

What is Meant by the Democratic Free Ballot.

The following telegram dated New York, Nov. 16th, is an indication of what the Democracy of the South means by "free ballot":

The Tiger club of Greenville county South Carolina, recently celebrated the Democratic victory in that State and adopted the following resolutions:

1. That from henceforth we pledge ourselves to discard any man, white or black, who voted with the radical party, and that we will not rest any of our lands to, or have upon our premises such men, until they prove their sincerity to honest government or the Democratic party by words and deeds.

2. That we earnestly call upon the people of our county and State to join hands with us in this matter as the only course for the people to save the Government from corruption and fraud.

3. That we beg the citizens and merchants of Greenville city to discharge from their employ any white or black radical and fill their with Democrats.

4. That we discontinue any man who will violate the above resolutions and consider him wanting in loyalty to his party and an enemy to good government.

5. That no tenents whom we may have on our places shall be allowed to have in their employ any white or black radical; that any voter a stranger to us who may apply to us for employment, must produce satisfactory evidence that he is a Democrat.

Foreigners in the Chinese Service.

The Celestial Empire says: Of the foreigners now holding commissions in the Chinese land forces, there are two Frenchmen in Kan-su, one German at Chiefo, one at Tientsin and one at Shanghai, one Englishman at Tientsin and one at Hankow.

Samuel M. Corey has confessed to perjury in the Philip trial.

The details of the confession we have not seen, but the statement of the N. Y. Times is that the price of his late swearing was paid to him out of the funds of the National Democratic Committee.

A Year People.

The current number of Harper's Magazine contains an interesting article entitled "Securing a Competence," in which the writer states that "the average annual income in Great Britain is \$165; in the United States, \$165; in the Low Countries, \$130; in France, \$125; in British Colonies, \$90; in Germany, and in Scandinavia, \$85. The annual accumulation of wealth in Germany is \$200,000,000; in Great Britain, \$325,000,000; in France, \$375,000,000; in the United States, \$825,000,000! Since 1850 our annual accumulation has been \$825,000,000, and therefore, each decade adds more to the wealth of the United States than the capital value of Italy or Spain.

Every day that the sun rises upon the American people, it sees an addition of \$2,300,000 to the wealth of the republic. Notwithstanding this rapid and vast accumulation of national capital, there are in France three times as many people who live on their incomes as there are in the United States. We make money faster than any people in the world, and spend it a great deal faster.

General Garfield is just now holding two offices more than any man can conveniently fill. First of all, he is de jure and de facto Representative in Congress of the nineteenth OI district. Second, he is the United States Senator elect from that State, to take the place of THURMAN (D), on the 4th of March next, if he prefers that to the Presidency. Third, he is President elect, to succeed HAYES on the 4th of March next if he prefers that to the Senatorship. We do not recall another case in the history of the country in which any one man has at one and the same time held so many prominent positions.

The San Francisco Chronicle has this to say in regard to the next House of Representatives: "The N. Y. Times divides the House into 152 Republican, 137 Democratic and 4 Greenback members. Our tabulation results in 150 Republicans, 139 Democrats and 4 Independents, classing HYATT SMITH, of the Fourth New York district, with the three Greenbacks. In both these estimates the Virginia Readjusters are classed as Democrats, while the Greenback Republicans are not included in the apparent majority. At the lowest of these computations the Republicans will have a clear majority of seven members, with a plurality of eleven in the lower branch of congress."

The Shoestring District.

The New York Times says the shoestring district, Mississippi, comes to the front with the official report of the recent election. In Coahoma county 700 voters were thrown out and in six other counties 3355 were rejected on the flimsiest pretexs. The ballot box in Jefferson county was captured by a shotgun. Lynch, colored republican, was elected to congress by a majority of 500. Gen. Chalmers received the certificate on a coalition of majority of 3759. Will this infamy be allowed to wile?

It is reported that Conger has the best show for the U. S. Senate from Michigan. Bagley and Baldwin are also prominent candidates. Foster and Sherman both boom up for the Ohio Senatorship. It is believed that Sherman will be called to Garfield's cabinet, and that the announcement will soon be made.

At the annual meeting of the National Association of U. S. Senators, H. Levy, of Seattle, has shipped 100 barrels of salmon to London. He goes with his shipment to establish a market for future exports.

Political Scraps.

It is reported that Senator David Davis wishes to return to the bench. If this be true it will give the Republicans another Senator from Illinois, and control of the Senate.

President Garfield is likely to have four Supreme Judges to appoint during his term of office. The pressure is very great and growing daily stronger for the retention of Sherman as Secretary of the Treasury. He has proved a bonanza to this country as a Treasurer.

Garfield had 23 majority in Grant county, Wis. The suggestion of the New York Sun that BARSTON should bring the perpetrators of the Morey forged letter to justice is a good deal like a bit to the great mule buyer to commit hari-kari.

Since the Standard has declared the Hancock Democracy will never acknowledge itself beaten "as long as there is a musket of a man in the party," all apprehension of danger is laid aside, business has improved, and even the weather has proved unusually fine for this season of the year, the roads actually getting dusty! The influence of the Standard is immense!

Of the six Presidential electors in California, five are Democrats and one Republican. Terry was the Democrat who got left. The forged Chinese letter, procured and paid for by the Democratic National Committee, is universally condemned by all respectable Democratic papers. The Southern Journals are specially outspoken in their denunciation, and insist that not only the perpetrators and forgers, but Barstom & Co. should be penalized for the black contribution.

Bill English is said to be weeping great weeps over the loss of his money and character—especially the former—through an association with the Philip Democracy. Weep, William, weep.

"Man wants but little here below," and Hancockers want even less here than ever before. The only objection we have to the right of suffrage being extended to women is, that only good looking men will be elected to office, and we will be compelled either to accept office or go to Chile!

The Next House of Representatives.

The San Francisco Chronicle has this to say in regard to the next House of Representatives: "The N. Y. Times divides the House into 152 Republican, 137 Democratic and 4 Greenback members. Our tabulation results in 150 Republicans, 139 Democrats and 4 Independents, classing HYATT SMITH, of the Fourth New York district, with the three Greenbacks. Samuel M. Corey has confessed to perjury in the Philip trial.

The details of the confession we have not seen, but the statement of the N. Y. Times is that the price of his late swearing was paid to him out of the funds of the National Democratic Committee. There is no reason to doubt this statement, as the form and amount of the bribe is explicitly stated. The amount was \$150. Payment was made in a check, and that check was drawn on the Nation's Park Bank of New York city. If this be true, the check will probably be a valuable clew in hunting down the rascals who are really responsible for the forgery of the Chinese letter.

Joseph Geiger's silver mine in Pierce county is showing signs of great value as the work progresses. The vein is eight feet wide, with a well defined granite wall on the east side. No candidate for delegate to congress in Washington territory ever received 1000 votes in a single county. Brents came within 7 of reaching the number in Walla Walla this year, and he has been the nearest.
