CELEBRATED RACE-HORSES

On the first Monday of this month a race came off on the Oregon racenot only at home but abroad. The name of one of the racers is "David;" and the other goes by the more euphonious title of "Carving-Fork." is said that when he was a colt he was one day eating slop from a small tub, wide; his heart large, and his form and such was his relish for the savory food that he incontinently swallowed a carving-fork that had been accidentally thrown into the swill by the

kitchen-maid. Hence his name.

"David" is a highly-bred horse, being of the blood-royal stock living in Springfield, Illinois, He was well having the best of grooms in constant was quite respectable and abundant, ter made up by his backers between him and a little pony from California by the name of Lansing. The race was neck and neck almost the entire distance ;-a blanket would have covered them both except at the outcome. "Lansing" won the race by a "mere scratch," as our friend Col. Morgan recently remarked to Judge Powell. As soon as "David" ceased running, his keeper attempted to bathe his nose with a sponge well filled with whisky and water; and this proved so grateful to David's olfactory organs that he finally seized the sponge in his teeth, and laying back his ears close to his head, he swallowed it as easily as ever he swallowed a raw egg; and strange to say, ever since then he drinks all the whisky that comes within his reach. He has been known to rear up, and snort, and champ his bits, and sling foam from his mouth, and caracole beautifully, and neigh spiritedly, all because he smelt whis-

But this is a digression. Not many moons after Lansing beat David his owners entered him on the same course against a medium-size, highspirited, clean-boned horse of Irish extraction by the name of "George.' But David was beaten worse this time than before. George led him all the way and threw dust in his eyes at every jump-almost. David's keeper sponged his nose as usual, this time with pure whisky,-all which David liked so well that, watching his opportunity, he not only swallowed the sponge, but drank up all in the buckkeeper! those who had him in charge with such confidence that they finally concluded to pit him against David, as we have already stated.

The first of this month was the time appointed for the trial of speed to take place. It was a fair day; the sun shone brightly; the track was in excellent order, and the course was literally surrounded by anxious and excited spectators. When the two horses were brought on the track, the betting was two to one on David. He had been much better kept than Carving-Fork; and his fine form showed off to much better advantage than that of his rival. He pranced, and snorted, and caracoled, and made two-thirds of the people believe he would be the winner. Carving-Fork, on the contrary, showed little or no vivacity; and being still ill-shaped, he was not cal culated to enlist the admiration of the course which excites unusual comment, | crowd; but good judges of horse-flesh fancied that they could see many fine points in him. It was true that his form was not very symmetrical-but who ever saw a number one racer that was? His neck was long, his nostrils on the grey-hound order.

At the tap of the drum the two horses started-David full twenty-five yards ahead. We forgot to state that Carving-Fork's rider was a white lad, possessed of extraordinary skill and dexterity. Owing to some whim of the owners of David they insisted that trained from colthood to horsehood; he should be ridden by one little nigger in the saddle, while a little Siwash attendance to develop his muscle and should hang to one stirrup and a longimprove his wind-which naturally tailed celestial to the other; and to gratify a vain and foolish pride, they At an early day he was sent out to still further insisted that they should Oregon, and a race was soon thereaf- have the privilege of tying a large purse, well filled with gold, to the tail of David. They affirmed that they had some bonds to cancel, and they desired to show to the world that they were ready to meet their engagements as soon as the race should be ended.

Well: the riders whipped, and for awhile David gained rapidly. The Siwash and the Celestial kicked his abdomen, while the little nigger laid the whip on to his shoulders-meanwhile grinning from ear to ear and showing his ivories in the most approved Ethiopian fashion. But all at once Carving-Fork pricked up his ears. and straightening out his neck at full length, he came down to his work finely-jumping twenty and thirty feet at a bound-gathering himself up with a rapidity unequalled on this coast; he should be nominated by the forthand sweeping past his antagonist like a whirlwind. The little siwash and celestial redoubled their kicking; while the little nigger used the raw hide on David more liberally than ever, in order to regain lost ground and come up alongside of Carving-Fork again. David, also, fully comprehending the situation, strained every nerve, and for a while gained a little; per ceiving which, Carving-Fork's rider spoke sharply to him, and gave him a couple of keen cuts on his flanks. upon the fretful porcupine," for a long David would not allow it, and was not satisfied until his keeper sponged him

CHASE FOR THE PRESIDENCY.

An effort has been put forth on the part of some leading Democrats of very questionable political anteced- Oregon City Enterprise says: ents-Democrats of the N. Y. World Auguste Belmont school-to bring out Salmon P. Chase as a Democratic candidate for the Presidency. Mr. Chase doubtless suits them very well; but he will not begin to fill the bill so far as the great body of the Democracy are concerned.

Except in regard to negro suffrage, Chase is a most consummate change-He has been for and against hard money; for and against paper money; for and against free trade;for and against protection of American industry; for and against State Rights, and for and against centraliza-He once boldly advocated the doctrine of Secession; but he is now against it. He is the putative father of the greenback and National Bank swindle; and he favors liquidating the principal of the national debt with gold instead of greenbacks. But the overshadowing objection to him that he is an ardent advocate of negro suffrage. In this he has been consistent.

We cheerfully concede that as man he sustains an excellent reputation, and that in the matter of intellect he is a head and shoulders above all other men in his party. We regard him as a great man intellectually considered. And his conduct during the impeachment proceedings, as presiding officer of the Court, was worthy of all commendation. To his praise be it spoken that he forgot the partizan and seemed actuated solely by a desire to mete out justice-pure, madulterated and simple.

But, in doing this he did nothing more than his duty; and were it not that corruption and injustice in the Radical party, are the rule, it would not excite any particular comment.-In the better and purer days of the Republic, no one would have thought of complimenting the Chief Justice simply because he properly interpreted the law and administered it impartially. It is only because injustice is the rule and justice the exception of the Mongrel party that the conduct of Mr. Chase is held up by the Democratic press for the admiration of the

## NEGRO SUFFRAGE.

Under the question of-"A Democratic Triumph-what is it?"-the

"The leaders of the [Democratic] party know that the negro equality war cry is all a humbug, used merely to secure votes, and put Democrats in office. Their object is to roll back the tide of civilization as much as possible. They have op-posed every step, and will undo all we have done, so far as it shall be in their power. There can be no doubt that the ultimate object of the Democratic leaders, is the restoration of slavery, and the repudiation of the national debt."

The Enterprise editor says that "the negro equality question is all a humbug;" and that the "leaders" of the a humbug, the Radicals have a most singular way of showing it. Since they have attained power they have enfranchised the negroes in the District of Columbia; they have freed all the negroes in the South and have clothed them with the right to vote, and they are now actually the governing class in the South; they have given niggers the right to vote in every territory of the United States-over twenty voting last year for the Radical candidate for Delegate to Congress in Washington Territory,-they have refused admission to States because their Constitutions did not al low the blessed nigger to vote, and they have adopted an amendment to the federal Constitution which provides that every person born in the United States is a citizen, and that every citizen shall have the right to vote, State Constitutions and enactments to the contrary notwithstanding ;-thus most unequivocally enfranchising every negro throughout the United States. If all this is a "humbug," it is one of the most stuany knowledge.

The Enterprise says that Democrats Democrat of any prominence - and most surely no Democratic Conventhemselves do not want it restored. And relative to repudiating the nain that either.
