The gentleman from Massachusetts marks, that the whole amount of money appropriated to this bureau out of the Treasury, from its origin down to this \$10.820,750. But, sir, in order to de- Dr. J. M. McCoy termine the cost of this bureau we must Benj. Hayden not look morely to the appropriations of money from the Treasury; for to these J. R. Bell .. tions, beneath whose depths have been B. F. Bonham buried so much of the treasures and so Hanley Waterman large a share of the liberties of the peonle of this country.

I have endeavored to ascertain from the reports of the Commissioner the cost of maintaining this bureau, the result of which I shall state in a moment. In the first place, I may remark that the accounts of the bureau have been kept in such a manner that it is very difficult to determine from them the cost connected with its operations. I have however, made an estimate, which, I think, approximates the true amount. It is as fol-

And to this, perhaps, ought to be ad-ded the immense amount required to feed, clothe, and pay the army which is FORCE AND LIFT PUMPS! sent along with the officers and agents of this bureau to assist in its operations; for this I regard as an expenditure legitimately chargeable to the bureau; which, if added might run the expenditures of this bareau up to \$50,000,000, and, per-

haps, to \$100,000,000. How long, sir, will a tax-burdened people consent that their hard earnings shall be thus taken and appropriated to the support of a bureau by which the negroes wherever they may choose to go?

If this Government feels able thus to care for any class, of its people, I ask, in God's name, that the wives and children of those who have died in defense of their country may first be provided for. Let this Government, which their fathers and husbands died to defend, first provide for the support and education of this class of persons before it undertakes thus to support in idleness these roving vagrants called freedmen.

Brigham Young's Contract.

It is stated in our telegraphic dispatches that a contract has been given to Brigham Young by the Pacific Railroad Company, for the grading of that portion of the Overland Railroad situated between Eche Canon and Salt Lake City, and that BOOTS AND SHOES, "work is to be commenced at once." this movement idicates extraordidaay efforts upon the part of the Eastern Company to extend the read rapidly toward California. Echo Canon is about 400 miles this side, or west, of the present terminus of A well selected assortment of the most complete the Pacfic Railroad, and some 60 miles from Salt Lake City. It is not unlikely now that the railroad will be completed, and cars running as far west as Salt Loke City, within 12 months. It was announced a short time since that the Union Company had contracted for the extension of the road some 300 miles west of its then terminus, which, with the present contract with Brigham Young, probably extends to Salt Lake City. The Union Company can, with the assistance of Brigham Young, grade the road from its present terminus to Salt Lake City, and by the time that grading is completed the track will have been laid onehalf the distauce. The balance of the track can be put down in the winter or early in the spring. On this side the Central Pactic will, from present indications, finish their road to within 350 or 400 miles of Salt Lake City It is quite safe, therefore, to say, from present indications, that within 12 months the railroad to the At- exchange. lant e States will not lack more than 400 miles of completion .- S. THE DIFFERENCES BETWEEN THE THO-RACIC BALSAM and the Allopathic lung ictnes is this: the popular drug medicines, when taken into the stomach, make you sick, while he sensation created by my Thoracic Balsam is as coothing as a cup of tea. When the drug mediines, taken by the multitude of victims who have died with the consumption, find their way into the lungs, they immediately commence to irritate and nflame the eleers and increase the flow of matter. As a consequence, the patient expectorates more CHEAPER THAN ANY OTHER HOUSE ON THE COAST freely, and as he coughs and spits his life away, he thinks, because he raises such a quantity, and raises it so easily, that he is certainly recovering; and under this common delusion he ecrtinues to take the medicines, and continues to cough and

It goes to the very root of the disease, and gently, but surely, draws all morbid humor from the ulcerated parts. It purifies the blood, as it is composed wholly of vegetable materials. It strengthens and does not debilitate the general system. It tends to quiet the nerves and invigorate the patient and assist in relieving the congested condition of the lungs, by diffusing the accumulated blood over the surface, and it clears away the obstructions that impede egress of all the impurities of the body through their natural channals are cured by the condition of the lungs. DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc. From Dr. J. P. Vanghn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiceness. It others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiseness to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife,

I find one or two large doses of your Pills, taken

at the proper time, are excellent promotives of the natural secretion when wholly or partially sup-pressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to From the Rev Dr. Hawkes, of the Methodist Epis. Church. PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856. HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on exeruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I Gibbon, a physician who has made private disease his study for years, and who is certain to cure the most inveterate cases without mercury or other injurious drugs.
