

STATE RIGHTS-DEMOCRAT.

DEMOCRATIC STATE CONVENTION.

ANOTHER GLORIOUS VETO.

In another column, under the Telegraphic head, will be found the Veto Message of the President on the return by him to the Senate of the Civil Rights Bill of the Radicals. We have not space, because of the late hour the report of the Message reached us, to say all that we wish upon it.

The Abolitionists are now brought to a point. They must either approve or condemn this most decisive act of the President. If they approve it, they must swallow all their own denunciations of the doctrine of State Sovereignty as a heresy and as treasonable, and declare themselves in favor of that doctrine.

The course of the Democracy is plain, open, unreserved: They approve the principles of the Message, and will to the last uphold them. The Democracy are for the Union and the Constitution.

WAR IS IT?

Some weeks ago the Treasurer of Boise county, Idaho, proved defrauded in the small sum of \$1,000, which has been paid by his official sureties. He was a Democrat, and all the Abolition organs of Oregon had divers paragraphs, day after day, and week after week, chronicling the dishonesty of that far-off and small defalcation.

UNITY.

Throughout the State, so far as we have any account of the holding of Conventions, harmony has prevailed among Union men. There shall be no division of the Union party, in the sentiment which pervades the acts and utterances of the people.

THE SPRING RUSH.

The steamer from below comes crowded with passengers and laden with freight daily for the Dalles and the great mining regions beyond. The Ocean steamers also come crowded with passengers every trip from San Francisco.

POISONED.

The Gazette says several cases have died lately in and about Corvallis, it is supposed from eating wild parsnip or other poisonous herb.

ENTRAPPED AGAIN.

San Francisco took another lively shake last Monday noon, from earthquakes. It was brief but powerful. No particular damage done, however.

THE ABOLITION CONVENTION.

The Abolition Convention met at Corvallis on Thursday morning at 10 o'clock, and concluded their labors that evening. Judge Wilson was Chairman of the Convention, H. W. Scott (editor of the Oregonian), and P. L. Willis, of Marion, were Secretaries.

After the permanent organization, the regular business of the Convention was proceeded with. The ballot system was adopted in nominations.

A set of resolutions which had been carefully prepared by Jesse Applegate were adopted. There are nine of them—just the number of the Muses, two more than the Wonders of the World, and one less than the Commandments.

After the passage of these incongruous resolutions the nominations were proceeded with. We copy the official report given in the Gazette Extra:

For State Treasurer the vote was as follows: Cooke, 8; Whitson, 24. For State Printer, W. A. McPherson received 76 votes, and was declared unanimously nominated.

But smoothly as all this quick work looks on paper, the truth is, there is deep and wide spread discontent and rebellion over the platform and ticket.

But smoothly as all this quick work looks on paper, the truth is, there is deep and wide spread discontent and rebellion over the platform and ticket. General Coffin fairly boiled with rage, and Bowley, Bayley, Whitson, Powell, and other of the leaders, are furious in their respective disapprovements.

NOT WELLS.—The man lately taken all the way from Idaho to Sacramento under the firm belief that he was Wells, the murderer, has at length, after a most critical investigation, been released. He conclusively proved himself to be not Wells, but Donald McDonald, an innocent, hard-working man, whose record was clearly traced.

THAT "FLAG RALLY."

The Statesman of last Monday says: You Democrats neglected to "rally around the flag," when that flag was assailed by traitors, and now you have no right to ask the people to rally to your support.

Who but Democrats rallied to the American flag in the war of 1812-18, when all the Federalists opposed it, and when New England States passed acts to give aid and comfort to the enemy?

Who rallied to that flag in the war with Mexico in 1846-7, when only one regiment, and that a Democratic regiment, went from all New England? Who has ever, in every contest with foreign foes, rallied to, sustained, and added lustre and glory to that flag? We can answer, and the Statesman cannot deny: Democrats!

It is the proud, high boast of Democrats that they always sustained, battled for, and rendered victorious, the flag of their country. They have dimmed its glory, and erased stars, as the symbols of the sovereignty, States from its broad folds.

They never lowered it before an aggressive, insolent foe, or raised it as an emblem of despotism over the prostrate form of a fellow countryman. They never denounced it as a "haunting lie," as "late's polluted rag," as the Statesman deny that its party has done all these things which we assert the Democracy have never done? We know it dare not. History, indelible records, incontrovertible truths, all attest that the Democracy have never done these foul and infamous acts, and that the party opposed to Democracy have perpetrated each and all of them.

It is that has "rallied around the flag," in every war or on every occasion when it was assailed or imperilled, or to be saved from defeat, dishonor and disgrace? Unhesitatingly we answer, and the Statesman cannot deny—the Democracy party! And the Statesman cannot know that the party to which it belongs ever displayed this devotion to the flag which we have shown on the part of the Democratic party. This "flag rally" cry by the Abolition party is a cheat. They represent thirty-six States in their flag, and yet acknowledge only twenty-five.

IN A FLY.—The new marriage law of Washington Territory went into effect from and after its passage. That was early in February. Since then several runaway couples from Oregon have been spotted by the Greena Green sort of officials at Vancouver. These marriages are said to be void.
