Why, when the transit is so easy, the fare so cheap, and the required time so short, should Canadians no longer avail themselves of the advantages which our OLD country is supposed to offer? We answer: Because our legislative folly has neutralized those advantages and made it far more profitable for Canadians to stay at home. Take, for instances, the case of JOHN a thrifty farmer anywhere in Canada West. He has an unkindly soil and a rigid climate. Possibly, he is dissatisfied with the bastard royalty that is set up over him. But why should he come here? But he can law. Cook Stoves, fully buy where he sells. For him there is a tariff of about ten per cent. on importations. His beef, his pork, lard, tallow, wheat, corn and flour net him, in many articles which his industry and his household require, nearly twice as much as they would yield him here. He has our prices, at which he may sell what he raises; he has Liverpool prices, with charges added, at which he can buy what he needs. He has cheap iron, cheap woolens, cheap cottons, cheap leather. cheap groceries, cheap drugs, cheap paints; and if he is at all prudent when he strikes the balance at the end of the year, he is usually ahead. It is also most efficacious taken inwordly in the cure of CHOLERA, CRAMPS and PAINS IN THE STOMACH, DIARRHŒA, DYS-ENTERY, CHOLERA MORBUS, CHOLERA IN-FANTUM, etc., etc., and is without exception the MOST WONDERFUL PANACEA the world affords. When the drug medi-cines, taken by the multitude of victims who have Gentlemen's and Children's Wear died with the consumption, find their way into the ungs, they immediately commence to irritate and inflame the ulcers and increase the flow of matter. As a consequence, the patient expectorates more freely, and as he coughs and spits his life away, he thinks, because he raises such a quantity, and raises it so easily, that he is certainly recovering; and under this common delusion he cor inues to take the medicines, and continues to cough and spit, until exhausted nature submits and he finds

relief in the grave. On the other hand, when my Thoracic Balsam inds its way into the lungs it commences at once o heal the ulcers. It goes to the very root of the disease, and gently, but surely, draws all morbid humor from the ulcerated parts. It purifies the blood, as it is composed wholly of vegetable materials. It strengthens and does not debilitate the general system. It tends to quiet the nerves and invigorate the patient and assist in relieving the congested condition of the lungs, by diffusing the accumulated blood over the surface, and it clears away the obstructions that impede egress of all the impurities of the body through their natural channels-the bowels-and more especially does it tend to draw all exerction from the lungs, and induces a new and vigorous action to the liver and imparts

J. C. Ayen & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned in ward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully.

Syphilis and Mercurial Disease. NEW ORLEANS, 25th August, 1859. Dr. J. C. Aver: Sir, I cheerfully comply with toms in his nose, and the ulceration had caten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young my blood as to made a new man of me. I feel young again The best that can be said of you is not half good enough."
