Poisoned Arrows .- A writer in Harper's Magazine tells how the Indians GIFT ENTERPRISE poison their arrows:

A rattlesnake is penned. He is made augry by being poked with sticks, when a piece of deer's liver is held towards him on the end of a stick. Into this he strikes his fangs. The liver is then withdrawn, and a piece of dogwood about four inches long and carefully sharpened, is thrust into the incision made by the fangs. The stick is permitted to dry for a short time, when it is dipped into a glutinous solution, which, drying, hermetically seals the poison which would otherwise decompose. It goes to the very root of the disease, and gently, but surely, draws all morbid humor from the ulcerated parts. It purifies the lood, as it is composed wholly of vegetable materials. It strengthens and does not debilitate the general system. It tends to quiet the nerves and invigorate the patient and assist in relieving the congested condition of the lungs, by diffusing the accumulated blood over the surface, and it clears away the obstructions that impede egress of all the C. OAKLAND, Ind., 6th June, 1869.

J. C. Ayen & Co. Gents: I feel it my duty to acknowledge what your Sarasparilla has done for my. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. It tried many medicines and several physicians, but without much relie, from anything. In fact, that disorder grew worse. At length I was rejoiced for read in the Gospel Mea-senger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that anything you made must be good. I sent to Cincinnati and got it, and used aimest three bottles. New and healthy skin soon began to form under the scab, which after a while felt off My skin is now clear, and I know by my festings that the disease has gone from my system. You cha well-believe that I feel what I am saying when I fall you, that I hold you to be one of the spostles of the age, and remain ever gratefully. Yours,

Dr. J. B. S. Channing, of New York City, writers a I most cheerfully comply with the request of your agent in saying I have found your Sarsaparille a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the aterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements. Edward S. Marrow, of Newbury, Ala., writes Edward S. Marrow, of Newbury, Ala., writes

Aven: Sir, I chearfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla. I have cured with it is recommended, and have found its effects traly wonderful in the cure of Venereal and Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in fiveweeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten sway a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers bealed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by measury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered exeruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable pesults with it have not surprised me.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 8th July, 1859.
Dr. J C. Aver: Sir, I have been afflicted with a painful chronic theumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine.

J. FREAM. Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to made a new man of me. I feel young again. The best that can be said of you is not half good enough."

Many remarkable cures of these affections have
been made by the alterative power of this medicine.
It stimulates the vital functions into vigorous action,
and thus overcomes disorders which would be supposed beyond its reach. Such a remody has long
been required by the necessities of the people, and
we are confident that this will do for them all that
medicine can do. Ayer's Cherry Pectoral, Coughs, Colds, Influenza, Hoursenessa Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Bisease.

This is a remedy so universally known to surpass, any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of the virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the evidence or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtla and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the cenfidence of mankind.
