

STATE RIGHTS DEMOCRAT.

M. H. ABBOTT, Editor. SATURDAY, APRIL 6, 1867.

The First Kentucky Resolution of 1798.

Resolved, That the several States composing the United States, are not united on the principle of unlimited submission to their general government...

Henry Clay's Prediction.—The slavery question in the Free States has been all but settled, and finally laid to rest.

CONNECTICUT ELECTION.

If the telegraph may be believed a political revolution has been effected in Connecticut—English (Dem.) being elected Governor by about 1,200 majority.

Last year English was beaten by Hawley (Rep.), for Governor, the latter receiving 541 majority. In 1864 Hawley's majority over Seymour (Dem.) was 5,658.

Granting that the above telegraphic news is correct, it will be seen that the Democracy are gaining rapidly in old Connecticut, and what is true of this State we hope, and believe is true of every other except Vermont and Massachusetts.

Who Pays?—We hear much in these days about protection. What is protection? It is a law which gives a certain class a monopoly of the market for the goods they produce.

The State Rights Democrat is justly indignant because a bill was lately reported in the New York Legislature to regulate prostitution and assignation houses.

Each car was laden with the certain number of rails, all of the same length, and the exact number of the rails was reported by the men.

WHERE THE PEOPLE'S TAXES GO.—A man of measure if not of mark, who is written down as H. E. PECK, claiming to hail from Ohio, but hitherto unknown in political circles, has been confirmed as "Minister Resident and Consul General" to the "Republic of Hayti."

The negro race is rapidly decreasing.—Since these people have been taken from their comfortable homes their numbers are being fast decimated. They are dying like sheep with the rot.

Non Tardous Stevens was killed on Thursday with a sudden and serious illness, which indicated that his physical strength is greatly prostrated.

It is quite probable that his "physical strength" was "greatly prostrated" by uncommon toying and dalliance with a mulatto concubine.

The Union Pacific Railroad.

Recently we have received, from Hon. L. W. Ross, of Illinois, a pamphlet entitled "The Great Union Pacific Railroad."

It is a full account of an excursion to the hundredth meridian, "prepared at the request of the excursionists." Among these were Hon. C. T. Sherman, Gen. Simpson, Robert Lincoln, Mr. and Mrs. George Francis Train and maid, and Senator Wade of Ohio.

When we first read the above we could not repress the wish that Ben. Wade and a few others with him, could be set upon in reality by five or six times their number of wild Arapahoe Indians in the Rocky Mountains—just as a certain editor we are well acquainted with once was.

But this is something of a digression. The following extract will give our readers an idea of the rapidity with which the Pacific Railroad is being built:

Each car was laden with the certain number of rails, all of the same length, and the exact number of the rails was reported by the men. These were sent out to the work, and the boarding cars having been pushed as far as possible toward the end of the track, the materials were thrown off behind them, then the boarding cars moved back and the small cars used in laying the rails could come up to the piles of new material.

By means of this system the track, during the last summer, was laid at the average rate of one mile and six-tenths per day for every working day in the month.

We are firmly of the opinion, and always have been, that the Pacific Railroad will prove to be very profitable to the builders. But unlike any other railroad of which we have any knowledge, there will be millions of acres, on either side of it, that will forever remain barren and uncultivated.

ST. LOUIS, March 26.—The Republican's special correspondent at St. Joseph gives the following account of the Fort Phil Kearney massacre, derived by Communists from some Crow Indians, who received it from the Sioux.

It is just one year since the People's Transportation Company placed the Yamhill upon this river, and notwithstanding she has been principally engaged in pulling snags and removing obstructions, her receipts have proved highly satisfactory to the Company.

Of course they have. "You bet." Their "receipts" will be satisfactory to the Company, snags or no snags. Exactly so.

STATE ITEMS.

Two of the ball rioters, Fitzhugh and Hannan, are yet in jail at Roseburg.

A considerable number of new buildings are going up in Salem.

Parties at Olympia have sent East for the machinery for a carding factory.

It is expected that two million brick will be made by the convicts at the Penitentiary this year.

The Rogue River Woollen Manufacturing Company are busy canvassing for stock for their enterprise.

Several gentlemen of Olympia contemplate going to the top of Mount Rainier during the coming summer.

The Washington Territory merchants are out with attractive advertisements, offering to purchase wool.

The Mountaineer says that the travel on the Canyon City road this season far exceeds that of the corresponding month last year.

The house tops in Olympia are so covered with moss that the Standard sees in it a splendid opportunity for a general conflagration.

The Unionist judges that 1,000 head of sheep, besides a considerable number of cattle and some horses, died in Marion county during the last "cold spell."

The schooner Pacific, which struck on the Umpqua Bar some little time ago, was again launched a few days since. She will soon be repaired and ready for sea again.

A convention of Good Templars was recently held in Beavercreek. The attendance was quite large. Six lodges have been organized in the county (Douglas) and others will be organized soon.

We learn from a Southern Oregon paper that a bed of coal has been discovered on the north side of Rogue river about thirty miles from Jacksonville. Specimens have been tried, showing the coal to be of good quality.

Ten homestead claims were located last week in the Yaquina valley. The parties are all men of families, and will bring their wives and little ones to their own homes as soon as the weather and roads will permit.

One thousand head of sheep passed through Dayton recently on route Eastern Oregon.—Mr. Mitchell, of Marion county, has been engaged to cross the Cascade Mountains with them. He thinks they can travel on the crust of the snow.

An arrangement has been made by which the State authorities agree to pay \$800 for each Gardner shackle, and if the State determines to purchase it, the amount paid for its use is to be deducted from the sum agreed on.

The Jacksonville Sentinel says the tunneling in Gold Hill is still progressing with good prospects of success. The ledge has been struck again, and the miners are running a shaft from the tunnel to the surface, a distance of one hundred and twenty feet.

On one of the P. T. Co's. boats, one day last week, the passengers became aware that there was a woman with her little boy on board, in very destitute circumstances, whereupon one of the passengers passed round the hat, and in a few moments collected \$25 for her benefit.

APPOINTMENTS.—Governor Woods has recently made the following appointments: Notaries Public.—Wm. B. Carter, of Corvallis; James Guthrie, of Portland; Gaines Webster, of Roseburg. Commissioners of Deeds.—John T. Wait, Norwalk, Connecticut; Samuel B. Thray, Philadelphia, Pennsylvania; E. H. Throp, Philadelphia, Pennsylvania; Samuel S. Murley, San Francisco, California. Edwin N. Cooke, Commissioner for the State of Oregon at the Paris Exposition.

The Oregon Herald says that the Willamette Woollen Manufacturing Company have just received sixteen cases of machinery which will be immediately set up. The proprietors of this factory are continually adding to their already large establishment, until it has grown to be first and largest manufactory in the State. We are pleased to notice also, that every year a better quality of goods is being made at this factory, and there can be no doubt that in a few years Oregon will be enabled to produce as fine tweeds and cassimeres as ever were worn in English looms.

THE attitude of the Herald and the Tribune, two leading journals of New York, with reference to the impeachment of the President, is among the curiosities of the age. The New York Herald favors the measure, while the Tribune bitterly opposes it.

However, as Bennett invariably goes with the current, and would advocate a plurality of wives if he lived in Utah, or would clamor for cannibalism if he edited a paper where human flesh was the favorite food of those who "advertised in the New York Herald," he is a queer, battered and weather-beaten article which he calls a "conscience," whereas Bennett sold his to the devil years ago, and has managed to thrive wonderfully without it ever since.

But when he strikes a public man it is very certain that he is "down." When they were popular he grovelled at the feet of Pierce and Buchanan, but when they lost ground he sprang at them like a mad dog.—(Richmond Times.)

"BRICK," of the La Crosse (Wis.) Democrat, judging from the tone of our southern exchanges, is to have a hearty welcome among the southern people during his sojournings in the section of "God's country" devastated by the abolition thieving crusaders. We commend him as worthy of their best offices and will go bail that he will stand by them in defence of their constitutional rights through "thick and thin."

Mrs. Major Williams, formerly Mrs. Stephen A. Douglas, celebrated the first anniversary of her last marriage by twins.

CAPT. T. W. BARNES, late of the Confederate navy, has been nominated as a candidate for the majority of Pensacola.

PERRY DAVIS' VEGETABLE PAIN KILLER!

WE BEG LEAVE TO CALL THE ATTENTION of the public to this long tested and untried Family Medicine.

The PAIN KILLER is a purely vegetable compound, and while it is a most efficient remedy for Pain, it is a perfectly safe medicine even in the most unskilful hands.

Summer Complaint, or any other form of bowel disease in children or adults; it is an almost certain cure, and has withal been more successful in curing the various kinds of Cholera.

As a Tonic for the Stomach, it is unrivalled. A few doses will relieve severe cases of Indigestion, and it is often a perfect cure for Dyspepsia.

In its most aggravated forms. Its tonic and stimulating properties, soothing the system to vigorous action, render it a most successful cure for Colds and Coughs, when used according to directions.

For external application, it is unsurpassed by any medical preparation known
