## Words with the Bark On.

If the President elected by the Democracy en orces or permits others to enforce these Reconstruction Acts, the Radicals, by the accession of twenty spurious Senators and fifty Representahis administration will be as poweriess as the present one of Mr. Johnson's.

There is but one way to restore the Government to submit once more to the obligations of the Constitution. It will not be able to withstand the public judgment, if distinctly invoked and clearly sure way to avoid all future strike to put the issue plainly to the country .- Frank P. Blair.

### ELECTIONS LAST TUESDAY.

The telegraphic reports of the State elections, held last Tuesday, are so fearfully muddled, and mixed up, and conflicting, that we are almost at a loss to " grind out" anything like an intelligible statement of facts with regard to the matter. The reports through the telethorities, and of course embellished with vivid imaginations of what they think the Rogue River and Umpqua valleys are con- Democrat yet; but he don't seem to the result ought to be. Ohio has probably gone Republican by a small majority, though the Democracy have gained three Congressmen, and perhaps more. Pennsylvania shows decided Democratic gains, so far as heard from. Philadelphia goes Democratic by about 3,000 majority, the Democracy gaining four Congressmen in that city. So far as heard from the State is doubtful, both parties claiming it by a small majority. The same may be said of Indiana, though Radical sources claim the State by 7,000. There are large Democratic gains in the southern portion of the State, and when the full returns are in the State is as likely to be Democratic as Republican.

In any event Democracy is gaining ground, even though all these States go Republican by small majorities, for they have for several years been Radical by greater or less degrees. It will require a DEATH OF GEN. HOWELL COBB. very little more exertion on the part of the friends of the White Man's Party, and Democracy will sweep every one of them by handsome majorities in November. Then let Democrats not be discouraged, for it may be that at least the old Key-Stone and Hoosier States are in the hands of White, Right and Democracy, and that the Buckeye State will wheel into line in November; and, along with the other States that are certain to go Democratic, will cast their electoral votes for Seymour and Blair, triumphantly electing them to preside over the destinies of the nation for the next four years. Hurrah, for Seymour and Blair

LATER .- Hon. George H. Pendleton telegraphed to Judge Stout, at Salem, on Thursday, that Ohio had probably gone Republican, but that Indiana and Pennsylvania were doubtful and still claimed by both parties. This is authentic.

THE SPANISH REVOLUTION .- There can be no doubt of the success of the revolution in Spain, and that Queen Isabella's reign is over. But whether the Provisional Government which has been established by the Military and people will be a success as a republican form of Government, is for the future to determine. The provisional Government, as organized, is as follows: Generals Serano and Prim were made honorary Presidents, Acquirre Abbay, President, and Ribiro and Vigo Armago, Vice Presidents; Liguerolo, Minister of Finance; Solozgosta and Aztolo joined the minis

# THERE IS WORK STILL.

still work to do. The people should not rest content in the thought that Oregon is certain to cast her electoral vote for Seymour and Blair, but they should see that the majority of June last is largely increased. We believe hat with a reasonable amount of watchful vigilance and diligent labor the Democracy can carry Oregon by 2,000 major ty for the Democratic ticket in November, and why not go to work and do it? Every voter who has the good of his country at heart, and who desires to see the land redeemed from the reckless sway of Radical fanatics and public robbers should be up and doing. This is no time to falter or hang back in the race. But a few days remain before one of the most important elections ever held in America will be decided. Questions are to be determined at the polls involving the perpetuity or hopeless destruction of the Government, the preservation of the Constitution and the Union, or disunion and anarchy, liberty or despotism, the establishment of the rights of the people or the enslavement of the masses, the peace and happiness of American citizens, or confusion, misrule and disorder for another period of four years. Every voter who favors the election of Seymour, the statesman and patriot, and who wishes to defeat the time-serving leaders of th Radical party, has a duty to perform. Not a vote must be lost. The Democracy, buoyant with hope and confident of victory, must swell their majorities everywhere in order that the enemy may not only be defeated, but properly rebuked for the reckless extravagance and unfaithful stewardship exhibited in the affairs of the Government. Unscrupulous men, in secret meetings, are endeavoring to checkmate the wishes of the people by prolonging the term of Radical power. These secret proceedings of corrupt men for unworthy purposes must be met by the united, determined action ability as an orator and a statesman county, is a native of New York, and of every true patriot. He also devoted a portion of his time to the bond question and national finances, making an able defense of the Democratic doctrines of equal taxation and a uniform currency for all. But we have not space to particularize or mention in detail his many masterby points of argument upon the great and momentous issues now before the people of the country, and will only add that he acquitted himself in a manner alike creditable to himself and the party which he so ably represents in this canvass.

Dr. Bowlby followed, Mr. Burnet in a speech of an hour's length, consisting of a few of the minor ingredients that compose a Radical harangue. We confess we were disappointed in the Doctor, for we expected to hear a tol erably "big thing" from a man who was thought fit to take up the gauntlet against such an orator as the sturdy and invincible Burnet. The Doctor began to speak his piece in very bad grammar, and kept it up in very bed taste, by making war upon a fallen foe and enlogizing their oppressors. He either couldn't collect his ideas or he never had any; for we never heard a man, occupying such a responsible position, make so poor an argument out of a bad cause as he did on last Tunsday. He told us that there had been a great war, but that if Seymour and Blair were elected there would be a greater one. He said that if those gentlemen were elected, an attempt would be made to set aside the Reconstruction measures of Congress and nullify the Constitutional amendments adopted by the Republiwould not stand, but they would deluge the country in blood! The Doctor's efforts to sustain the tumbling wreck of Radicalism were so weak, puerile and abortive, that we do not desire to follow up an attack upon them; beliving, as we do, that the people of the country will administer a withering and crushing in November next, and take the alternative of the war, and blood-shed, and threaten, rather than be longer ruled
