We repeat, in substance, what we have already said about Minto, viz: That he resigned his seat in the Legislature, thus breaking up the quorum, and placing it beyoud the power of that body to pass an appropriation bill; and thus practically destroying one of the branches of the State Government. He is placed on record as an anarchist and revolutionist. SHOCKING ACCIDEN CHILD BURNED TO DEATH .- On last Sat by afternoon, while plete satisfaction to customers. the children of Mr. bes Parker, of this city, were playing not a fire which they he andled in the yard, little Mary, aged about 8 years, went too near the blaze and her dress caught fire. The children screamed, and Mrs. Parker rushed out of the house and to the rescue of the child, and attempted to the coming season. smother the flames by wrapping her own dress about the form of the girl. She succeeded, after the flames had communicated themselves to her own apparel, in subduing the fire about little Mary; and but for the assistance of some men who had rushed to the scene, she would doubtless have perished a sacrifice for her child. But, her sacrifice was of no avail, except to prolong the sufferings of her little one for a few short hours, for on last Monday morning, about 3 o'clock, the spirit of little Mary was called to the bosom of him who said, "Suffer little children to come unto me, and forbid them not, for of such is the kingdom of Heaven." The heroic mother had the thumb and forefinger of her right hand absolutely cooked to the bone, and it is feared they will have to be amputated. Little Mary is said to have been an exceedingly bright and promising child, combining gentleness and meekness of disposition with shrewdness of intellect, and her distressing death is a deep and painful blow to the parents and

RUNAWAY .- Last Sabbath afternoon, as Mr. Leo Fox, of this city, in company with a couble of ladies, was enjoying the salubrity of the day by a buggy-ride, the horses became frightened and unmanageable, and sailed through the principal streets of our city at break-neck speed. Mr. Fox held firmly to the strings until near Mr. Cherry's foundry when, in making a quick turn at the corner of the street, the vehicle upset and precipitated the whole party in one heterogeneous mass upon the bosom of "Mother Earth." Fortunately the ladies were unhurt, but Mr. Fox had his "frontis-piece" considerably bruised by a too sudden collision with the hard ground. We are glad to to state that his injuries are not serious, and that he will be sound in a few days. The horses broke loose from the vehicle when it upset, but were caught after running a short distance further on. The buggy was only injured slightly.

SPECIAL MEETING .- At the called meeting of Albany Fire Company, on last Saturday night, it was decided to purchase the lot of Mr. I. Mercier, on Second street, south side, between Ferry and Broadalbin streets, and proceed to erect a suitable Engine House thereon. A building committee was appointed, whose duty it is to make the purchase of the lot and superintend the construction of the house. It is the design of the Company to build the house by subscription of work and means from members and others who desire to assist the enterprise .-We trust our citizens will "come down" handsomely in the way of material, work, etc.; and ere many days the neat and imposing Engine House of the "One-sters" will stand out in bold relief before the adpiring gaze of the wondering populace.

MINSTRELS .- The "Appollo Troupe" performed here to a fair house on Saturday night last but failed to get a crowd on Mondayevening.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, PRIVATE MEDICAL AND SURGICAL INSTITUTE and Expressmen, the most exacting of watchwearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 400.000 of these watches are now speaking for themselves in the pockets of the Established expressly to afford the afflicted sound people-a proof of their superiority over all others. The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before
