

Register.
City Paper.
TODAY, NOV. 5, 1880.

LISTEN
TO
THE VOICE OF THE PEOPLE:
This IS A
WAR
AND DON'T YOU FORGET IT!

THE RESULT.
It affords us unbounded pleasure to announce that Garfield and Arthur have been elected President and Vice President, respectively, of this Nation. We are proud to know that the REGISTER was an honorable instrument in securing this success. We are pleased to know that the peace and prosperity ushered in and carried right along by the Republican party, is to be continued to the citizens of this Nation indefinitely, under the wise and liberal policy of the leaders of the Republican party.

It is a proud day for every patriot and lover of his country, for again it has been decided that this is a Nation, and the announcement has been so loudly proclaimed that the most sudden and unrepentant resident of the solid South will be able to take it in.

Following shows how the great Eastern States cast their votes:

GARFIELD STATES.
Colorado, 3,000.
Connecticut, 2,500.
Illinois, 35,000 to 40,000.
Indiana, 5,000.
Iowa, 85,000.
Kansas, 50,000.
Massachusetts, 30,000 to 40,000.
Maine, 4,500.
Minnesota, 25,000.
Nebraska, 25,000.
New Hampshire, 3,000.
New York, 25,000.
Ohio, 30,000.
Oregon, 300 to 900.
Pennsylvania, 35,000.
Rhode Island, 5,000.
Vermont, 25,000.
Wisconsin, 30,000.
Michigan, 25,000 to 28,000.
California, 2,000.

HANCOCK STATES.
New Jersey, estimated at 500.
Delaware, 500.
Maryland, 16,000.
Virginia—no estimate.
Mississippi, estimated at 10,000.
North Carolina—no estimate; Democrats lose in every county.
South Carolina, 34,000.
Florida, small majority.
Louisiana, 25,000 to 30,000.
Tennessee—still mixed. Hawkins, Rep., stands a fair show to be elected Governor, and it is believed the Legislature is Republican, securing a U. S. Senator.

West Virginia, 5,000 to 6,000.
Missouri—no estimate.
The House of Congress is Republican by eight majority, but the Senate is still in doubt, both parties claiming it.

Election Returns.
Following are the election returns so far as heard from:

Benton county—30 Republican majority.
Clackamas—202 Republican majority.
Columbia—about 100 Republican majority.
Coos—estimated 50 Republican majority.
Clatsop—estimated 100 Republican majority.
Douglas—close; latest figures being—Garfield 793; Hancock 715.
Jackson—Democratic majority 314.
Lane—so far as heard from Hancock gets about 50 majority.
Linn—Hancock gets 274 majority.
Marion—Republican majority 667.
Multnomah—Republican majority of 494.
Polk—Republican majority of 54.
Umatilla—estimated Hancock majority 300.
Wasco—Hancock's majority is less than 100—may double it.
Washington—Republican majority estimated at 275.
Yamhill—Republican majority estimated at 100.

The Republicans go to the Cascades with 1558 majority, which indicates the election of the Republican ticket sure by 900. Eastern Oregon can't beat it, and we shall elect Garfield in this State by a good round majority.

A grand Republican ratification and jubilation will be held in this city soon, it may be on Monday evening. As soon as the matter is decided upon, general notice will be given so that all may participate. It will be a rouser, and everybody'll want to be on hand. The intention is to illuminate all over the city. Let us have a rouser, the boss meeting of all the blowouts ever held in the city. We are upon it loud.

The Democrats claim Linn county by 274 majority, and we are not prepared to dispute the claim. The large number of railroad employees (narrow gauge) made a great difference in the vote of Linn. If there had been none but legal voters polled, and only residents of the county voted, the majority would have been very small again, even if it had not been for Garfield,

Push and Energy Required.
Manufactories make a city or town grow—give it solidity. The more you have, the better for the place and the communities surrounding it. They stimulate trade; create a firmer demand for real estate; keep the money at home that would otherwise go to outside communities and never return.

Suppose the sum that is sent out of Linn county to purchase agricultural implements annually, aggregates one hundred thousand dollars—does a single dollar of that money ever return to the county? Is it not an absolute loss, a drain upon the financial vitals of the county? On the other hand, suppose that agricultural implements to the amount of one hundred thousand dollars are manufactured in Linn county and sold to our producers, nearly every dollar of which remains in the county and is used in building up and developing our resources—is it not better for the general welfare?

If the surplus or profits of each year are sent out of the county, in the purchase of commodities that can and should be produced in that country, how long will it be before that country is utterly bankrupt and goes to the wall?

Our care should be to encourage every useful industry in every way. We have the natural and artificial means to become a great manufacturing city—why not use them to their utmost limit? Let us not be niggardly in these matters, but not only give all useful industries our best wishes, but aid them with coin to the full extent of our ability. If the proper aid had been extended we might now be enjoying the benefits of a large manufactory of agricultural implements; also, a woolen factory. We need both. Think of these matters. We have natural advantages, but they are only valuable as they are put to a good use. Let us utilize every advantage—we need to husband every resource and seize hold of every advantage, if we do not care to be left behind in the race for growth and power.

Democratic False Prophets.
"I am as positive that Hancock will be elected as I am there is a God in Heaven," wrote Bob Toombs.

"Indiana will give Hancock an overwhelming majority on the second day of November," said all the Democratic papers.

"New York is sure for Hancock by 50,000 majority, and don't you forget it," said the *Anti-Slavery*.

"Illinois is sure for Trumbull and Hancock," reiterated the *Times*.

But, alas! These were false prophets, sons of Babel, so to speak. In the language of an old and faithful—too faithful, in fact—Linn county Democrat, on Tuesday "the last vestige of Constitutional liberty (for the fifth time at that) disappeared from this country," and we are in the hands of the dread Republican party! We are again captured by the Union savers for four years of "tyranny" and "oppression," during which time we may continue to prosper and flourish as in the past.

What has become of this great National party that was going to elect Hancock by such an all-blazing majority? Has it gone to Philip? Or did it invest in a DeGolyer pavement contract and get busted? Perhaps it tried Credit Mobilier and went "short" on it. It is just possible that it was too Philpy on the Chinese business—wrote too many letters. Or did the free trade inwardness catch all its shekels? As for the great Constitutional principles advocated by Hancockism—tissue ballots, shot-gun policy, fraud, intimidation, murder, whipping bees, etc.—the last vestige of all of these great Constitutional ("solid South") principles will soon be wiped out of existence under the Garfield administration. The day of reckoning is at hand for all these Southern crimes.

Better Than We Expected.
The result of the election is all that the most sanguine Union man could have expected, and even better. Besides electing the President and Vice President, the Republicans have secured the next Congress—by a large majority in the House and enough in the Senate.

It begins to look now as if Nevada and New Jersey as well as California and Oregon had cast their lot with the Garfielders. And even in Tennessee there seems to be doubts as to the electoral vote. Why, it begins to look as though the Hancock party was a myth—it's getting too small to count.

The Northern Democracy is now engaged in attempting the solution of the problem why the 188 electoral votes of the solid South didn't elect Hancock. It is a pleasant and agreeable pastime to them, and we are glad they enjoy it so much,
