouth.
