No Good Templar can consistently support any man for office who is intemperate as a drinker. We happen to know something of Gen. Grant's reputation before the war, as we lived near where his company was stationed. He was then friends to keep him from injuring him- Benj. Hayden ... self and others. It is said of him that on one occeasion he dressed his FAVORITE J. R. Ralston. squaw up in his own regimentals, buck-ters. Now how can the editor of any N. M. Bell. temperance journal, with any show of de- | B. F. Bonham cency, advocate the claims of such a man for the highest office on the land? Nor has Gen. Grant reformed his habits. We have it on the most unimpeachable authority that it is no uncommon thing for him to be seen drunk in Washington .-Wendell Phillips, who, as a Temperance, man, stands deservedly high, is one of the numerous authorities of this much.

The Ku Klux Klan.

Many persons have been led to suppose, from what they have seen in the newspapers, that Ku-Klux Klan was a most dangerous and terrible organization of murderers, assassins, and outlaws generally. Those who have been thus deceived and imposed upon by the stories they have read about the "chuck-lux." will be glad to learn, as they will by the following frank exposure of the objects of the order, that instead of being the terrible monster they had imagined, the organization is purely benevolent and humanitarian in all its arrangements and purposes:

"The Ku-Klux Klan are called upon to kastigate or kill any kullered kusses who may approve the konstitution being koncocted by the kontemptible karpet baggers at the kapitol. Each Klan is kommanded by a karniverous kernel who kollects his komrades with kare and kaution kommensurate with the magnitude of the kause. Whenever konvened, they must korrectly give four kountersigns. These are : kill the kullered kuss ; klean out the karpet-baggers; krush the konvention; karry konservatism; konfusion to kongress; konfederates will konquer. Of kourse the Klan kreates konsiderable konsternation among the kongos and their kunning konductors, wno kalkulate that their kareer may be kut short by katastrophies. Kewardly kurs, they kan't komplain."

THE PURCHASE OF SENATORS .- Leading Radical journals assert that the Democratic party bought the seven Republican Senators who voted against conviction of the President.

Assuming the seraphic purity of Radical journalism, and therefore granting the truth of this assertion, that party has become a sort of forcing establishment for the production of votes to be trafficked

Having just sold its last batch of leaders, Grimes, Fessenden & Co., it is now raising another lot labeled "Grant and Colfax" that will be for sale as soon as they are ripe.

If radicalism truly characterizes itself it is cheaper for the Democratic party to purchase than to elect officers. Let us DRY GOODS establish at Washinton a " Bureau of purchase," and in every crisis buy President, Vice President, Senate, House and Cab-

A man with an enormously large mouth called on a dentist to get a tooth drawn. After the dentist had prepared the instruments, and was about to commence operations, the man began to strain and stretch his mouth, till he got it to a frightful width. "Stay, sir," said the dentist. "Don't trouble yourself to stretch your mouth any wider, for I intend to stand outside of it to draw your tooth."

When radical politicians tell laboring men that they pay no taxes, the later should ask in return, how much more they pay now for everything they eat, and drink and wear, than they did in good old democastic times. If it costs you twelve dollars a week to support and clothe your family now, where it formly cost only six, do you not pay a tax of three hundred and twelve dollars a year? — Quincy Her-

As a consequence, the patient expectorates more freely, and as he coughs and spits his life away, he thinks, because he raises such a quantity, and raises it so easily, that he is certainly recovering ; take the medicines, and continues to coagn and

It goes to the very root of the lisease, and gently, but surely, draws all morbid humor from the ulcerated parts. It purifies the blood, as it is composed wholly of vegetable materials. It strengthens and does not debilitate the general system. It tends to quiet the nerves and invigorate the patient and assist in relieving the congested condition of the lungs, by diffusing the accumulated blood over the surface, and it clears away the obstructions that impede egress of all the C. This medicine don't give you new lungs; it only mends up your old ones, and, with

I have found it the safest and best remedy, and no woman in delicate health should be without it. Dr. Ayer truthfully remarks that less than one-half of the females of the United States have sound health, and the condition of the disor dered ones is leaving its impress on the rising generation. Then, how important we should have a remedy for these evils. For painful or suppressed menses, irregularities, etc., and also for women at the turn of life, and frail girls, this medicine will be found invaluable. It should also be used before and after confinement. "An ounce of preventive is better than a pound of cure." . blood, and let the fluids move on unobstructed in health sgain. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deepseated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

As a Family Physic. From Dr. E 1V. Cartwright, New Orleans.
Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess.
They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Bilious Disorders - Liver Complaints. From Dr. Theodore Bell, of New York City. Not only are your Pills admirably adapted to their Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have as length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, \ Washington, D. C., 7th Feb., 1856. \}

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D.,

Yours, J. V. HIMES. WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease. From Mrs. E. Stuart, Physician and Midwife,

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best sperients I have ever found.
